As the most popular study materials in the market, our AWS-Developer practice guide can give you 100% pass guarantee. You will feel grateful if you choose our AWS-Developer training questions.

Amazon AWS Certified Developer Associate Exam (DVA-C02) Sample Questions (Q207-Q212):

NEW QUESTION # 207
An IT consulting company wants to reduce costs when operating its development environment databases. The company's workflow creates multiple Amazon Aurora MySQL DB clusters for each development group. The Aurora DB clusters are only used for 8 hours a day. The DB clusters can then be deleted at the end of the development cycle, which lasts 2 weeks.
Which of the following provides the MOST cost-effective solution?

- A. Use AWS CloudFormation templates. Deploy a stack with the DB cluster for each development group. Delete the stack at the end of the development cycle.
- B. Use Aurora Replicas. From the master automatic pause compute capacity option, create replicas for each development group, and promote each replica to master. Delete the replicas at the end of the development cycle.
- C. Use the Aurora DB cloning feature. Deploy a single development and test Aurora DB instance, and create clone instances for the development groups. Delete the clones at the end of the development cycle.
- D. Use Aurora Serverless. Restore current Aurora snapshot and deploy to a serverless cluster for each development group.

Enable the option to pause the compute capacity on the cluster and set an appropriate timeout.

Answer: D

NEW QUESTION # 208
A developer is creating a new application that will be accessed by users through an API created using Amazon API Gateway The users need to be authenticated by a third-party Security Assertion Markup Language (SAML) identity provider Once authenticated, users will need access to other AWS services such as Amazon S3 and Amazon DynamoDB How can these requirements be met?

- A. Use Amazon Cognito Identity pools with a SAML identity provider as one of the authentication providers
- B. Use an Amazon Cognito user pool with SAML as the resource server
- C. Use Amazon CloudFront signed URLs to connect with the SAML identity provider
- D. Use the AWS IAM service to provide the sign-up and sign-in functionality.

Answer: A

NEW QUESTION # 209
A Developer has been asked to make changes to the source code of an AWS Lambda function. The function is managed using an AWS CloudFormation template. The template is configured to load the source code from an Amazon S3 bucket. The Developer manually created a .ZIP file deployment package containing the changes and put the file into the correct location on Amazon S3. When the function is invoked, the code changes have not been applied.
What step is required to update the function with the changes?

- A. Modify the execution role of the Lambda function to allow S3 access permission to the deployment package .ZIP file.
- B. Update the CloudFormation stack with the correct values for the function code properties S3Bucket, S3Key, or S3ObjectVersion.
- C. Delete the .ZIP file on S3, and re-upload by using a different object key name.
- D. Ensure that the function source code is base64-encoded before uploading the deployment package to S3.

Answer: A

NEW QUESTION # 210
Which one of the following data types does Amazon DynamoDB not support?

- A. Binary
- B. String
- C. Arrays
- D. Number Set

Answer: C

Explanation:
Amazon DynamoDB supports the following data types:
Scalar data types (like Number, String, and Binary)
Multi-valued types (like String Set, Number Set, and Binary Set).

NEW QUESTION # 211
An application development team decides to use AWS X Ray to monitor application code to analyze performance and performer cause analysis.
What does the team need to do to begin using X Ray? (Select TWO)

- A. Instrument application code using the AWS SDK
- B. Create an Amazon DynamoDB table to store the trace logs
- C. Log instrumentation output into an Amazon SQS queue
- D. Install the X-Ray agent on the application servers

- E. Use a visualization tool to view application traces

Answer: D,E

Explanation:
