

# Valid C\_BCBTP\_2502 Braindumps - C\_BCBTP\_2502 Valid Test Blueprint

You will find that it is easy to buy our C\_BCBTP\_2502 exam questions, as you add them to the cart and pay for them. You can receive them in 5 to 10 minutes and then you can study at once. What's more, during the whole year after purchasing, you will get the latest version of our C\_BCBTP\_2502 Study Materials for free. You can see it is clear that there are only benefits for you to buy our C\_BCBTP\_2502 learning guide, so why not just have a try right now?

Prep4sures is a reliable platform to provide candidates with effective C\_BCBTP\_2502 study braindumps that have been praised by all users. For find a better job, so many candidate study hard to prepare the C\_BCBTP\_2502 exam. It is not an easy thing for most people to pass the C\_BCBTP\_2502 exam, therefore, our website can provide you with efficient and convenience learning platform, so that you can obtain the C\_BCBTP\_2502 certificate as possible in the shortest time. Just study with our C\_BCBTP\_2502 exam questions for 20 to 30 hours, and then you will be able to pass the C\_BCBTP\_2502 exam with confidence.

## New Valid C\_BCBTP\_2502 Braindumps 100% Pass | Latest C\_BCBTP\_2502 Valid Test Blueprint: SAP Certified Associate - Positioning SAP Business Technology Platform as part of SAP Business Suite

When dealing with any kind of exams, the most important thing is to find a scientific way to review effectively. Our C\_BCBTP\_2502 practice materials compiled by the most professional experts. Till now, we have over tens of thousands of customers around the world supporting our C\_BCBTP\_2502 exam torrent. If you are unfamiliar with our C\_BCBTP\_2502 Study Materials, please download the free demos for your reference. To some unlearned exam candidates, you can master necessities by our C\_BCBTP\_2502 practice materials quickly So our materials are elemental materials you cannot miss.

### SAP Certified Associate - Positioning SAP Business Technology Platform as part of SAP Business Suite Sample Questions (Q33-Q38):

#### NEW QUESTION # 33

What is the primary function of SAP Business Process Intelligence?

- A. To replace existing workflow automation tools.
- B. To manage API security and integrations.
- C. To store customer transactional data.
- D. To analyze and optimize business processes using AI-driven insights.

**Answer: D**

Explanation:

Before an organization can automate or improve its operations, it must first understand how its processes are actually running. The primary function of SAP Business Process Intelligence (largely centered around the SAP Signavio suite) is to analyze and optimize

business processes using AI-driven insights. It provides

"Process Mining" capabilities that scan the data logs of the SAP Business Suite to reveal the "real" path a business process takes, often uncovering hidden bottlenecks, manual workarounds, and deviations from the standard procedure.

By positioning Business Process Intelligence as a starting point for digital transformation, SAP BTP allows organizations to make data-backed decisions about where to automate. For example, the tool might discover that a specific regional office takes twice as long to process purchase orders compared to the global average.

Using AI, it can identify the root cause-such as a lack of automation or incorrect master data-and recommend specific BTP services (like SAP Build) to fix the issue. This creates a cycle of continuous improvement, where processes are constantly monitored, analyzed, and optimized, ensuring that the SAP Business Suite operates at peak efficiency and remains aligned with the company's strategic goals.

#### NEW QUESTION # 34

Which of the following are key products of SAP Business Technology Platform (SAP BTP)? (Choose two).

- A. SAP SuccessFactors
- **B. SAP HANA Cloud**
- C. SAP Ariba
- **D. SAP Integration Suite**

**Answer: B,D**

Explanation:

SAP Business Technology Platform (SAP BTP) is organized into four primary functional pillars: Database and Data Management, Analytics, Application Development and Integration, and Intelligent Technologies.

SAP HANA Cloud serves as the foundation of the Database and Data Management pillar, providing a single, integrated powerhouse for all enterprise data. It offers the speed of in-memory processing combined with the scalability of the cloud, allowing businesses to manage large volumes of data while providing a "single source of truth." On the other hand, SAP Integration Suite is the cornerstone of the Integration pillar. It is an integration platform-as-a-service (iPaaS) that allows organizations to seamlessly connect SAP and non-SAP applications, whether they reside on-premise or in the cloud. It provides pre-built content and connectors that significantly reduce the complexity of landscape orchestration. In contrast, SAP Ariba and SAP SuccessFactors are specialized Software-as-a-Service (SaaS) applications. While they are part of the broader SAP ecosystem and often run on or integrate via BTP, they are considered line-of-business (LoB) solutions rather than core components of the technology platform itself. Understanding this distinction is vital for positioning BTP as the underlying "glue" that enables the "Intelligent Enterprise" strategy by providing the technical tools necessary to extend and integrate these LoB applications.

#### NEW QUESTION # 35

Which of the following SAP BTP components enhances enterprise data governance?

- A. SAP Concur
- B. SAP AppGyver
- C. SAP BusinessObjects BI
- **D. SAP Data Intelligence**

**Answer: D**

Explanation:

Data governance is the practice of ensuring that data is accurate, available, and secure across an organization.

