

1Z0-1163-1 Valid Exam Practice Exam Latest Release | Updated Pdf 1Z0-1163-1 Torrent

What's more, part of that VCTorrent 1Z0-1163-1 dumps now are free: <https://drive.google.com/open?id=1RZ6A8nrkI4Vd0uArszfFK19QxOmp3ZDO>

In order to help you save more time, we will transfer 1Z0-1163-1 test guide to you within 10 minutes online after your payment and guarantee that you can study these materials as soon as possible to avoid time waste. We believe that time is the most valuable things in the world. This is why we are dedicated to improve your study efficiency and production. Moreover if you have a taste ahead of schedule, you can consider whether our 1Z0-1163-1 Exam Torrent is suitable to you or not, thus making the best choice. What's more, if you become our regular customers, you can enjoy more membership discount and preferential services.

There is no doubt that the 1Z0-1163-1 certification can help us prove our strength and increase social competitiveness. Although it is not an easy thing for some candidates to pass the exam, but our 1Z0-1163-1 question torrent can help aggressive people to achieve their goals. This is the reason why we need to recognize the importance of getting the test 1Z0-1163-1 Certification. Now give me a chance to know our 1Z0-1163-1 study tool before your payment, you can just free download the demo of our 1Z0-1163-1 exam questions on the web.

Pdf Oracle 1Z0-1163-1 Torrent - 1Z0-1163-1 Exam Dumps Collection

Compared to other products in the industry, our 1Z0-1163-1 actual exam has a higher pass rate. If you really want to pass the exam, this must be the one that makes you feel the most suitable and effective. According the data which is provided and tested by our loyal customers, our pass rate of the 1Z0-1163-1 Exam Questions is high as 98% to 100%. It is hard to find such high pass rate in the market. And the quality of the 1Z0-1163-1 training guide won't let you down.

Oracle 1Z0-1163-1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Oracle Cloud Applications and Oracle Modern Best Practice (OMBP): This section of the exam measures the skills of Cloud Application Consultants in understanding Oracle Cloud Applications and their capabilities. It covers the key offerings within the Oracle Cloud ecosystem and highlights the features of the Oracle SCM suite. Candidates will learn about data flow between the SCM OMBPs and how these processes optimize supply chain management.
Topic 2	<ul style="list-style-type: none">OMBPs for Order Management: This section evaluates the proficiency of Order Fulfillment Analysts in managing Oracle Cloud's order management modules. It covers the process flow and integration of different components to streamline order processing. Candidates will study key design considerations and metrics related to customer satisfaction, order fulfillment efficiency, and accuracy in managing customer demand.

Topic 3	<ul style="list-style-type: none"> OMBPs for Sustainability: This section assesses the knowledge of Sustainability Specialists in integrating environmental and social responsibility into supply chain and procurement processes. It focuses on the benefits of aligning sustainability goals with business operations, ensuring compliance with global regulations, and implementing eco-friendly best practices.
Topic 4	<ul style="list-style-type: none"> Oracle Cloud Success Navigator & Oracle Cloud Quality Standards: This section evaluates the skills of Cloud Implementation Managers in leveraging Oracle Cloud Success Navigator and Quality Standards for cloud adoption. It explains how best practices are embedded into Oracle Cloud Applications and applied using Starter Configuration. Candidates will understand how to optimize cloud performance and ensure successful deployments following Oracle's quality guidelines.
Topic 5	<ul style="list-style-type: none"> OMBPs for Manufacturing: This section measures the skills of Manufacturing Operations Managers in utilizing Oracle Cloud's manufacturing capabilities. It explains the flow of manufacturing processes, module integration, and best practices that enhance operational efficiency. Candidates will analyze metrics that assess productivity, cost control, and overall manufacturing performance.

Oracle Fusion Cloud Applications SCM Foundations Associate - Rel 1 Sample Questions (Q22-Q27):

NEW QUESTION # 22

How can Oracle Fusion Applications ensure that supply planning recommendations reflect the latest supplier information?

- A. Implementing manual verification of supplier information before updating supply plans.
- B. By enabling real-time supplier collaboration to update supply planning with lead times and inventory availability.**
- C. Increasing reorder points in inventory management.
- D. Using separate forecasting models for procurement and supply chain planning.

Answer: B

Explanation:

Oracle Fusion Cloud SCM ensures supply planning recommendations are up-to-date by enabling real-time supplier collaboration through tools like the Supplier Portal and Supply Chain Collaboration features. This integration allows suppliers to provide current data on lead times and inventory availability, which is directly reflected in supply plans. Option A (manual verification) contradicts Oracle's automation-driven approach. Option B (increasing reorder points) is a reactive measure, not a solution for real-time updates. Option D (separate forecasting models) undermines the unified planning framework of Oracle Fusion. Real-time collaboration enhances planning accuracy and responsiveness.

