We all know that the AD0-E725 exam is not easy to pass and the certification is not easy to get. But where is a will, there is a way. If you are really determined, go buy AD0-E725 study materials now. With the help of AD0-E725 learning guide, your road will go more smoothly. If you want to know more about our products, maybe you can use the trial version of AD0-E725 simulating exam first. Of course, you can also spend a few minutes looking at the feedbacks to see how popular our AD0-E725 exam questions are.

### Adobe Commerce Developer Expert Sample Questions (Q27-Q32):

#### NEW QUESTION # 27

An Adobe Commerce Developer is tasked with configuring a custom module to allow for different behaviors of a core class without altering the original class code.

How should the Developer achieve this flexibility by leveraging Magento's dependency injection system?

- A. Use a transient object in the di.xml file.
- B. Use constructor arguments in the di.xml file.
- C. Use virtual types in the di.xml file.

**Answer: C**

#### NEW QUESTION # 28

A new critical security vulnerability is found on Adobe Commerce Cloud. The successful exploitation may lead to arbitrary code execution, so the Developer must apply a security patch file given by Adobe as soon as possible to ensure system security.

How should the Developer apply the security patch on Adobe Commerce hosted on cloud infrastructure according to best practices?

- A. Copy a security patch to m2-hotfixes directory.
- B. Apply a security patch using composer.json.
- C. Upgrade Adobe Commerce to the latest security patch release.

**Answer: A**

Explanation:

On Adobe Commerce Cloud, the best practice for urgent fixes is to place the patch file into the m2-hotfixes directory at the root of the project. Patches in this directory are automatically applied during the Cloud build and deploy process.

Option A (composer.json) applies to composer-based patches in on-premise installations, not the recommended cloud approach.

Option C (upgrade to latest release) is ideal for long-term but not feasible for urgent fixes that must be applied immediately.

Adobe Commerce Cloud DevDocs - Apply patches

#### NEW QUESTION # 29

An Adobe Commerce Developer is implementing asynchronous communication with a third-party system using RabbitMQ. The XML files used must be able to configure a local queue and consume messages published by the third-party system.

Which files should the Developer use?

- A. communication.xml, queue\_topology.xml, and queue\_consumer.xml
- B. queue\_topology.xml and queue\_publisher.xml
- C. queue\_topology.xml and queue\_consumer.xml
- D. communication.xml, queue\_topology.xml, and queue\_publisher.xml

**Answer: C**

#### NEW QUESTION # 30

A client expresses disappointment with the underreported engagement and revenue metrics reported by Product Recommendations. Which limitation or consideration of this service should be communicated to the client?

- A. Product Recommendations requires the purchase of an additional license to enable real-time reporting.
