Complete coverage 1z0-1057-25 Online Learning Environment

Wrong topic tend to be complex and no regularity, and the 1z0-1057-25 torrent prep can help the users to form a good logical structure of the wrong question, this database to each user in the simulation in the practice of all kinds of wrong topic all induction and collation, and the 1z0-1057-25 study question then to the next step in-depth analysis of the wrong topic, allowing users in which exist in the knowledge module, tell users of our 1z0-1057-25 Exam Question how to make up for their own knowledge loophole, summarizes the method to deal with such questions for, to prevent such mistakes from happening again.

Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q116-Q121):

NEW QUESTION # 116

Your client has implemented Oracle Cloud Applications with their United States business unit and United Kingdom business unit. After six months, they acquired another company in China and added a China business unit. A project accountant in your organization is authorized to access transactions for the US, UK, and China business units. The project accountant can see the transactions for the US and UK business units but not for the China business unit. Why is he not able to see the transactions for the China business unit? (Choose the best answer.)

- A. The JOB role relevant to the China business unit is not assigned to the project accountant.
- **B. The project accountant is not assigned to the external role that grants access to the China business unit.**
- C. The China business unit is associated with a different legal entity than the US and UK business units.
- D. The US and UK business units are linked to different ledgers than the China business unit.

Answer: B

Explanation:

To access transactions for a business unit, the project accountant needs to be assigned to an external role that grants access to that business unit. The external role is defined by the security profile of the business unit and can be different for each business unit. The job role and the legal entity are not relevant for accessing transactions for a business unit. The ledger is relevant for accounting transactions, but not for project transactions. Reference: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/set-up-project-financial-management.html#OAPFM2355903>

NEW QUESTION # 117

Your customer wants a team member who is assigned to a project to be able to create and submit a forecast, but not to be able to approve the forecast. What is the default project role that you should assign to the person in the project to meet this requirement? (Choose the best answer.)

- A. Project Manager
- **B. Project Administrator**
- C. Project Application Administrator
- D. Project Accountant

Answer: B

Explanation:

Ref: https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapjm/project-administrator-job-role.html#Project_Administrator_privileges Project Manager has duty role 'Project Forecast Approval Duty' assigned but Project Administrator has duty role 'Project Forecast Inquiry Duty' - no approval authority Both roles have duty role 'Project Forecast Management Duty' which enables them to Allow creation, submission, update, and deletion of working versions of project forecasts. (Cloud_Roles_Duties.xlsx)

NEW QUESTION # 118

Your customer has implemented Oracle Project Portfolio Management Cloud recently and they have hired new employees for their Professions Services business. These employees are set up in Oracle Human Capital Management Cloud, but the Project Administrators are unable to add them as resources in the Planning Resource Breakdown Structure. What are three conditions for new employees to show up in the list? (Choose three.)

- A. All new employees created as persons must have an active project role.
- **B. Current date is before the effective date of the resource, and you did not enable the "Include people with future-dated effective start dates" option during the search.**
- **C. All new employees created as persons must be assigned to a department.**
- D. All new employees created as persons must have an active supervisor.
- **E. All new employees created as persons must have an active assignment.**

Answer: B,C,E

Explanation:

Ref: https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapfm/project-foundation-configuration-define-project-resource-breakdown-structures.html#OAPFM180158_2 Why can't I find persons in the list of resources when I enter team members, planning resources, or person rate schedules?

You can't find persons in the list of resources when you enter team members, planning resources, or person rate schedules in the following situations:

* The administrator didn't assign a department while creating users. Persons must have an active assignment and be assigned to a department in Oracle Fusion Human Capital Management before they can be added as team members or entered as resources on the planning resource breakdown structure or person rate schedule.

* The resource isn't active in Oracle Fusion Human Capital Management because the current date is before the effective date of the resource. If you want to include persons who will start in the future, select the Include people with future-dated effective start dates

option when you search for the person.

* Persons assigned as project managers aren't active as of the project start date.

* The assignment of the person is terminated, and an appropriate value isn't set for the number of days to display people with terminated assignments. You can set the profile value appropriately at the site profile level using the Specify Number of Days to Display People with Terminated Assignments task in the Setup and Maintenance work area.

NEW QUESTION # 119

Your customer complains that their project resources do not report their time promptly, which has resulted in incorrect reporting of project performance. What should you do to fix this problem? (Choose the best answer.)

- **A. Enable track missing time at project unit.**
- B. Enable track missing time at project template.
- C. Enable track missing time at business unit.
- D. Enable track missing time at project type.

Answer: A

Explanation:

To fix the problem of project resources not reporting their time promptly, you should enable track missing time at project unit. This option allows you to track and report on missing time entries for project resources based on their work assignments and schedules. You can also set up notifications and reminders to prompt resources to enter their time on a regular basis. Reference:

<https://docs.oracle.com/en/cloud/saas/project-portfolio-management/20c/oapfm/manage-project-time-and-labor.html#OAPFM2356011>

NEW QUESTION # 120

Which setup option is common to both financial and project plan types?

- A. Manage the options for creating control budgets in Oracle Fusion Budgetary Control.
- B. Enable the use of a workflow for managing budget or forecasting status changes.
- C. Identify whether the plan type is the default selection when you create budget or forecast versions.
- **D. Enable the entry of plan amounts in currencies other than the project currency.**

Answer: D

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapfm/project-control-configuration-manage-financial-and-project-plan-types.html#OAPFM75315> Financial and Project Plan Setup Options The following table describes the basic budget, forecast, or project plan setup options that determine how a plan type is used in the context of a project. Except for third-party scheduling, you can't edit these options at the project level.

Option

Location

Description

Planning amounts

Financial plan type

Indicates that the financial plan type supports the creation of versions with the following amounts:

* Cost amounts

* Revenue amounts

* Both cost and revenue amounts

* Either cost or revenue amounts

Approved budget or primary forecast

Financial plan type

Determines whether a financial plan type is used for creating approved budget versions or primary forecast versions that are used for plan comparison or project performance reporting.

Default financial plan type

Financial plan type

Determines whether the financial plan type is the default selection when you create budget or forecast versions.

Workflows

Financial plan type

Enables the use of a workflow for managing budget or forecast status changes.

Third-party scheduling software

Project plan type

Indicates whether project planning is performed in Microsoft Project.

If third-party scheduling is disabled in the project plan type, you can use the associated project or project template to create a project in Microsoft Project. However, you can't export the new project or link it to one created in Oracle Fusion Project Portfolio Management.

Multiple transaction currencies

Financial and project plan type

Enables entry of plan amounts in currencies other than the project currency.

Budgetary control settings

Financial plan type

Manages options for creating control budgets in Oracle Fusion Budgetary Control.

NEW QUESTION # 121

.....

Pass4cram's Oracle 1z0-1057-25 Exam Training materials provide the two most popular download formats. One is PDF, and other is software, it is easy to download.