NEW QUESTION # 23

Which feature in Oracle Fusion Cloud SCM ensures product availability commitments based on inventory and supply constraints?

- A. Available to Promise (ATP).**
- B. Cost Accounting.
- C. Supplier Portal.
- D. Manufacturing Execution.

Answer: A

Explanation:

Available to Promise (ATP) (C) in Oracle Fusion Cloud SCM ensures product availability commitments by calculating how much inventory is available for new orders based on current stock and supply constraints like production schedules and supplier lead times. For example, if 100 units are on hand with 40 committed, ATP shows 60 units available, ensuring accurate promises. Option A (Cost Accounting) tracks financials, not availability. Option B (Supplier Portal) supports collaboration, not direct commitment calculations. Option D (Manufacturing Execution) manages production, not order promising. ATP's real-time analysis prevents overpromising, aligning customer expectations with operational capacity.

NEW QUESTION # 24

Which key metric measures the effectiveness of the Demand Forecast to Supply Plan OMBP?

- A. Supply Chain Flexibility.
- **B. Demand Fulfillment.**
- C. Lead Time Variability.
- D. Supplier Service Quality.

Answer: B

Explanation:

The Demand Forecast to Supply Plan OMBP in Oracle Fusion Cloud SCM bridges demand forecasting with supply planning, and its effectiveness is best measured by Demand Fulfillment—the percentage of demand met on time and in full. This metric evaluates how well the supply plan, derived from forecasts, satisfies actual customer orders. For example, if a forecast predicts 500 units and the supply plan delivers 480 units on time, the fulfillment rate is 96%. Option A (Lead Time Variability) assesses supplier performance, not the forecast-to-plan process. Option B (Supplier Service Quality) focuses on supplier reliability, a separate concern. Option C (Supply Chain Flexibility) measures adaptability, not direct fulfillment success. Demand Fulfillment ties directly to the OMBP's goal of aligning supply with demand, ensuring customer satisfaction and operational efficiency while minimizing excess inventory or stockouts.

NEW QUESTION # 25

Which feature in Oracle Fusion Cloud Procurement automates the creation of purchase orders from contracts?

- A. Intelligent Document Recognition (IDR).
- B. Supplier Portal.
- C. Receipt Accounting.
- **D. Contract Fulfillment Automation.**

Answer: D

Explanation:

Contract Fulfillment Automation (C) in Oracle Fusion Cloud Procurement automates the creation of purchase orders (POs) directly from contract terms, streamlining the procurement process. This feature uses predefined contract details—such as items, quantities, pricing, and delivery schedules—to generate POs without manual intervention. For example, if a contract stipulates 1,000 units of a product at \$10 each over six months, Contract Fulfillment Automation triggers POs as needed (e.g., 200 units monthly), ensuring accuracy and compliance with the agreement. Option A (Receipt Accounting) records goods received, not PO creation. Option B (Supplier Portal) enables supplier interaction but doesn't automate PO generation from contracts. Option D (IDR) extracts data from documents like invoices, not contracts for PO creation. This automation reduces errors (e.g., mismatched quantities), saves time, and ensures procurement aligns with negotiated terms, enhancing efficiency and supplier relationships.

NEW QUESTION # 26

What is the purpose of the Back-to-Back Order Fulfillment process in Oracle Fusion Cloud SCM?

- **A. It links customer orders to supplier purchase orders for direct fulfillment.**
- B. It eliminates the need for supplier collaboration.
- C. It delays order fulfillment until inventory is replenished.
- D. It prioritizes warehouse stock over supplier sourcing.

Answer: A

Explanation:

The Back-to-Back Order Fulfillment process (D) links customer orders directly to supplier purchase orders, enabling direct fulfillment without relying solely on existing inventory. For example, a customer orders 50 custom widgets; the system generates a PO to the supplier, who ships directly or via the warehouse, reducing stock holding. Option A is incorrect—it favors supplier sourcing when stock is unavailable. Option B is false—it accelerates, not delays, fulfillment. Option C is wrong—supplier collaboration is essential. This process cuts inventory costs, speeds delivery, and supports make-to-order models efficiently.

NEW QUESTION # 27

.....

In order to cater to different needs for customers, three versions for 1Z0-1163-1 training materials are available, and you can choose the most suitable one according to your own needs. 1Z0-1163-1 PDF version is printable, and if you prefer to practice on paper, you can choose this version and print it into hard one. 1Z0-1163-1 Soft test engine can stimulate the real exam environment, so that you can know the process of the exam, you can choose this version. Besides, 1Z0-1163-1 Soft test engine has two modes for practice, and it supports MS operating system. 1Z0-1163-1 Online test engine is convenient and easy to learn, and it has testing history and performance review, if you like this mode, you can choose this version.
