# Updated UiPath UiPath-ABAv1: UiPath Certified Professional Automation Business Analyst Professional v1.0 Reliable Test Bootcamp - Accurate Pass4sureCert Useful UiPath-ABAv1 Dumps

DOWNLOAD the newest Pass4sureCert UiPath-ABAv1 PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=17b6YiYL3ZLB4xMV-THqyfEyz2mfkRM0o

Testing yourself is an effective way to enhance your knowledge and become familiar with the UiPath-ABAv1 exam format. Rather than viewing the UiPath-ABAv1 test as a potentially intimidating event, Pass4sureCert UiPath Certified Professional Automation Business Analyst Professional v1.0 (UiPath-ABAv1) desktop and web-based practice exams help candidates assess and improve their knowledge. If your UiPath-ABAv1 Practice Exams (desktop and web-based) results aren't ideal, it's better to experience that shock during a mock exam rather than the UiPath-ABAv1 actual test.

Our exam prep material is famous among UiPath-ABAv1 exam candidates which help to polish the knowledge required to pass the UiPath UiPath-ABAv1 exam. The certification is organized by UiPath-ABAv1 internationally. Our UiPath UiPath-ABAv1 exam questions are the most cost-effective as we understand that you need low-cost material but are authentic and updated. Pass4sureCert provides its UiPath UiPath-ABAv1 Exam Questions in three forms, one is PDF eBook, the second is practice exam software for Windows-based systems, and the third is an online practice test.

Useful UiPath-ABAv1 Dumps & Reliable UiPath-ABAv1 Exam Braindumps

We are a leading corporation in this line handling UiPath-ABAv1 study questions well with passing rate up to 98 and over percent, which is an unreachable goal for others. So our UiPath-ABAv1 preparation exam enjoys good sales for the excellent quality and reasonable prices in recent years. And we are so sure that we can serve you even better than you can imagine with our UiPath-ABAv1 learning guide since we are keeping on doing a better job in this career.

UiPath Certified Professional Automation Business Analyst Professional v1.0 Sample Questions (Q74-Q79):

NEW QUESTION # 74
What event can affect selector reliability in automations?

- A. An increase in the volume of transactions

- B. Target applications changing their position on the screen
- C. An update to the UiPath Robot running the automation
- D. Automation target applications being updated

Answer: D

Explanation:
An event that can affect selector reliability in automations is the target applications being updated. Updates to applications can alter the UI elements and structures that selectors depend on, leading to failures in identifying these elements during automation execution. Reference: UiPath Documentation on Selector Reliability at https://docs.uipath.com/.

NEW QUESTION # 75
When will a Transaction Item be in status Retried?

- A. The item was sent to a Set Transaction Status activity, which changed its status to Retried
- B. The item has been manually selected from the Transactions page and marked as Retried
- C. The item failed with an application exception and was retried
- D. The item failed with a business exception and was retried

Answer: C

Explanation:
In UiPath Orchestrator, a Transaction Item will be in status 'Retried' when it fails due to an application exception and the system automatically retries it. This is part of the queue's transaction handling, where items that encounter application exceptions can be set to retry based on the retry policy defined in Orchestrator1.
The 'Retried' status indicates that the item has been attempted again after the initial failure.
References: The explanation is based on the UiPath Community Forum discussions and the UiPath Documentation Portal's information on queue item statuses and retry mechanisms1.

NEW QUESTION # 76
Who is responsible for preparing the test data7?

- A. The process owner with the IT team or system owners
- B. The SME with the Business Analyst
- C. The process owner with the Business Analyst
- D. The SME with the development team

Answer: B

Explanation:
In the context of RPA (Robotic Process Automation), preparing the test data is a collaborative effort that typically involves the Subject Matter Expert (SME) and the Business Analyst. The SME provides the domain knowledge and understanding of the process, while the Business Analyst has the technical know-how and understanding of the RPA tools and capabilities. Together, they ensure that the test data is representative of the actual data that the RPA solution will handle, which is crucial for effective testing and validation of the automated workflows1.
References: The role of the SME and Business Analyst in preparing test data is outlined in the UiPath Documentation Portal, specifically in the section "Data-Driven Testing" found at https://docs.uipath.com /studio/standalone/2023.10/user-guide/data-driven-testing1.

NEW QUESTION # 77
Which of the following types of Assets are available in UiPath Orchestrator?

- A. Text, Bool, Integer, Credential
- B. Text, Bool, Integer Number
- C. Text, Bool, Number, Credential
- D. Text, Number, Integer, Credential

Answer: C

Explanation:
In UiPath Orchestrator, assets can be defined as reusable resources that can be shared across multiple automation projects. The types of assets available in UiPath Orchestrator include Text, Bool, Number, and Credential. These asset types are designed to support a variety of data types and use cases in automation, such as storing credentials securely, keeping configuration values, or managing flags for process flows.References:UiPath Orchestrator Guide

NEW QUESTION # 78
Which of the below options best applies to the role of the Business Analyst?

- A. Assists in solution design and confirms the solution
- B. Translates the business problem into a technology problem
- C. Understands the business requirements and the problem
- D. Bridges the gap between the stakeholders and the delivery team

Answer: D

Explanation:
The role of the Business Analyst best applies to bridging the gap between the stakeholders and the delivery team. This involves understanding and translating business requirements into actionable and understandable tasks for the technical team, ensuring that the automation solutions meet the business needs effectively.
UiPath Documentation on the Role of Business Analysts at https://docs.uipath.com/.

NEW QUESTION # 79
......
