The C-S4EWM-2023 practice test is being offered in three different formats. These C-S4EWM-2023 exam questions formats are PDF dumps files, web-based practice test software, and desktop practice test software.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management Sample Questions (Q29-Q34):

NEW QUESTION # 29

What is required to perform explicit counting using the Quality Inspection Engine? Note: There are 2 correct answers to this question.

- A. Work center
- **B. Inspection rule**
- **C. Sampling procedure**
- D. QM integration

Answer: B,C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

Explicit counting in the Quality Inspection Engine (QIE) in SAP EWM involves a deliberate count of stock during an inspection, often triggered by quality requirements. Option B ("Sampling procedure") is correct because it defines how many items are inspected (e.g., percentage or fixed number), configured in the quality management (QM) system and linked to EWM. Option C ("Inspection rule") is correct as it specifies the inspection process, including whether explicit counting is required, and is maintained in EWM under SPRO:

SCM Extended Warehouse Management > Quality Management > Inspection Rules. Work center (A) is relevant for production processes, not QIE counting, and QM integration (D) is a prerequisite for QIE but not a direct requirement for explicit counting itself.

NEW QUESTION # 30

Which of the following are internal goods movements? Note: There are 3 correct answers to this question.

- A. Direct putaway
- **B. Warehouse reorganization**
- **C. Replenishment**
- D. Slotting
- **E. Ad hoc movements**

Answer: B,C,E

Explanation:

Internal goods movements in SAP EWM include:

- * B. Ad Hoc Movements:
 - * Unplanned movements of stock to meet operational needs.
- * C. Warehouse Reorganization:
 - * Optimizing storage space by rearranging stock locations.
- * D. Replenishment:
 - * Refilling picking locations from bulk storage to ensure stock availability.

Incorrect Options:

- * A: Slotting is a planning process for determining optimal storage locations, not an internal goods movement.
- * E: Direct putaway is part of inbound processing, not an internal movement.

References:

- * SAP EWM Documentation: Internal Goods Movements Overview
- * SAP Help Portal: Replenishment and Warehouse Reorganization

NEW QUESTION # 31

Which of the following actions are possible based on a value-added service (VAS) order? Note: There are 3 correct answers to this question.

- A. Assemble a kit.
- B. Perform quality inspection
- C. Consume auxiliary products.
- D. Capture time required.
- E. Capture costs.

Answer: A,C,D

Explanation:

A Value-Added Service (VAS) order in SAP Extended Warehouse Management (EWM) enables enhanced activities for goods that go beyond the standard warehouse operations. Here's how the selected actions are supported:

* Capture Time Required (A):

- * VAS orders allow for tracking the time spent on specific value-added services.
- * The time can be recorded and used for subsequent costing or reporting purposes.
- * This is configured in the VAS activity details in EWM.

* Assemble a Kit (C):

- * VAS orders facilitate kitting processes, where individual products are combined into a kit as part of warehouse operations.
- * The system supports creating and managing kits via predefined VAS templates and work instructions.

* Consume Auxiliary Products (D):

- * Auxiliary products, such as packaging materials or additional items used during the value-added service, can be consumed and accounted for through the VAS order process.
- * This consumption is defined in the VAS template, which specifies materials and quantities.

NEW QUESTION # 32

What do you use to control what is displayed on the mobile device? Note: There are 2 correct answers to this question.

- A. User profile
- B. Queue type
- C. Presentation profile
- D. Personalization profile

Answer: C,D

Explanation:

The display on the mobile device in SAP EWM is controlled through specific configurations:

* Personalization Profile (A):

- * This profile allows users to tailor their mobile device screens based on their preferences.
- * It includes options for customizing layouts and workflows to improve usability.

* Presentation Profile (B):

- * The presentation profile defines the overall look and feel of the mobile device interface.
- * It includes parameters like font size, screen layout, and other display attributes.

Incorrect Options:

- * C: User profiles control access and authorizations but do not directly control mobile device displays.
- * D: Queue types manage task allocation but do not influence mobile device display settings.

References:

- * SAP Help Portal: Mobile Data Entry Configuration
- * SAP S/4HANA EWM Documentation: Personalization and Presentation Profiles

NEW QUESTION # 33

Your customer has two warehouse numbers that share the same physical yard. How do you set up the yard to enable yard

management.

- A. Define a storage type for a yard in each warehouse number, and connect the two storage types with doors to each other.
- **B. Define a storage type for a yard in one of the warehouse numbers, and connect the yard with doors to the other warehouse number.**
- C. Define a storage type for a yard in both warehouse numbers, and connect the two storage types with a common checkpoint.
- D. Define a storage type for a yard in each warehouse number without any other settings.

Answer: B

Explanation:

To set up yard management for two warehouse numbers sharing the same physical yard:

* B. Define a storage type for a yard in one of the warehouse numbers, and connect the yard with doors to the other warehouse number:

* This setup ensures that yard management functionality is centrally configured while allowing goods movement between the warehouses through connected doors.

Incorrect Options:

* A: Common checkpoints do not establish yard management connectivity.

* C: Defining storage types without connections does not enable yard management.

* D: Connecting storage types with doors to each other is not a standard configuration for yard management.

References:

* SAP EWM Documentation: Yard Management Configuration

* SAP Help Portal: Managing Shared Yards

NEW QUESTION # 34

.....

Our company boasts top-ranking expert team, professional personnel and specialized online customer service personnel.
