Jira is a popular project management tool used by software development teams to track and manage their work. Managing Jira Cloud Projects certification exam is designed to test the knowledge and skills required to effectively manage Jira Cloud projects.

ATLASSIAN Managing Jira Cloud Projects Sample Questions (Q24-Q29):

NEW QUESTION # 24

An automation rule used to run successfully in your project but now it returns some errors. You inspect the rule as shown.

Identify a possible cause of the errors.

- A. Default Assignee of the project was changed.
- **B. Atalie lost Assign Issues permissions.**
- C. Atalie lost Assignable User permission.
- D. The rule was disabled.
- E. Component leads assignments were added.

Answer: B

Explanation:

The rule is triggered when an issue is created, and likely includes an action to assign the issue. If the rule previously worked but now fails with errors, and the rule is still enabled, a common cause is that the user executing the rule (Atalie) lost the Assign Issues permission, preventing the assignment action from succeeding.

NEW QUESTION # 25

Two boards display stories from a single project.

When team members view the backlog of both boards, they can only see the Color custom field on one of the boards and not the other.

They want to see it on both boards.

Which configuration must be changed?

- A. Issue layout
- **B. Card layout**
- C. Field configuration
- D. Card colors
- E. Custom field context

Answer: B

Explanation:

The Card layout controls which fields are displayed on issue cards in the backlog and board views. To show the Color custom field on both boards, it must be added to the card layout configuration for each board individually.

NEW QUESTION # 26

You shared a URL to the dashboard with Bobby but when he looks at it, the gadgets return errors that state,

"The filter configured for this gadget could not be retrieved."

What is the most likely problem with the filters?

- A. They contain corrupt JQL clauses.
- B. They return issues from team-managed projects.
- C. They return issues with hidden fields.
- **D. They are not shared with Bobby.**

Answer: D

Explanation:

The error "The filter configured for this gadget could not be retrieved" typically means that the filters used in the dashboard gadgets are not shared with Bobby. Even if Bobby has access to the projects or issues, he cannot see the results unless the filters themselves are explicitly shared with him.

NEW QUESTION # 27

Which of the following are suitable scenarios to create a new issue type? (Choose four.)

- A. Users need different required or hidden fields.
- B. Users need a separate report.
- C. Users need different screens when creating, editing, or viewing issues.
- D. Users need a different project workflow for an issue type.
- E. Users need a different notification scheme.
- F. Users need a different project permission.

Answer: A,B,C,D

NEW QUESTION # 28

Sarah's Team is responsible for developing a web application for their client. The modules will be delivered to the client batch by batch every two weeks.

Which of the following Jira Software template is suitable for Sarah's Team?

- A. Bug Tracking
- B. Kanban
- C. Scrum
- D. IT service management
- E. Project management

Answer: A

NEW QUESTION # 29
