Arch-303시험패스가능한인증공부, Arch-303시험패스

ARCH 303 Principles of Spatial Design I   4 units

CATLOGUE COURSE DESCRIPTION

Introduction to design principles and processes; sequence of exercises emphasizing development of basic skills, ideas, and techniques used in the creation of simplified urban design projects.

INTENT

Following the introduction to various visualization practices used to understand the urban form and activities as explored in ARCH 203, Arch 303 Principles of Spatial Design I explores a set of fundamental concepts underlying both architectural and urban design. Within this course exercises ensure each student's understanding of: figure versus field, the relationship of part to the whole, the creation of sequence and place, the distinction between scale versus size, and the way that basic spatial typologies and other organizational ideas can help organize ideas and programmatic needs in urban form. In addition, the course is meant to introduce: (1) design methodology (including ideas of abstraction, concept, reiteration and synthesis); (2) particular digital and model skills; and (3) to explore precedent study as it relates to design.

ASSIGNMENTS

There are four major assignments due throughout the semester, each with a break-out digital skill exercise and a precedent study.

    Project #1: Understanding Figure/Field

    Project #2: Understanding Sequence/Place

    Project #3: Understanding Scale/Size

    Project #4: Understanding Urban Typologies

Requirements for each GeoDesign project will be handed out in writing. Daily or weekly assignments may be given verbally and may differ from section to section. Full completion of all assigned work is critical to success in this course. Assignments that do not reflect adequate progress or completion will not be discussed during desk critiques, pin-ups and reviews.

SCHEDULE

Week 1	Tues (2PM-6 PM) Semester Overview/ Project #1 (Figure/Field) Introduced
	Thurs (2PM-6 PM) Digital Skill Exercise
Week 2	Tues (2PM-6 PM) Desk Critiques
	Thurs (2PM-6 PM) In-Class Precedent Study
Week 3	Tues (2PM-6 PM) Desk Critiques
	Thurs (2PM-6 PM) Project #1 Due/Project #2 (Sequence/Place) Introduced
Week 4	Tues (2PM-6 PM) Digital Skill Exercise
	Thurs (2PM-6 PM) In-Class Precedent Study
Week 5	Tues (2PM-6 PM) Desk Critiques

Salesforce Arch-303 덤프는 pdf버전,테스트엔진버전, 온라인버전 세가지 버전의 파일로 되어있습니다. pdf버전은 반드시 구매하셔야 하고 테스트엔진버전과 온라인버전은 pdf버전 구매시 추가구매만 가능합니다. pdf버전은 인쇄가능하기에 출퇴근길에서도 공부가능하고 테스트엔진버전은 pc에서 작동가능한 프로그램이고 온라인버전은 pc외에 휴태폰에서도 작동가능합니다.

IT업계 취업 준비생이라면 국제적으로도 승인받는 IT인증자격증 정도는 몇개 취득해야 하지 않을가 싶습니다. Salesforce인증 Arch-303시험을 통과하여 인기 자격증을 취득하시면 취업경쟁율이 제고되어 취업이 쉬워집니다. ExamPassdump의Salesforce인증 Arch-303덤프는 많은 시험본 분들에 의해 검증된 최신 최고의 덤프공부자료입니다. 망설이지 마시고ExamPassdump제품으로 한번 가보세요.

>> Arch-303시험패스 가능한 인증공부 <<

최신 Arch-303시험패스 가능한 인증공부 인증시험 인기 시험자료

ExamPassdump사이트에서 제공하는Salesforce 인증Arch-303 덤프의 일부 문제와 답을 체험해보세요. 우리 ExamPassdump의 를Salesforce 인증Arch-303 덤프공부자료를 선택해주신다면 우리는 최선을 다하여 여러분이 꼭 한번에 시험을 패스할 수 있도록 도와드리겠습니다.만약 여러분이 우리의 인증시험 덤프를 보시고 시험이랑 틀려서 패스를 하지 못하였다면 우리는 무조건 덤프비용 전부를 환불해드릴것입니다. ExamPassdump제품으로 자격증을 정복합시다!

최신 Salesforce Architect Arch-303 무료샘플문제 (Q51-Q56):

질문 # 51

The client provided these business requirements:
* The B2C Commerce platform will integrate with the client's Order Management System (OMS).
* The OMS supports Integration us-no legacy RPC style SOAP services.
* The OMS is hosted on client s infrastructure.
What is the right cartridge folder to place the WSDL provided for the OMS service?

- A. /cartridge
- B. /cartridge/services
- C. /cartridge/webreferences
- D. /cartridge/webreferences2

정답：C

설명：

In Salesforce Commerce Cloud, the standard practice for organizing WSDL files for SOAP services is to place them in the /cartridge/webreferences directory. This folder is specifically designed for storing web service definitions (WSDLs), ensuring they are managed in a structured manner within the cartridge. This organization aids in maintaining clean architecture and simplifies access to these service definitions for development and maintenance purposes.

질문 # 52

The Client is planning to switch to a new Payment Service Provider (PSP). They have approached an Architect to understand the time and effort to Integrate the new PSP The PSP offers a LINK cartridge compatible with SiteGenesisPipelines, but the Client's website is build on Controllers.
Which two options should the Architect take into consideration before starting analysis? Choose 2 answers

- A. Reach out to the PSP development team and ask if a new cartridge version that supports controllers is under development
- B. Estimate the effort and risk to convert the LINK cartridge from pipelines to controllers.
- C. Produce a proof of concept converting the most essential pipelines into controllers and integrate the cartridge.
- D. Look fora different PSP that supports controllers and would not require conversion efforts.

