

Examcollection 1Z1-771 Dumps Torrent, 1Z1-771 Valid Test Test

What's more, part of that ExamsReviews 1Z1-771 dumps now are free: <https://drive.google.com/open?id=1UTelobddmNZ58GHP6j-CnmN3OCdIp22>

The 1Z1-771 certification is the best proof of your ability. However, it's not easy for those work officers who has less free time to prepare such an 1Z1-771 exam, and people always feel fear of the unknown thing and cannot handle themselves with a sudden change. However, our 1Z1-771 Exam Questions can stand by your side. And we are determined to devote ourselves to serving you with the superior 1Z1-771 study materials. You can have a try on the free demo of our 1Z1-771 exam questions, you can understand in detail and make a choice.

Oracle 1Z1-771 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Using SQL Workshop: This section evaluates the expertise of Database Developers in managing database objects using SQL Workshop. It includes creating and modifying database structures, running SQL commands and scripts, and efficiently loading and unloading data through the Data Workshop utility to simplify database interactions.
Topic 2	<ul style="list-style-type: none">Creating and Using Dynamic Actions and Plug-ins: This section tests the expertise of Developers in implementing dynamic actions. It covers configuring event-driven behaviors and integrating plug-ins to create responsive and interactive application features.
Topic 3	<ul style="list-style-type: none">Getting Started with Oracle APEX on the Oracle Autonomous Database: This section of the exam measures the skills of APEX Developers in understanding Oracle APEX and its core components. It covers the creation and management of workspaces, providing an overview of how APEX integrates with the Oracle Autonomous Database to streamline application development.
Topic 4	<ul style="list-style-type: none">Implementing Security in Your Application: This section evaluates the knowledge of Security Specialists in securing APEX applications. It covers authentication schemes, authorization controls, and session state protection to ensure application security and user access management.

Topic 5	<ul style="list-style-type: none"> • Migrating Application Development Between Environments: This section measures the abilities of DevOps Engineers in managing application deployments. It includes exporting and importing application artifacts, performing remote deployments, and maintaining working copies to ensure smooth transitions between development environments.
Topic 6	<ul style="list-style-type: none"> • Creating and Using Forms: This section evaluates the proficiency of Form Developers in designing user-friendly forms. It covers creating interactive grids, developing simple forms linked to reports, and implementing master-detail forms for effective data management.
Topic 7	<ul style="list-style-type: none"> • Managing Application Data: This section evaluates the expertise of Data Engineers in handling application data. It covers using collections, managing REST-enabled SQL references, integrating REST Data Sources, and synchronizing data across different environments.
Topic 8	<ul style="list-style-type: none"> • Creating Progressive Web Apps: This section assesses the skills of Web Developers in building Progressive Web Applications (PWAs). It includes enhancing application accessibility, implementing push notifications, and optimizing applications for seamless cross-device experiences.
Topic 9	<ul style="list-style-type: none"> • Using Themes and Theme Styles: This section tests the abilities of UI Designers in applying visual themes to applications. It involves selecting and customizing themes, using Theme Roller for design adjustments, and creating template components for consistent branding.
Topic 10	<ul style="list-style-type: none"> • Leveraging Generative AI in Oracle APEX: This section tests the knowledge of AI Developers in integrating AI-powered features within APEX applications. It involves using APEX Assistant for code generation, creating AI-driven data models, and implementing AI-powered text generation using dynamic actions.
Topic 11	<ul style="list-style-type: none"> • Adding Additional Pages to Your Application: This section assesses the skills of Application Developers in expanding application functionalities. It involves creating Oracle JET charts, calendars, trees, and maps to enhance data visualization and user interaction.
Topic 12	<ul style="list-style-type: none"> • Implementing Navigation in Your Application: This section assesses the skills of UX Designers in designing smooth application navigation. It includes configuring shared components, setting up search functionalities, and enhancing user experience with intuitive navigation structures.
Topic 13	<ul style="list-style-type: none"> • Creating Application Page Controls: This section tests the abilities of Frontend Developers in implementing interactive page elements. It includes creating page-level items, buttons, and controls that enhance navigation and user interaction within APEX applications.
Topic 14	<ul style="list-style-type: none"> • Managing Pages and Regions: This section measures the knowledge of UI Designers in structuring application layouts. It covers creating different types of pages and regions, managing page components within Page Designer, and ensuring an optimized user interface for applications.
Topic 15	<ul style="list-style-type: none"> • Adding Computations, Processes, Validations, and Branches: This section measures the knowledge of Backend Developers in implementing application logic. It focuses on configuring computations, processes, validations, and page branches to automate workflows and ensure data integrity.
Topic 16	<ul style="list-style-type: none"> • Extending Application Capabilities: This section measures the skills of APEX Developers in enhancing application functionality. It includes sending automated emails, implementing plug-ins, and utilizing automation features to improve efficiency and extend capabilities.
Topic 17	<ul style="list-style-type: none"> • Developing Reports: This section assesses the skills of Report Developers in creating interactive reports and dashboards. It involves customizing reports, working with faceted search pages, integrating smart filters, and designing visually appealing data presentations using Oracle APEX.

1Z1-771 Valid Test Test | Exam 1Z1-771 Pass4sure

Latest Oracle 1Z1-771 Dumps are here to help you to pass your Oracle Certification exam with ExamsReviews' valid, real, and updated 1Z1-771 Exam Questions with passing guarantee. The Oracle 1Z1-771 certification is a valuable certificate that is designed to advance the professional career. With the Oracle APEX Cloud Developer Professional (1Z1-771) certification exam seasonal professionals and beginners get an opportunity to demonstrate their expertise. The Oracle APEX Cloud Developer Professional exam recognizes successful candidates in the market and provides solid proof of their expertise.

Oracle APEX Cloud Developer Professional Sample Questions (Q51-Q56):

NEW QUESTION # 51

Which statement is true about Theme Styles?

- A. Theme Styles control the layout of a webpage.
- **B. When the Is Public attribute is enabled, end users can choose the Theme Style from the runtime environment.**
- C. The "Is Current" attribute of a Theme Style depends on the "Read Only" attribute.

Answer: B

Explanation:

Theme Styles define visual themes in APEX:

A . When the Is Public attribute is enabled: Setting "Is Public" to "Yes" in Shared Components > Theme Styles allows runtime selection (e.g., via a dropdown in the app UI), letting users switch between styles (e.g., "Vita" to "Vita - Dark").

B . Control layout: False; layout is managed by templates and regions; Theme Styles handle colors, fonts, etc.

C . "Is Current" depends on "Read Only": False; "Is Current" marks the default style, independent of "Read Only" (which locks editing).

Technical Insight: Public styles require multiple defined styles and a UI component (e.g., Dynamic Action) to expose the switcher.

Use Case: Offering light/dark mode options to users.

Pitfall: Without a switcher, "Is Public" has no visible effect.

NEW QUESTION # 52

Which three data types are supported by Oracle APEX Workflow parameters and item types?

- **A. CLOB**
- B. Image
- **C. VARCHAR**
- **D. NUMBER**

Answer: A,C,D

Explanation:

Workflow parameters and page items in APEX support:

B . NUMBER: For numeric values (e.g., 123.45), used in calculations or IDs.

C . CLOB: For large text (e.g., descriptions), stored as character large objects.

D . VARCHAR: For variable-length strings (e.g., EMPLOYEE_NAME), capped at 4000 characters in most cases.

A . Image: Not a supported data type for parameters or items; images are handled as BLOBs or file uploads, not directly as a Workflow parameter type.

These types align with Oracle Database, ensuring robust data handling in workflows.

NEW QUESTION # 53

Which two statements are true about creating and using dynamic actions?

- **A. If a client-side condition is defined, the true action will fire when the condition is met.**
- B. After you create a dynamic action, you cannot add more true actions.
- C. If no client-side condition is defined, true actions will not fire.
- **D. You can execute JavaScript code by creating a dynamic action.**

Answer: A,D

Explanation:

Dynamic Actions in APEX enable responsive behavior:

If a client-side condition is defined, the true action will fire when the condition is met: A condition (e.g., `this.browserEvent === 'click'`) ensures the true action (e.g., Show, Hide) executes only when true, enhancing precision in event handling. You can execute JavaScript code by creating a dynamic action: The "Execute JavaScript Code" action type allows custom scripts (e.g., `alert('Clicked!');`), extending functionality beyond declarative options. Cannot add more true actions: False; multiple true actions can be added post-creation. No condition, true actions won't fire: False; without a condition, true actions fire unconditionally on the event. Dynamic Actions are a cornerstone of interactive UIs in APEX.

NEW QUESTION # 54

What happens when you regenerate credentials for Push Notifications in Oracle APEX?

- A. A new notification server must be created.
- **B. Existing Push Subscriptions for the application will be invalidated.**
- C. Push Notifications will be disabled for the application.

Answer: B

NEW QUESTION # 55

The Movies faceted search report is filtered only when the Apply button for a selected facet is clicked. What must be done in the Page Designer so that report filtering is automatically executed when any facet value is selected?

- **A. Navigate to the faceted search region Attributes, and disable the Batch Facet Changes attribute.**
- B. Navigate to the faceted search region Attributes, and turn off the Show Facet Name attribute.
- C. Navigate to each facet and then in the Property Editor, turn on Client-Side Filtering.

Answer: A

Explanation:

By default, faceted search can "batch" changes, requiring an "Apply" button click to filter the report. To enable automatic filtering: Disable the Batch Facet Changes attribute: In Page Designer, under the Faceted Search region's Attributes, setting "Batch Facet Changes" to "No" ensures the report refreshes immediately when a facet value is selected, improving responsiveness. This triggers an AJAX call to update the report without a manual submit.

Show Facet Name: This controls facet label visibility, unrelated to filtering behavior.

Client-Side Filtering: This applies to Interactive Reports/Grids, not faceted search regions, and isn't the correct solution here. This adjustment enhances the user experience by providing instant feedback.

NEW QUESTION # 56

.....

As we know that if you have an outstanding certification you will have more opportunities for application and promotion, many companies think highly of golden certifications, it will be a step-stone to some great positions. Our website ExamsReviews is engaging in providing high-pass-rate 1Z1-771 Exam Guide torrent to help candidates clear 1Z1-771 exam easily and obtain certifications as soon as possible. We are engaging in this line more than 8 years on the 1Z1-771 exam questions. Thousands of candidates choose us and achieve their goal every year.
