

# NEX Valid Examcollection - Pass NEX Rate

P.S. Free & New NEX dumps are available on Google Drive shared by TrainingQuiz <https://drive.google.com/open?id=1UqF9i-FUhdLNkxvVjU2wtNdB6Grutqw>

Get the test NEX certification is not achieved overnight, we need to invest a lot of time and energy to review, and the review process is less a week or two, more than a month or two, or even half a year, so NEX exam questions are one of the biggest advantage is that it is the most effective tools for saving time for users. Users do not need to spend too much time on NEX Questions torrent, only need to use their time pieces for efficient learning, the cost is about 20 to 30 hours, users can easily master the test key and difficulties of questions and answers of NEX prep guide.

All questions on our NEX exam questions are strictly in accordance with the knowledge points on newest test syllabus. Also, our experts are capable of predicating the difficult knowledge parts of the NEX exam according to the test syllabus. We have tried our best to simply the difficult questions of our NEX Practice Engine to be understood by the customers all over the world. No matter the students, office staffs, even someone who know nothing about this subject can totally study it without difficulty.

## Pass NLN NEX Rate, Reliable NEX Study Materials

For successful preparation, it is essential to have good NLN NEX Exam Dumps and to prepare questions that may come up in the exam. TrainingQuiz helps candidates overcome all the difficulties they may encounter in their exam preparation. To ensure the candidates' satisfaction, TrainingQuiz has a support team that is available 24/7 to assist with a wide range of issues.

## NLN Nursing Entrance Exam (Math, Science and Verbal) Sample Questions (Q107-Q112):

### NEW QUESTION # 107

Review the diagram below of the human eye.

Structure number 1 is necessary in order for the eye to

- A. protect itself from the entrance of foreign objects and debris.
- B. pick up light stimuli from the environment.

- C. regulate the amount of light entering the posterior chamber.
- **D. focus images on the retina.**

**Answer: D**

Explanation:

Structure number 1 in the diagram represents the lens of the eye. The lens plays a crucial role in focusing incoming light onto the retina so that clear images can be formed. It changes shape through a process called accommodation, allowing the eye to focus on objects at varying distances. Protection from debris is mainly the function of the cornea, eyelids, and eyelashes. Regulation of light entering the eye is controlled by the iris, which adjusts the size of the pupil. Picking up light stimuli is the role of rods and cones located in the retina.

Because the lens is responsible for bending and focusing light precisely onto the retina, option A is correct.

The NEX Science exam frequently tests the relationship between eye structures and their functions, particularly focusing mechanisms.

---

### NEW QUESTION # 108

Solve for y and round to the nearest tenth.

- **A. 24.3**
- B. 34.0
- C. 24.1
- D. 24.5

**Answer: A**

Explanation:

This equation involves a mixed number and rounding. First convert the mixed number into a decimal. Five divided by eight equals 0.625, so the mixed number becomes 2.625. The equation now reads:

$$2.625y + 0.25 = 64.$$

Subtract 0.25 from both sides to isolate the term with y:

$$2.625y = 63.75.$$

Next, divide both sides by 2.625:

$$y \approx 24.2857.$$

The question asks for the answer rounded to the nearest tenth. Rounding 24.2857 gives 24.3. Therefore, option A is correct. NEX math questions frequently combine fractions, decimals, and rounding, so converting to decimals early helps reduce errors.

---

### NEW QUESTION # 109

Reading Comprehension

Passage:

Preventive screenings can identify health problems before symptoms develop. Early detection often leads to more effective treatment and better outcomes.

What is the benefit of preventive screenings?

- A. Reducing healthcare visits
- **B. Identifying problems early**
- C. Eliminating disease entirely
- D. Avoiding medical treatment

**Answer: B**

Explanation:

The passage emphasizes that preventive screenings allow health problems to be identified before symptoms appear. Option C accurately reflects this benefit. The other options are either incorrect or exaggerated. On the NEX exam, benefit questions often focus on early intervention and prevention themes.

---

### NEW QUESTION # 110

A supply room has 18 boxes of gloves. Each box contains 120 gloves. If 25% of the gloves are used, how many gloves remain?

- A. 2,160
- B. 1,350
- C. 1,944
- **D. 1,620**

**Answer: D**

Explanation:

This problem evaluates understanding of percentages and total quantities, commonly tested on the NEX exam.

First, calculate the total number of gloves available. Multiply the number of boxes by the number of gloves per box:  $18 \times 120 = 2,160$  gloves total. Next, determine how many gloves were used. Since 25% were used, convert 25% to a decimal (0.25) and multiply by the total number of gloves:  $0.25 \times 2,160 = 540$  gloves used.

To find how many gloves remain, subtract the number used from the total:  $2,160 - 540 = 1,620$  gloves remaining. Therefore, option A is correct. Option C represents the original total, not the remainder. Option D reflects incorrect subtraction, and option B results from miscalculating the percentage used. On the NEX Math Section, it is critical to identify whether the question asks for the amount used or the amount remaining before selecting an answer.

### NEW QUESTION # 111

When you increase the angle between your radius and humerus, the action is known as

- **A. extension**
- B. flexion
- C. circumduction
- D. retraction

**Answer: A**

Explanation:

Extension is the movement that increases the angle between two bones at a joint. When the arm straightens at the elbow, the angle between the radius and the humerus increases, which is extension. Flexion decreases the angle between bones, circumduction is a circular movement, and retraction refers to pulling a structure backward. Understanding anatomical movement terms is essential for the NEX Science exam, especially in questions related to joints and motion.

### NEW QUESTION # 112

.....

Our NEX valid study guide is edited by out IT professional experts and focus on providing you with the most updated study material for all of you. You will pass your NEX actual test in your first attempt. With the help of NLN NEX Current Exam Content, you will be more confident and positive to face your coming test. After you get your NEX certification, you will be getting close to your dream.

**Pass NEX Rate:** <https://www.trainingquiz.com/NEX-practice-quiz.html>

If you decide to join us, you will receive valid Pass NEX Rate - Nursing Entrance Exam (Math, Science and Verbal)practice torrent, with real questions and accurate answers, NLN NEX Valid Examcollection Our customer privacy protection software system protecting your privacy, NLN NEX Valid Examcollection The pdf dumps are like your reading book, you could download and read it in your phone, computer, ipad and any device, There is guarantee to pass the exam after preparing with our NEX VCE engine or test dumps.