정답：A,B

설명：

When integrating a new Payment Service Provider (PSP) LINK cartridge designed for SiteGenesis Pipelines into a site built on Controllers, consider these options:
* Option A (Estimate the effort and risk to convert the LINK cartridge from pipelines to controllers): Assessing the effort involved in converting the cartridge provides insight into the project scope, helping to manage risk and allocate resources effectively.
* Option B (Reach out to the PSP development team and ask if a new cartridge version that supports controllers is under development): This can potentially save significant development time and resources if a compatible version is already planned or in progress.
These approaches help in making an informed decision on integration strategies, balancing between customization efforts and leveraging existing solutions.

질문 # 53

An Architect is documenting the technical design for a single B2C Commerce storefront. The Client has a business requirement to provide pricing that is customized to specific groups:
* 50 different pricing groups of customers
* 30 different pricing groups of employees
* 10 different pricing groups of vendors
Which items should the Architect include in the design in order to set applicable price books based on these requirements" Choose 2 answers

- A. - One customer group and SO subgroups for customers- One customer group and 30 subgroups for employees- Onecustomer group and 10 subgroups for vendors
- B. - One promotion and 50 campaigns for customers- One promotion and 30 campaigns for employees- One promotion and 10 campaigns forvendors
- C. - 50 customer groups for customers- 30 customer groups for employees- 10 customer groups for vendors
- D. - One campaign and multiple promotions for each customer group

정답：**C,D**

설명：

For handling multiple pricing groups with specific discounts or prices for different customer groups, the optimal approach involves setting up separate customer groups for customers, employees, and vendors (Answer A). This setup allows the storefront to apply specific price books to each group accurately based on their designation. Furthermore, utilizing campaigns and multiple promotions tailored to each customer group (Answer C) facilitates targeted marketing efforts and pricing strategies effectively. These practices ensure that each group receives relevant pricing adjustments and promotional offers, thereby enhancing the shopping experience and managing financial transactions efficiently within Salesforce B2C Commerce.

질문 # 54

Northern Trail Outfitters (NTO) operate 200 physical stores. NTO has products that are available in some of the physical stores and not available in others. The closest physical store is determined based on customer s post zip code when they are shopping online. Only the products that are available in the customer's closest physical store should be presented to the customer to the search results.

What are the two feasible technical approaches to meet these requirements?

Choose 2 answers

- A. Create a separate site per physical store. Use post/zip code to redirect the customer to the relevant site. Show the products from the site navigation catalog.
- B. Create a separate category per physical store use post/Tip code with a mapping to determine the relevant category. Show only the products from this category.
- C. Create a separate shipping method per physical store. Use post/zip code to determine the applicable shipping method. Show only the products that are not excluded from the shipping method.
- D. Create a separate pricebook per physical store. Use post/zip code to activate this pricebook through a customer group. Show only the products with price by applying price refinement.

정답：**B,D**

설명：

For Northern Trail Outfitters to ensure that only products available in a customer's closest physical store are shown:
* Option B is effective because it organizes inventory by store-specific categories, which can then be dynamically linked to a customer's location via their postal/zip code. This allows the system to filter search results based on the relevant category that corresponds to the closest store.
* Option D leverages separate pricebooks that are specific to each store, enabling product availability to be managed through price refinements. This method also uses the customer's zip code to activate the appropriate pricebook, ensuring that only products priced (and thus available) in the nearest store are displayed.
Both methods are scalable and integrate seamlessly with the existing infrastructure of the Salesforce B2C Commerce platform.

질문 # 55

An ecommerce site has dynamic shipping cost calculation. it allows the customers to see their potential shipping costs on the Product Detail Page before adding an item to the cart.

For this feature, shipping touts are calculated using the following logic:
* Set the shipping method on the Basket
* Add the item to the basket, calculate the basket total and get the shipping cost for this method
* Remove the item from the Basket to restore the original state
* The above process is repeated for each shipping method
During the testing it was discovered that the above code violates the spi.basket.addResolveInSameResquest quota.
What should the Architect do to resolve this issue and maintain the business requirement?

- A. Omit the removal of the Item and speed up the process for the customer by adding the product to the basket for them.
- B. Wrap the adding of product and shipping cost calculation in a transaction which Is then rolled back to restore the original state
- C. Wrap each Individual step of the process its own transaction Instead of using one transaction for all steps.
- D. Omit the calculation of shipping cost until the customer is ready to check out and has chosen the shipping method they want to

정답：**B**

설명:
To resolve the issue of violating the spi.basket.addResolveInSameRequest quota and to maintain the functionality of dynamically calculating shipping costs for items before they are added to the basket, the best approach is:
* Option D: Wrapping the adding of product and shipping cost calculation in a transaction, which is then rolled back to restore the original state. This method ensures that the system can calculate potential shipping costs without permanently altering the state of the basket. This approach keeps the basket's original state intact while allowing for multiple shipping calculations, effectively managing the load on system resources and adhering to platform quotas.

질문 # 56
