Our company has hired the most professional team of experts at all costs to ensure that the content of I27001F guide questions is the most valuable. you really must get international certification!

CertiProf Certified ISO/IEC 27001:2022 Foundation Sample Questions (Q41-Q46):

NEW QUESTION # 41

In ISO/IEC 27001:2022, what does the information security risk assessment process refer to?

- A. Identifying risk owners
- B. Establishing and maintaining information security risk criteria
- C. Identifying information security risks
- **D. All of the above**

Answer: D

Explanation:

ISO/IEC 27001:2022 requires the organization to establish and maintain information security risk criteria, identify information security risks, and identify risk owners as part of the risk assessment process. These activities are core elements of clause 6 on planning and risk assessment. Since all of the listed options are required parts of the process, the correct answer is D.

NEW QUESTION # 42

Which of the following activities are responsibilities of top management?

- A. Supporting the drive for continual improvement
- B. Assigning the resources necessary to maintain the system
- C. Ensuring compliance with the information security policy
- **D. All of the above**

Answer: D

Explanation:

ISO/IEC 27001:2022 requires top management to demonstrate leadership and commitment with respect to the ISMS. This includes ensuring that the information security policy and objectives are established, ensuring that the resources needed for the ISMS are available, and promoting continual improvement. Top management is also responsible for supporting relevant roles and ensuring that the ISMS achieves its intended outcomes.

Since all of the listed activities align with top management responsibilities, option D is correct.

NEW QUESTION # 43

What are the phases of the PDCA cycle?

- A. Plan, Validate, Verify, Act
- **B. Plan, Do, Check, Act**
- C. Plan, Do, Verify, Assure
- D. Propose, Do, Validate, Act

Answer: B

Explanation:

The PDCA cycle stands for Plan, Do, Check, Act. It is a management model commonly associated with management systems, including the implementation and continual improvement of an ISMS. In the context of ISO/IEC 27001:2022, this logic supports planning the ISMS, implementing and operating it, monitoring and reviewing performance, and taking actions for continual improvement. Therefore, option B is correct.

NEW QUESTION # 44

According to ISO/IEC 27001:2022, who is required to carry out the ISMS review to ensure its suitability, adequacy, and effectiveness?

- **A. Top management**
- B. The external certification audit company
- C. The internal audit team
- D. Process owners

Answer: A

Explanation:

The standard requires top management to review the ISMS at planned intervals. This review is intended to confirm the continuing suitability, adequacy, and effectiveness of the ISMS. While auditors, process owners, and certification bodies may provide inputs or findings, the management review itself is a responsibility of top management. Therefore, option D is the correct answer.

NEW QUESTION # 45

Which statement describes a critical success factor for an Information Security Management System ISMS?

- A. Performing a second-party audit
- **B. Implementing a measurement system used to evaluate information security management performance and provide suggestions for improvement**
- C. Appointing at least two internal auditors for the information security system
- D. Hiring an information security coordinator

Answer: B

Explanation:

An effective ISMS depends on monitoring, measurement, analysis, and evaluation. ISO/IEC 27001:2022 requires the organization to determine what needs to be monitored and measured, how this will be done, and when the results will be analyzed and evaluated. A measurement system supports informed decision-making, demonstrates performance, and enables continual improvement. The other options may be useful in some organizations, but they are not critical success factors defined by the standard. Therefore, option B is the best answer.

NEW QUESTION # 46

.....

Based on high-quality products, our I27001F guide torrent has high quality to guarantee your test pass rate, which can achieve 98% to 100%. I27001F study tool is updated online by our experienced experts, and then sent to the user. So you don't need to pay extra attention on the updating of study materials. The data of our I27001F Exam Torrent is forward-looking and can grasp hot topics to help users master the latest knowledge. If you are not reconciled and want to re-challenge yourself again, we will give you certain discount.
