1/7

P.S. Free & New DEP-2025 dumps are available on Google Drive shared by ActualtestPDF: <https://drive.google.com/open?id=1j19PNSJG-Y1AAJMT7ShUjMTvw7jEvjHh>

After seeing you struggle, ActualtestPDF has come up with an idea to provide you with the actual and updated Apple DEP-2025 practice questions so you can pass the Apple DEP-2025 certification test on the first try and your hard work doesn't go to waste. Updated DEP-2025 Exam Dumps are essential to pass the Apple DEP-2025 certification exam so you can advance your career in the technology industry and get a job in a good company that pays you well.

Apple DEP-2025 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none">Identity Services: This section of the exam measures the skills of an MDM Specialist and covers supported identity services on Apple devices, including Platform SSO and Single Sign-On, helping users manage secure access and authentication.
Topic 2	<ul style="list-style-type: none">Device Support: This section of the exam measures the skills of an IT Administrator and covers troubleshooting Mac startup, recovery, and password reset processes using macOS Recovery. It ensures support professionals can maintain and restore device functionality.

Topic 3	<ul style="list-style-type: none"> • Apple Configurator: This section of the exam measures the skills of an IT Administrator and covers the usage of Apple Configurator in enrollment, supervision, and deployment of Apple devices. It includes an overview of its features and setup processes.
Topic 4	<ul style="list-style-type: none"> • Software Updates: This section of the exam measures the skills of an MDM Specialist and covers update management strategies using MDM. It includes handling deadlines, updating behavior, and ensuring that updates are properly delivered and installed.
Topic 5	<ul style="list-style-type: none"> • Device Configuration: This section of the exam measures the skills of an IT Administrator and covers declarative configuration properties and how they relate to the device enrollment type. It ensures that configurations align with organizational needs.
Topic 6	<ul style="list-style-type: none"> • Device Security: This section of the exam measures the skills of an MDM Specialist and covers encryption on Apple platforms, FileVault operations, and the importance of key management. It focuses on protecting sensitive data on managed devices.
Topic 7	<ul style="list-style-type: none"> • Plan a Deployment: This section of the exam measures the skills of an MDM Specialist and covers the purpose and function of Apple's built-in MDM framework. It evaluates the foundational understanding needed to support the deployment of Apple devices at scale using MDM protocols and tools.
Topic 8	<ul style="list-style-type: none"> • Planning Device Ownership and Enrollment: This section of the exam measures the skills of an IT Administrator and covers enrollment planning strategies based on ownership models. It focuses on data separation and appropriate deployment paths based on user and organizational requirements.
Topic 9	<ul style="list-style-type: none"> • Prepare Your Environment: This section of the exam measures the skills of an IT Administrator and covers the important factors involved in evaluating and preparing the environment for a successful MDM implementation. It emphasizes strategic planning before rollout.
Topic 10	<ul style="list-style-type: none"> • Apple Business Manager and Apple School Manager: This section of the exam measures the skills of an MDM Specialist and covers managing connections to resellers and managing device suppliers. It emphasizes the use of Apple Business Manager or School Manager to streamline large-scale deployments.
Topic 11	<ul style="list-style-type: none"> • Network Integration: This section of the exam measures the skills of an IT Administrator and covers assessing network responsiveness and device connectivity. It also covers wireless auto-join behavior on Apple devices and ensures strong network coverage.
Topic 12	<ul style="list-style-type: none"> • Device Setup: This section of the exam measures the skills of an MDM Specialist and covers strategies and use cases for managing Setup Assistant via MDM. It also covers the configuration of enrollment-related settings and pane options.

Latest DEP-2025 Exam Answers | DEP-2025 Exam Revision Plan

ActualtestPDF offers verified, authentic Apple DEP-2025 Real Questions and answers, which are essential for passing the Apple Deployment and Management Exam (DEP-2025). These questions and answers have been designed by Sitecore experts and can be easily downloaded on a PC, MacBook, or smartphone for comfortable and convenient learning.

Apple Deployment and Management Exam Sample Questions (Q182-Q187):

NEW QUESTION # 182

You're linking to an MDM server in Apple Business Manager or Apple School Manager. What must you download from your MDM solution to generate a server token?

- **A. Public key**
- B. Private key
- C. MDM Intermediate Certificate

- D. Content token

Answer: A

Explanation:

To establish a secure trust relationship between Apple Business Manager (ABM) and an MDM solution, Apple requires the use of server tokens. The process begins in the MDM console, where an administrator downloads a public key generated by the MDM. This public key is then uploaded into ABM or ASM. Apple signs the key and provides a server token, which is then downloaded from ABM and uploaded back into the MDM solution.

