The PDF file of C-THR92-2505 real exam questions is easy to use on laptops, tablets, and smartphones. We have added all the SAP C-THR92-2505 questions, which have a chance to appear in the SAP C-THR92-2505 real test. Our SAP Certified Associate - SAP SuccessFactors People Analytics: Reporting (C-THR92-2505) dumps PDF exam questions are beneficial to prepare for the test in less time.

SAP C-THR92-2505 Exam Syllabus Topics:

Topic	Details
Topic 1	• Advanced Reporting Tool with Replicated Data: This section targets a Reporting Specialist and covers leveraging advanced reporting tools that operate on replicated data. It includes knowledge of data replication concepts and using these tools to perform comprehensive reporting that supports detailed analysis.
Topic 2	• Table Reports: This part measures the skills of a Data Analyst and involves creating, managing, and running Table Reports. It focuses on designing tabular data presentations that facilitate straightforward access to detailed workforce analytics information.
Topic 3	• Provisioning Settings for Reporting: This area focuses on the abilities of a System Administrator and involves configuring and enabling the necessary settings in Provisioning to support reporting tools within SAP SuccessFactors. It includes setup tasks that ensure reporting solutions function properly within the system environment.

Topic 4	• Canvas Reports and Page Designer: This part measures the capabilities of a Report Administrator and involves creating and customizing reports using Canvas Reports and Page Designer. It covers advanced query construction, formatting, pivot creation, and report distribution to enhance data presentation and usability.
Topic 5	• Story Reports: This section of the exam measures skills of a Report Creator and covers the creation and management of Story Reports within SAP SuccessFactors. It emphasizes designing queries, configuring pages with widgets, and managing report permissions to generate insightful visualizations.

The users will receive updates 365 days after purchasing. And they will also get a 24/7 support system to help them anytime if they got stuck somewhere or face any issues while preparing for the C-THR92-2505 Exam.

SAP Certified Associate - SAP SuccessFactors People Analytics: Reporting Sample Questions (Q63-Q68):

NEW QUESTION # 63
You are building a performance report with the Story report type. In reviewing the Performance Management schema, you notice that the 2019 Performance Review Table is listed in the Available Data section. You begin the query by adding the Basic User Information table from the User schema. You notice that the 2019 Performance Review Table is NO longer listed in the Available Data section. Why is the 2019 Performance Review table NOT in the list?

- A. The table does NOT have a Report Object Configuration Entity record.
- B. You do NOT have RBP permission to the fields of the table.
- C. Only related or joined tables appear as available.
- D. You do NOT have the data access permission to the schema.

Answer: C

Explanation:
* Schema and Table Relationships
* In SAP SuccessFactors Story Reporting, tables are only displayed in the Available Data section if they have a direct relationship or join with the selected starting table (in this case, Basic User Information).
* Why the 2019 Performance Review Table is Missing
* Since the Basic User Information table is selected, only tables directly related to it will appear.
The 2019 Performance Review Table is likely not joined directly to the User schema.
* Why Other Options are Incorrect
* B (No Report Object Configuration Entity record): The table is present in the schema, so it must have a valid ROCE record.
* C (No RBP permission): This would prevent any access to the table but does not explain its absence from the Available Data section.
* D (No data access permission): This would restrict data access, not the visibility of the table.

* SAP SuccessFactors Story Reporting Guide

NEW QUESTION # 64
A user reports they are unable to successfully create a new Story report in Report Center. The page is stuck in a blank loading screen. How do you validate the user exists and has the proper configuration in the SAP Analytics Cloud Solution?

- A. In the SAC instance, use the Users tool to verify the account exists and is assigned the correct u role.

- B. In the SuccessFactors HXM suite, use the Employee Export tool to verify the employee has a u PERSON_GUID assigned.
- C. In the WFA administrative area, use the User Maintenance tool to verify the account exists and is assigned the correct role.
- D. In the SuccessFactors HXM suite, use the check tool to run the "Availability of user record for v u People Analytics" check.

Answer: D

Explanation:
* Validation Using the Check Tool:
* The Check Tool in SuccessFactors HXM Suite includes a predefined check for validating whether a user exists and is correctly configured for People Analytics (e.g., Story Reporting in SAP Analytics Cloud).
* Running the "Availability of user record for People Analytics" check ensures the user record is properly synced.
* Steps:
* Go to Admin Center # Check Tool.
* Search for and run the "Availability of user record for People Analytics" check.

NEW QUESTION # 65
You are configuring a story report. You add the image widget to the top-left corner of the canvas. You then upload the SAP SuccessFactors logo in the Builder, and select the logo image so it displays on the canvas.
When you preview the report in View Mode, the logo appears centered on the canvas. What action do you take so the Logo appears in the top-left corner when viewing the report in View Mode?

- A. In Builder for the image, set the image to Dynamic.
- B. In Styling for the page, set the Page Size to Fixed.
- C. In Styling for the image, set the Image Properties to Pan.
- D. In Designer Mode, add another widget under the image.

Answer: B

Explanation:
* Issue Description:
* When the logo appears centered in View Mode instead of the top-left corner, it is because the page size is set to a responsive layout.
* Solution:
* Go to Styling for the page in the report configuration.
* Change the Page Size from responsive to Fixed.
* This ensures that elements like the logo remain positioned as designed, including in the top-left corner.

NEW QUESTION # 66
You are using a Multi-Dataset table report without Business Intelligence Reporting Tools (BIRT). What are characteristics of the report output? Note: There are 2 correct answers to this question.

- A. Data is joined in the query.
- B. Data is NOT joined in the query.
- C. Report results are shown on separate tabs in the output.
- D. Report results are shown on a single tab in the output.

Answer: B,C

Explanation:
When using a Multi-Dataset Table Report without Business Intelligence Reporting Tools (BIRT), the following characteristics apply:
* Report results are shown on separate tabs in the output (A):
* Each dataset's output is displayed on its respective tab. This is because the data is not integrated or merged in the query.
* Data is NOT joined in the query (D):
* Multi-dataset reports without BIRT do not perform data joins. Each dataset is treated independently.

NEW QUESTION # 67
What is included in the saved state of a bookmark for a Story report? Note: There are 3 correct answers to this question.

- A. Filters
- B. Prompts
- C. Data
- D. Comments
- E. Input controls

Answer: A,B,E

Explanation:
When saving a bookmark for a Story report, the following states are saved:
* Filters (A): Any applied filters are retained in the bookmark.
* Input Controls (B): User-defined inputs (like sliders or dropdowns) are preserved.
* Prompts (D): User-specified prompts during execution are also included.
