Die Konkurrenz in unserer Gesellschaft wird immer heftiger. Unsere Pass4Test ist noch bei vielen Prüfungskandidaten sehr beliebt, weil wir immer vom Standpunkt der Teilnehmer die Softwaren entwickeln. Z.B. die gut gekaufte Microsoft MB-335 Prüfungssoftware wird von unserem professionellem Team entwickelt mit großer Menge Forschung der Microsoft MB-335 Prüfung. Obwohl wir eine volle Rückerstattung für die Verlust des Tests versprechen, bestehen fast alle Kunde Microsoft MB-335, die unsere Produkte benutzen. Was beweist die Vertrauenswürdigkeit und die Effizienz unserer Microsoft MB-335 Prüfungsunterlagen.

Viele Menschen haben Sorgen darum, dass sie in der Prüfung durchfallen, auch wenn sie sich schon lange auf Microsoft MB-335 Prüfung vorbereitet, nur weil sie nicht an der Prüfungsatmosphäre gewöhnt sind. Deshalb bieten wir Ihnen die Möglichkeit, vor der Prüfung die realistische Prüfungsatmosphäre zu erfahren. Microsoft MB-335 Simulierte-Software enthält zahlreiche Prüfungsaufgaben mit ausführliche Erklärungen der Antworten von den Experten. Damit können Sie Ihre Fähigkeit verbessern und ausreichende Vorbereitung der Microsoft MB-335 Prüfung haben.

MB-335 Prüfung - MB-335 Online Praxisprüfung

Pass4Test bietet Ihnen die neuesten Schulungsunterlagen zur Microsoft MB-335 Zertifizierungsprüfung. Die fleißigen IT-Experten von Pass4Test aktualisieren ständig Schulungsunterlagen durch ihre eigene Kompetenz und Erfahrung, so dass die IT-Fachleute die Prüfung mühelos bestehen können. Das Microsoft MB-335 Zertifikat stellt eine immer wichtigere Stelle in der IT-Branche dar. Und immer mehr Leute haben sich an dieser Prüfung beteiligt. Und viele davon benutzen unsere Produkte von Pass4Test und haben die Microsoft MB-335 Zertifizierungsprüfung bestanden. Die Feedbacks von diesen Leute haben bewiesen, dass unsere Produkte von Pass4Test eher zuverlässig sind.

Microsoft Dynamics 365 Supply Chain Management Functional Consultant Expert MB-335 Prüfungsfragen mit Lösungen (Q199-Q204):

199. Frage

A bicycle manufacturing company is implementing Dynamics 365 Supply Chain Management. The warehouse must pick and stage parts other than paint for bicycle assembly. Paint is at the production station. You need to configure the reservations for production. What should you configure? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Antwort:

Begründung:

□ Explanation:

To configure the reservations for paint production, you should do the following:

* Define configuration for paint reservation: You should configure the Item model group for paint. The Item model group determines the inventory policies for an item, such as reservation, tracking, and costing¹. You can set the reservation policy for paint to FIFO date-controlled, which means that the inventory reservation is controlled by a sorting date according to the FIFO principle². You can also set the Backward from ship date option, which means that the inventory reservation is controlled by the last update physical date according to the FIFO rule².

* Define the reservation principle for paint: You should set the reservation principle to Start. This means that inventory is reserved when production starts³. This way, you can ensure that paint is available at the production station when needed

200. Frage

A company makes lubricants and greases used in the automotive industry. The company plans to implement Dynamics 365 Supply Chain Management.

The system must meet the following requirements:

* Schedule the batch production of products.

* Plan for inventory fluctuations of ingredients that are used across different products.

* Schedule delivery of amounts of proprietary compounds used during production from vendors to keep production runs on schedule and eliminating excess stock on hand or delayed production.

You need to perform the initial setup of the company's Dynamics 365 environment.

At which level should you set up the items? To answer, drag the appropriate setup levels to the correct setup options. Each setup level may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

□

Antwort:

Begründung:

□

201. Frage

You need to configure the solution for the two issues the production manager reported.

How should you complete the configurations? To answer, move the appropriate configurations to the correct issues. You may use each configuration once, more than once, or not at all. You may need to move the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

□

Antwort:

Begründung:

Topic 6, Adatum Corporation
Adatum Corporation is a multi-entity corporation located in Seattle, Washington in the United States. The company is a leading producer of specialty cakes and cookies. The company also manufactures specialty chocolates that use ethically sourced ingredients from around the world. The company plans to

launch a new product line of organic chocolates later this year.

Adatum plans to implement Dynamics 365 Finance and Dynamics 365 Supply Chain Management to manage financials, inventory, and manufacturing capabilities across the entire organization.

- * Manufactured products are stored at the distribution warehouses until they are shipped to customers.

- * Individually branded pre-packaged cake and cookie mixes are supplied to specialty cafes and restaurants.

