DA0-001 Latest Braindumps Book | DA0-001 Reliable Test Experience

In today's rapidly changing CompTIA industry, the importance of obtaining CompTIA DA0-001 certification has become increasingly evident. With the constant evolution of technology, staying competitive in the job market requires professionals to continuously upgrade their skills and knowledge. The Prep4sureGuide is committed to completely assisting you in exam preparation

with DA0-001 Questions.

CompTIA Data+ Certification Exam Sample Questions (Q214-Q219):

NEW QUESTION # 214

Which of the following can be used to translate data into another form so it can only be read by a user who has a key or a password?

- A. Data protection.
- B. Data masking.
- C. Data transmission.
- D. Data encryption.

Answer: D

Explanation:

A) Data encryption.

Data encryption is a way of translating data from plaintext (unencrypted) to ciphertext (encrypted). Users can access encrypted data with an encryption key and decrypted data with a decryption key.

NEW QUESTION # 215

A data analyst has been asked to merge the tables below, first performing an INNER JOIN and then a LEFT JOIN:

Customer_ID	Segment	Region
001	New	BC
002	Existing	ON
003	New	MB
004	New	ON
005	Existing	AT
006	Existing	MB
007	New	QC
008	New	QC
009	Existing	BC

Customer Table -

In-store Transactions -

Order_ID	Customer_ID	Date	Amount	Quantity
006A	006	04/01/2020	\$200	59
007B	007	03/01/2020	\$500	54
008C	008	02/01/2020	\$600	15
009D	009	05/01/2020	\$800	18
001E	001	07/01/2020	\$300	50
003F	003	08/01/2020	\$200	55

Which of the following describes the number of rows of data that can be expected after performing both joins in the order stated, considering the customer table as the main table?

- A. INNER: 15 rows; LEFT: 9 rows
- B. INNER: 6 rows; LEFT: 9 rows
- C. INNER: 9 rows; LEFT: 6 rows
- D. INNER: 9 rows; LEFT: 15 rows

Answer: D

Explanation:

An INNER JOIN returns only the rows that match the join condition in both tables. A LEFT JOIN returns all the rows from the left table, and the matched rows from the right table, or NULL if there is no match. In this case, the customer table is the left table and the in-store transactions table is the right table. The join condition is based on the customer_id column, which is common in both tables.

To perform an INNER JOIN, we can use the following SQL query:

```
SELECT * FROM customer INNER JOIN in_store_transactions ON customer.customer_id = in_store_transactions.customer_id;
```

This query will return 9 rows of data, as shown below:

```
customer_id | name | lastname | gender | marital_status | transaction_id | amount | date
1 | MARC | TESCO | M | Y | 1 | 1000 | 2020-01-01
1 | MARC | TESCO | M | Y | 2 | 5000 | 2020-01-02
2 | ANNA | MARTIN | F | N | 3 | 2000 | 2020-01-03
2 | ANNA | MARTIN | F | N | 4 | 3000 | 2020-01-04
3 | EMMA | JOHNSON | F | Y | 5 | 4000 | 2020-01-05
4 | DARIO | PENTAL | M | N | 6 | 5000 | 2020-01-06
5 | ELENA | SIMSON | F | N | 7 | 6000 | 2020-01-07
6 | TIM | ROBITH | M | N | 8 | 7000 | 2020-01-08
7 | MILA | MORRIS | F | N | 9 | 8000 | 2020-01-09
```

To perform a LEFT JOIN, we can use the following SQL query:

```
SELECT * FROM customer LEFT JOIN in_store_transactions ON customer.customer_id = in_store_transactions.customer_id;
```

