And the good point is that you don't need to install any software or app. All you need is to click the link of the online SCR Training Material once, and then you can learn and practice offline.

GARP Sustainability and Climate Risk Sample Questions (Q17-Q22):

NEW QUESTION # 17

An international agrochemical company performs climate scenario analysis to include in TCFD disclosures.

The risk department hires an analyst with experience in physical risk scenario analysis.

What scenario analysis action will the analyst most likely recommend to evaluate physical climate risk?

- A. Use historical data on hazard occurrences to identify potential supply chain vulnerabilities from changes in hurricane frequencies.
- B. Use annual instead of decadal climate precipitation models to achieve the most accuracy in climate risk prediction.
- C. Use a sector benchmark to understand the company wildfire risk for facility operations.
- D. Use sectoral emissions trajectories up to 2050 to predict exposure to flooding events over the next 30 years.

Answer: A

NEW QUESTION # 18

A multinational food and beverage corporation has growing concerns that CO₂ and other GHGs in the atmosphere have a negative effect on agricultural productivity. The corporation is subject to higher costs and scarce availability for commodities necessary for its supply chain.

The corporation will disclose this scenario under which climate-related risk type?

- A. Resilience
- B. Market
- C. Chronic
- D. Resource efficiency

Answer: C

NEW QUESTION # 19

A multinational footwear company prepares its annual GHG inventory. The company sustainability director organizes data according to the GHG Protocol and prepares a set of recommended actions to lower company emissions.

Which action is the director most likely to recommend to reduce company Scope 3 emissions?

- A. Upgrade air conditioning and other headquarters equipment to energy-efficiency models.
- B. Switch to suppliers located closer to textile printing and product finishing facilities.
- C. Retrofit all existing manufacturing facilities with energy efficient standards.
- D. Replace company vehicles powered by petrol with electric vehicles and plug-in hybrids.

Answer: B

NEW QUESTION # 20

To comply with publicly stated climate goals, a country dependent on fossil fuel production begins phasing out oil production facilities. Climate activists largely celebrate this commitment, while expressing concern for a just transition. Which of the following just transition programs will the activists most likely support?

- A. A national scholarship program to retrain displaced workers from carbon-intensive industries
- B. Increased funding for researchers examining alternatives to carbon-intensive fuel sources
- C. Subsidies provided to low-income residents who use carbon-intensive fuels
- D. An annual tax rebate for workers transitioning to jobs outside of carbon-intensive industries

Answer: A

NEW QUESTION # 21

An international hotel chain reviews progress on sustainability goals in preparation for an Earth Day marketing campaign. A sustainability director suggests the hotel highlight how its energy and food sustainability initiatives align with UN SDG targets. Which of the following correctly describes an SDG target that the hotel could align with?

- A. By 2030 double the rate of energy efficiency improvements.
- B. By 2050 reduce per capita food waste by half.
- C. By 2030 reduce GHG emissions to half of 2000 levels.
- D. By 2050 double the share of renewables in the energy mix.

Answer: B

NEW QUESTION # 22

.....