The server token authorizes the MDM to sync and manage purchased apps, books, and device assignments.

Apple Learning stresses that the public key is the only element required from the MDM during this process.

Private keys remain within the MDM, and content tokens are unrelated to this operation. This ensures both security and proper license synchronization.

References: Apple Business Manager User Guide - "Generate and upload server tokens."

NEW QUESTION # 183

What's required to use Automated Device Enrollment?

- **A. Apple Business Manager or Apple School Manager**
- B. User acceptance
- C. An Apple Developer account
- D. A VPN configuration

Answer: A

Explanation:

Automated Device Enrollment (ADE) requires Apple Business Manager (ABM) or Apple School Manager (ASM) to register devices purchased from Apple or authorized resellers. These portals link devices to an MDM solution for automatic enrollment and supervision during setup. An Apple Developer account (option A) is for app development, not ADE. User acceptance (option C) isn't needed, as ADE is automatic. A VPN configuration (option D) is unrelated. The Apple Platform Deployment Guide mandates ABM/ASM for ADE.

Reference: Apple Platform Deployment Guide (Chapter: Automated Device Enrollment).

NEW QUESTION # 184

What does MDM need to operate, specifically for APNs and SSL?

- A. Enrollment profiles
- B. Restrictions
- **C. Certificates**

Answer: C

Explanation:

For an MDM solution to operate effectively, it relies on certificates, particularly for secure communication with Apple Push Notification service (APNs) and for establishing encrypted connections via SSL/TLS. An APNs certificate is required to authenticate the MDM server with Apple's APNs infrastructure, enabling it to send push notifications to managed devices.

Additionally, an SSL certificate secures the communication channel between the MDM server and the devices, ensuring data privacy and integrity. Restrictions (option B) are policies enforced by MDM but are not prerequisites for its operation. Enrollment profiles (option C) are necessary to link devices to MDM, as discussed in Question 1, but they do not specifically address the APNs and SSL requirements. Apple's documentation, such as the MDM Protocol Reference, explicitly states that certificates are essential for APNs and SSL functionality in MDM deployments.

NEW QUESTION # 185

What's the benefit of using content caching?

- A. Enhances device security
- B. Separates personal and managed data
- **C. Improves network performance**

- D. Simplifies enrollment

Answer: C

Explanation:

Content caching on a Mac improves network performance by storing frequently accessed content (e.g., app updates, iCloud data) locally, reducing internet bandwidth usage and speeding up downloads for connected devices. It doesn't enhance security (option A), separate data (option C, a User Enrollment feature), or simplify enrollment (option D, an ADE benefit). The Apple Platform Deployment Guide emphasizes bandwidth optimization as the primary benefit of content caching.

NEW QUESTION # 186

What can you do with Apple Configurator for Mac?

- A. Buy apps and books.
- B. Push profile updates over the air.
- C. Enable Managed Lost Mode.
- **D. Use Shortcuts automations.**

Answer: D

Explanation:

AppleConfigurator for Mac is a utility designed to supervise, restore, and configure iOS, iPadOS, and tvOS devices. Apple Learning highlights a newer feature: the ability to use Shortcuts automations with Configurator. This means administrators can script repeatable tasks - for example, restoring a device, applying enrollment settings, and erasing it - without manually repeating steps. Over-the-air profile updates are handled by MDM, not Configurator. Purchasing apps and books is managed through Apple Business Manager, not Configurator. Managed Lost Mode is an MDM feature, not part of Configurator. Shortcuts integration makes Configurator more powerful in high-volume environments, letting IT staff automate otherwise time-intensive preparation workflows, especially in education or labs. This reinforces Apple's commitment to automation and efficiency in deployment.

References: Apple Configurator Guide - "Automate device setup using Shortcuts."

NEW QUESTION # 187

.....

As for buying DEP-2025 questions and answers for the exam, people may have different concerns. Most candidates can pass the exam by using the DEP-2025 questions and answers of us just one time, we ensure you that we will give you refund if you can't pass. Or if you have other exams to attend, we can replace other 2 valid exam dumps for you, at the same time, if DEP-2025 Questions and answers you buy updates, you can also get the latest version for free. You just need to send us the failure scanned, and we will replace the exam dumps or return your money to you.