This query will return 15 rows of data, as shown below:

```
customer_id | name | lastname | gender | marital_status | transaction_id | amount | date
1 | MARC | TESCO | M | Y | 1 | 1000 | 2020-01-01
1 | MARC | TESCO | M | Y | 2 | 5000 | 2020-01-02
2 | ANNA | MARTIN | F | N | 3 | 2000 | 2020-01-03
2 | ANNA | MARTIN | F | N | 4 | 3000 | 2020-01-04
3 | EMMA | JOHNSON | F | Y | 5 | 4000 | 2020-01-05
4 | DARIO | PENTAL | M | N | 6 | 5000 | 2020-01-06
5 | ELENA | SIMSON | F | N | 7 | 6000 | 2020-01-07
6 | TIM | ROBITH | M | N | 8 | 7000 | 2020-01-08
7 | MILA | MORRIS | F | N | 9 | 8000 | 2020-01-09
8 | JENNY | DWARTH | F | Y | NULL | NULL | NULL
```

As you can see, the customers who do not have any transactions (customer_id = 8) are still included in the result, but with NULL values for the transaction_id, amount, and date columns.

Therefore, the correct answer is C: INNER: 9 rows; LEFT: 15 rows.

NEW QUESTION # 216

An analyst has received the requirements for an internal user dashboard. The analyst confirms the data sources and then creates a wireframe. Which of the following is the NEXT step the analyst should take in the dashboard creation process?

- A. Optimize the dashboard.
- B. Create subscriptions.
- C. Deploy to production.
- D. Get stakeholder approval.

Answer: A

NEW QUESTION # 217

A data analyst is asked to create a sales report for the second-quarter 2020 board meeting, which will include a review of the business's performance through the second quarter. The board meeting will be held on July 15, 2020, after the numbers are finalized. Which of the following report types should the data analyst create?

- A. Real-time
- **B. Static**
- C. Self-service
- D. Dynamic

Answer: B

NEW QUESTION # 218

A customer survey reveals 90% positive feedback. Which of the following statistical methods would be best to utilize to determine the reliability of a data set and predict how a larger sample of customers over the same time period might respond?

- A. Calculate a high variance on survey responses.
- B. Remove any data more than 4 standard deviation from the mean.
- **C. Calculate a low standard deviation on survey responses.**
- D. Calculate the maximum range of the survey responses.

Answer: C

NEW QUESTION # 219

.....

Prep4sureGuide is responsible for our DA0-001 study materials. Every exam product of Prep4sureGuide have sold to customer will enjoy considerate after-sales service. If you have problems about our DA0-001 study materials such as installation, operation and so on, we will quickly reply to you after our online workers have received your emails. We are not afraid of troubles. We warmly welcome to your questions and suggestions on the DA0-001 Exam Questions. We sincerely hope we can help you solve your problem and help you pass the DA0-001 exam.

DA0-001 Latest Braindumps Book: <https://www.prep4sureguide.com/DA0-001-prep4sure-exam-guide.html>

High quality and high accuracy DA0-001 real materials like ours can give you confidence and reliable backup to get the certificate smoothly because our experts have extracted the most frequent-tested points for your reference, because they are proficient in this exam who are dedicated in this area over ten years, "Yes it was all thanks to the excellent exam tools I got from Prep4sureGuide DA0-001 Latest Braindumps Book.

Before you take the exam, you only need to spend DA0-001 Latest Braindumps Book 20 to 30 hours to practice, so you can schedule time to balance learning and other things, We never avoid our responsibility of offering help for exam candidates like you, so choosing our DA0-001 practice dumps means you choose success.

Authoritative Current DA0-001 Exam Content & Leader in Qualification Exams & Effective CompTIA CompTIA Data+ Certification Exam

High quality and high accuracy DA0-001 real materials like ours can give you confidence and reliable backup to get the certificate smoothly because our experts have extracted the most frequent-tested points for DA0-001 your reference, because they are proficient in this exam who are dedicated in this area over ten years.

"Yes it was all thanks to the excellent exam tools I got from Prep4sureGuide, And they will certify the quality of DA0-001 quiz braindumps materials, So your other goal of getting the CompTIA Data+ Certification Exam exam dumps is to take DA0-001 Certification Torrent full use of the exam torrent to extend your personal perspective and enhance your professional skills.

Do you want your IT capability to be most authoritatively recognized?