SAP Data Intelligence is the primary component within SAP BTP that addresses this need. It provides advanced metadata management and data cataloging capabilities, which are the foundations of governance. A data catalog acts like a "search engine" for enterprise data, allowing users to understand the origin (lineage), quality, and sensitivity of the information they are working with. In a complex SAP Business Suite environment, data often moves through multiple stages and systems. SAP Data Intelligence tracks this "data lineage," showing how data was transformed as it moved from an ERP system to a reporting dashboard. This transparency is crucial for regulatory compliance (like GDPR) and for building trust in the data used for decision-making. If a financial report looks incorrect, governance tools allow IT to trace the data back to its source to find the error. By positioning Data Intelligence as the governance hub, SAP BTP ensures that the "Intelligent Enterprise" is built on a foundation of high-quality, trusted data. This is a significant differentiator from tools like SAP BusinessObjects (which focuses on reporting) or SAP Concur (which focuses on expenses), as Data Intelligence provides the underlying control layer for the entire data ecosystem.

### NEW QUESTION # 36

How does SAP LeanIX support IT landscape management when integrated with SAP BTP?

- A. By restricting governance of IT landscapes.
- B. By enforcing manual IT infrastructure tracking.
- **C. By providing enterprise architecture visualization and analysis.**
- D. By preventing real-time integration with business processes.

**Answer: C**

Explanation:

As organizations adopt SAP BTP to build and extend their applications, their IT landscapes can become increasingly complex. SAP LeanIX (now a core part of SAP's enterprise architecture strategy) supports management by providing comprehensive visualization and analysis of the enterprise architecture. When integrated with SAP BTP, LeanIX allows IT leaders to see exactly how different BTP services, cloud applications, and on-premise systems are interconnected. This "map" of the IT landscape is essential for identifying redundant applications, managing technical debt, and ensuring that the IT strategy aligns with business goals.

The positioning of LeanIX alongside BTP is crucial for "Transformation Management." During a move to SAP S/4HANA or a transition to the cloud, LeanIX helps organizations plan their roadmap by showing the impact of changes on the existing architecture. It provides data-driven insights into which applications are critical, which are obsolete, and where there are gaps in security or compliance. By providing this transparency, LeanIX empowers architects to make informed decisions about where to deploy new BTP services. This prevents the "sprawl" of unmanaged cloud services and ensures that the evolution of the SAP Business Suite is organized, cost-effective, and fully aligned with the broader digital transformation objectives of the company.

### NEW QUESTION # 37

Which SAP BTP service allows businesses to create low-code/no-code applications?

- A. SAP Concur
- B. SAP BusinessObjects
- **C. SAP Build Apps**
- D. SAP Business Network

**Answer: C**

Explanation:

To accelerate digital transformation, SAP has introduced the SAP Build portfolio on BTP, which is specifically designed to democratize application development. SAP Build Apps (formerly AppGyver) is the primary service within this portfolio that enables the creation of enterprise-grade applications using a no-code visual environment. This service allows users to build sophisticated user interfaces for mobile and web applications by simply dragging and dropping components. It also includes a visual logic editor, which eliminates the need to write traditional code for defining how the application behaves.

The strategic importance of SAP Build Apps within the SAP Business Technology Platform is its ability to reduce the backlog of IT departments. By allowing business experts—who understand the process but may not know how to code—to build their own solutions, SAP ensures that innovation can happen at the "front lines" of the business. These apps can easily be connected to SAP S/4HANA or other backend systems through secure APIs, ensuring that data integrity is maintained. This contrasts with tools like SAP BusinessObjects, which is focused on business intelligence and reporting, or SAP Concur, which is a specific SaaS application for travel and expense management. SAP Build Apps is a foundational service for positioning BTP as an agile platform for rapid extension and innovation.

### NEW QUESTION # 38

.....

The key trait of our product is that we keep pace with the changes the latest circumstance to revise and update our C\_BCBTP\_2502 study materials, and we are available for one-year free updating to our customers. Our company has established a long-term partnership with those who have purchased our C\_BCBTP\_2502 exam guides. We have made all efforts to update our product in order to help you deal with any change, making you confidently take part in the exam. We will inform you that the C\_BCBTP\_2502 Study Materials should be updated and send you the latest version of our C\_BCBTP\_2502 exam questions in a year after your payment.

**C\_BCBTP\_2502 Valid Test Blueprint:** [https://www.prep4sures.top/C\\_BCBTP\\_2502-exam-dumps-torrent.html](https://www.prep4sures.top/C_BCBTP_2502-exam-dumps-torrent.html)

Working with Excel's Workbook Files, Once authenticated, Practice C\_BCBTP\_2502 Questions the client accesses your Web Service with credentials that you validate with the PassportService to authorize them to use your service, in **Valid C\_BCBTP\_2502 Braindumps** addition to discovering billing information and other data that the client has enabled you to see.

And please think about this, as I just mentioned, in the matter of fact, you can pass the exam with the help of our exam study materials only after practice for 20 to 30 hours, which means it is highly possible that you can still receive the New C\_BCBTP\_2502 Test Prep materials from us after you have passed the exam if you are willing, so you will have access to learn more about the important knowledge of the IT industry or you can pursue wonderful C\_BCBTP\_2502 pass score, it will be a good way for you to broaden your horizons as well as improve your skills.

Our thoughtful aftersales services give many C\_BCBTP\_2502 exam candidates reliable and comfortable service experience, Prep4sures knows that your time is precious, and the attempts C\_BCBTP\_2502 Exam Questions And Answers of these certifications cost a high amount of money which creates anxiety.
