## CCFH-202b Test Answers | Exam CCFH-202b Papers

This way you will be able to experience the actual CrowdStrike Certified Falcon Hunter exam environment and become a more prepared and confident candidate to step into the examination center. You will know where exactly you stand before the actual CrowdStrike CCFH-202b Certification Exam. The actual CrowdStrike CCFH-202b exam questions will make you familiar with the inside-out view of the exam pattern and syllabus.

## CrowdStrike Certified Falcon Hunter Sample Questions (Q38-Q43):

### NEW QUESTION # 38

To view Files Written to Removable Media within a specified timeframe on a host within the Host Search page, expand and refer to the \_\_\_\_\_ dashboard panel.

- A. Registry, Tasks, and Firewall
- B. Command Line and Admin Tools
- C. Suspicious File Activity
- D. Processes and Services

### Answer: C

Explanation:

To view Files Written to Removable Media within a specified timeframe on a host within the Host Search page, you need to expand and refer to the Suspicious File Activity dashboard panel. The Suspicious File Activity dashboard panel shows information such as files written to removable media, files written to system directories by non-system processes, files written to startup folders, etc. The other dashboard panels do not show files written to removable media.

### NEW QUESTION # 39

Which document provides information on best practices for writing Splunk-based hunting queries, predefined queries which may be customized to hunt for suspicious network connections, and predefined queries which may be customized to hunt for suspicious processes?

- A. Hunting and Investigation
- B. Real Time Response and Network Containment
- C. Incident and Detection Monitoring
- D. Events Data Dictionary

### Answer: A

Explanation:

The Hunting and Investigation document provides information on best practices for writing Splunk-based hunting queries, predefined queries which may be customized to hunt for suspicious network connections, and predefined queries which may be customized to hunt for suspicious processes. As explained above, the Hunting and Investigation document is a guide that provides sample hunting queries, select walkthroughs, and best practices for hunting with Falcon. The other documents do not provide the same information.

### NEW QUESTION # 40

Which of the following is an example of a Falcon threat hunting lead?

- A. A help desk ticket for a user clicking on a link in an email causing their machine to become unresponsive and have high CPU usage
- B. An external report describing a unique 5 character file extension for ransomware encrypted files
- C. Security appliance logs showing potentially bad traffic to an unknown external IP address
- D. A routine threat hunt query showing process executions of single letter filename (e.g., a.exe) from temporary directories

### Answer: D

Explanation:

A Falcon threat hunting lead is a piece of information that can be used to initiate or guide a threat hunting activity within the Falcon platform. A routine threat hunt query showing process executions of single letter filename (e.g., a.exe) from temporary directories is an example of a Falcon threat hunting lead, as it can indicate potential malicious activity that can be further investigated using Falcon data and features. Security appliance logs, help desk tickets, and external reports are not examples of Falcon threat hunting leads, as they are not directly related to the Falcon platform or data.

### NEW QUESTION # 41

Which of the following Event Search queries would only find the DNS lookups to the domain: www.randomdomain.com?

- A. event\_simpleName=DnsRequest DomainName=randomdomain.com ComputerName=localhost
- B. event\_simpleName=DnsRequest DomainName=www.randomdomain.com
- C. Dns=randomdomain.com
- D. ComputerName=localhost DnsRequest "randomdomain.com"

**Answer: B**

Explanation:

This Event Search query would only find the DNS lookups to the domain www.randomdomain.com, as it specifies the exact event type and domain name to match. The other queries would either find other events or domains that are not relevant to the question.

**NEW QUESTION # 42**

You are reviewing a list of domains recently banned by your organization's acceptable use policy. In particular, you are looking for the number of hosts that have visited each domain. Which tool should you use in Falcon?

- A. Bulk Domain Search
- B. Create a custom alert for each domain
- C. Allowed Domain Summary Report
- D. IP Addresses Search

**Answer: A**

Explanation:

Bulk Domain Search is the tool that you should use in Falcon to review a list of domains recently banned by your organization's acceptable use policy and look for the number of hosts that have visited each domain. Bulk Domain Search is an Investigate tool that allows you to search for multiple domains at once and view their network connection events across all hosts in your environment. It shows information such as domain name, number of hosts visited, number of detections generated, etc. for each domain. Create a custom alert for each domain, Allowed Domain Summary Report, and IP Addresses Search are not tools that you should use for this purpose.

**NEW QUESTION # 43**

.....

Our experts who compiled the CCFH-202b practice materials are assiduously over so many years in this field. They add the new questions into the CCFH-202b study guide once the updates come in the market, so they recompose the contents according to the syllabus and the trend being relentless in recent years. With so accurate information of our CCFH-202b learning questions, we can confirm your success by your first attempt.

**CCFH-202b Test Answers:** <https://www.free4torrent.com/CCFH-202b-braindumps-torrent.html>

As a worldwide leader in offering the best CCFH-202b test torrent, we are committed to providing comprehensive service to the majority of consumers and strive for constructing an integrated service. Thanks for your best CCFH-202b material. We are fully aware of the fact that CrowdStrike CCFH-202b actual test is a very challenging and technical exam, which needs to be prepared seriously by the candidates if they want to ensure CCFH-202b pass test. We have a team of rich-experienced certified trainers who did many research in the CCFH-202b valid test, they checked the updating everyday to make sure that our candidates get the latest CrowdStrike CCFH-202b exam dumps and pass the CCFH-202b valid exam with high rate.

System Services take this a step further, Hundreds of millions of people CCFH-202b all over the world have become active on the various online social networking sites, such as Facebook, Twitter, and LinkedIn.
