As a result, more and more people study or prepare for exam through social networking. By this way, our Virginia-Life-Annuities-and-Health-Insurance learning guide can be your best learn partner.

Virginia Insurance Virginia Life, Annuities, and Health Insurance Examination Series 11-01 Sample Questions (Q212-Q217):

NEW QUESTION # 212

What is often payable to a life insurance policyowner when a medical condition drastically limits the insured' s life expectancy?

- **A. Accelerated death benefit**
- B. Extended term insurance
- C. Death benefit
- D. Reduced paid-up insurance

Answer: A

Explanation:

Virginia Code § 38.2-3117.1 permits life insurance policies to include an accelerated death benefit (ADB) provision, allowing the policyowner to receive a portion of the death benefit early if the insured is diagnosed with a terminal illness (typically less than 12-24 months life expectancy, per policy terms). Option B correctly identifies this benefit, often used for medical expenses or quality-of-life needs. Option A (death benefit) is paid only upon death, not during life, so it's incorrect here. Option C (reduced paid-up insurance) is a nonforfeiture option converting cash value to a smaller, paid-up policy, unrelated to terminal illness. Option D (extended term insurance) uses cash value to extend term coverage, also not tied to life expectancy triggers.

The study guide likely details ADB as a modern feature addressing critical health scenarios, distinguishing it from standard death benefits or nonforfeiture options, confirming B as the accurate choice.

NEW QUESTION # 213

All of the following are advantages of whole life insurance EXCEPT:

- A. Long-term protection is provided
- B. Policy loans may be available
- **C. The initial cost of coverage is lower than for an equivalent amount of term insurance**
- D. There is a cash value if the policy is terminated after a sufficient period of time

Answer: C

Explanation:

Whole life insurance provides permanent coverage, builds guaranteed cash value, and allows for policy loans. However, it has a higher initial premium cost compared to term life insurance. Therefore, the statement that whole life has lower initial costs is incorrect. Exact Extract (Virginia Life Insurance Study Guide): "Whole life insurance provides long-term protection, guaranteed cash values, and policy loans. Premiums are higher than term insurance for equivalent coverage." Reference (Virginia Documents / Study Guide): - Virginia Life & Annuities Insurance Examination Outline, Whole Life Characteristics

NEW QUESTION # 214

(If an agent misleads a potential insured as to the terms of a policy, it may be considered:)

- A. Defamation
- **B. Misrepresentation**
- C. Coercion
- D. Unfair discrimination

Answer: B

Explanation:

Misrepresentation occurs when an agent makes false, misleading, or incomplete statements about the terms, benefits, or conditions of an insurance policy that could influence a consumer's decision to purchase coverage. This may involve exaggerating benefits, minimizing exclusions, or providing incorrect information. Misrepresentation is a prohibited practice under Virginia insurance law and can result in administrative penalties, license suspension, or revocation. Defamation involves false statements that harm another's reputation and is unrelated to policy sales. Unfair discrimination refers to treating similar risks differently without actuarial justification. Coercion involves pressuring someone to buy insurance through threats or intimidation. Since misleading a potential insured directly concerns incorrect policy information, it constitutes misrepresentation.

NEW QUESTION # 215

An agent's appointment with an insurer:

- A. Must be renewed quarterly
- **B. Is in effect until terminated**
- C. Can only be terminated after a proper hearing
- D. Must always be approved by the NAIC

Answer: B

Explanation:

Once an agent is appointed by an insurer in Virginia, the appointment remains in effect until either the insurer or the Bureau of Insurance terminates it. No quarterly renewal or NAIC approval is required.

Exact Extract (Virginia Producer Licensing Rules): "Appointments remain in effect until terminated by the insurer or the Bureau of Insurance." Reference (Virginia Documents / Study Guide):

- Code of Virginia §38.2-1833 (Appointments of agents)

NEW QUESTION # 216

All of the following are typical health maintenance organization (HMO) preventive care services provided by a primary care physician EXCEPT:

- A. Well-baby checkups
- B. Immunizations for children
- C. Physical examinations
- D. Experimental surgery

Answer: D

Explanation:

Virginia Code § 38.2-4306 requires HMOs to offer preventive care, coordinated by primary care physicians (PCPs), focusing on health maintenance. Option A (well-baby checkups), option B (immunizations for children), and option D (physical examinations) are standard preventiveservices-e.g., growth monitoring, vaccines, and annual exams-covered at no cost under ACA-aligned plans (Virginia Code § 38.2-3440).

Option C (experimental surgery) is not preventive; it's a treatment, often excluded or requiring special approval due to its unproven nature, not a PCP's routine role. The study guide likely lists HMO preventive benefits with examples (e.g., flu shots), contrasting them with non-preventive interventions like surgery, making C the exception.

NEW QUESTION # 217

.....

There are many large and small platforms for selling examination materials in the market, which are dazzling, but most of them cannot guarantee sufficient safety and reliability. Are you worried about the security of your payment while browsing? Virginia-Life-Annuities-and-Health-Insurance Test Torrent can ensure the security of the purchase process, product download and installation safe and virus-free.
