## NEW QUESTION # 55

Your global marketing team has over 500 employees. They recently started working with Google Analytics and want to move to managed accounts. You decide to use Google Cloud Directory Sync (GCDS) to sync users from your current identity provider. Your organization currently has no Google Workspace licenses linked to the Admin console. You run GCDS for the first time and receive the following error, "Domain user limit reached." You need to identify and fix the problem.

What should you do?

- A. Wait 48 hours until the domain is fully provisioned.
- **B. Ensure that there is a subscription available and enough licenses to sync the new users.**
- C. Check if GCDS has the correct permissions to run a sync on your domain.
- D. Update the delete limits of GCDS, and try again.

**Answer: B**

Explanation:

The error "Domain user limit reached" indicates that there are not enough Google Workspace licenses available to accommodate the new users being synced by GCDS.
