According to the Scrum Guide 20201, "The Scrum Team is small enough to remain nimble and large enough to complete significant work within a Sprint, typically 10 or fewer people." The other options are outdated or incorrect. Option A was based on the previous version of the Scrum Guide, which suggested a range of 3 to 9 developers<sup>2</sup>. Option B is too vague and does not account for the upper limit of team size. Option C is too specific and does not allow for flexibility.