The mixes are shipped directly to the cafes and restaurants from the production factories.

- * The company maintains a fleet of trucks and also subcontracts shipments between the factories and warehouses to outside vendors.

- * The mixes and specialty chocolates are based on standard recipes that use precise ingredient ratios. There are strict rules around ingredient substitutions.

- * All mixes use one of three base recipes as their foundation: BaseA, BaseB, and BaseC. Additional ingredients, spices, and flavorings are then added to make the final product.

- * BaseA and BaseB are made in large batches and stored until they are used in the other mixes.

- * Mixes with BaseA have a shelf life of six months due to the type of flour it uses.

- * Specialty chocolates are manufactured only during the holiday season.

- * Specialty desserts are offered during the holiday season. This year, customers may specify additional icing colors and cake layers when placing orders. Depending on the popularity of two of the new colors, they may be offered the next year.

- * Cocoa oil that is extracted during the production of some of the specialty chocolates is used in the BaseB foundation mix.

- * Cleaning and setup of machinery between products has been causing delays in production.

- * Prices of raw ingredients such as sugar can fluctuate greatly depending on seasonal and worldwide demand.

- * To properly record profitability, all raw materials use the first in, first out (FIFO) costing method, while finished products are recorded at standard costs.

- * Large fluctuations have been occurring at month end in costs reported due to the inability to track production runs that span from month-to-month.

- * Leftover flour and sugar from production runs are collected, packaged, and donated to local food banks if the amount is too small to use in other runs.

- * To maintain Adatum's certification as a manufacturer of ethically sourced ingredients, the traceability of every ingredient in all products to their source must be tracked.

- * All products must be randomly tested for adherence to quality standards for ingredient makeup and weight.

- * Similar recipes must be able to be produced in succession to limit machinery cleaning and setup times.

- * All costs must be tracked for each production run and be able to be reconciled at the end of the monthly accounting cycle, including any work in process (WIP) costs and donations.

- * The organic chocolate line must be set up. The ingredients cannot be mixed with non-organic ingredients in inventory.

- * Mixes are generally stored and sold in 16-ounce bags. Some quantities are sold and distributed in 5, 10, and 20-gallon containers to large restaurants.

- * Each mix has a single unique item number and is tracked per batch produced.

- * Specialty chocolate products must be stored in climate-controlled areas of the warehouse.

- * QA TesterA discovers during a random test that the batch of a mix does not contain the necessary amount of IngredientB.

- * VendorZ, who transports finished goods from PlantA to Warehouses, is consistently late picking up product.

- * OperatorA must consolidate partial mix batch group runs into saleable package quantities.

- * UserB must set up the mix items.

- * UserC learns that mixes containing BaseA have been stamped with a batch date from the flour vendor and is not being calculated from the mix manufacturing date. The mixes from the past month that might be impacted need to be identified and the calculation needs to be corrected.

- * UserD must update the costs of finished goods. Accounting wants labor calculated in WIP based on how much time an individual spends performing the operation, as well as the finished goods to post to a specific different ledger account.

- * UserE must set up and maintain the cost of sugar.

- * UserF must decrease downtime for the machinery.

- * UserG must plan the specialty desserts for the current holiday season.

203. Frage

A manufacturer is implementing Dynamics 365 Supply Chain Management to create blends of oil and industrial lubricant.

The manufacturer requires detailed documentation for the production order process before manufacturing begins for the products.

The shop floor must review, approve, and anticipate all production runs. Before production starts, the manufacturer wants to ensure that the order can be completed by a certain timeframe based on capacity.

You need to define the production life cycle stages.

Which five actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

□

Antwort:

Begründung:

□ Explanation:

To define the production life cycle stages, you should perform the following actions in sequence:

* Create a production order. A production order is a document that authorizes the production of a specific product or product variant in a given quantity on a specific date¹. You can create a production order manually, from a sales order line, or from master planning execution².

* Estimate the order. Estimating a production order calculates the material and capacity requirements for the order based on the bill of materials (BOM) and the route³. You can also estimate the cost and revenue of the order based on the planned consumption and output.

* Schedule production jobs. Scheduling production jobs determines the start and end dates and times for each operation in the route based on the available capacity, efficiency, and calendar of the resources.

You can use either operations scheduling or job scheduling methods to schedule production jobs.

* Release the order. Releasing a production order makes it available for picking, production, and reporting activities. You can release an order manually or automatically based on a release rule that specifies criteria such as site, warehouse, status, priority, or start date.

* Generate a picking list. A picking list is a document that lists the materials that must be picked from inventory and consumed for production. You can generate a picking list for an entire production order or for selected jobs or operations within an order.

1: Production process overview 2: Production order lifecycle overview 3: Estimate a production order :

[Estimate cost and revenue for a production order] : [Schedule production jobs] : [Scheduling methods] :

[Release a production order] : [Release rules] : [Picking list overview] : [Generate picking lists]

204. Frage

.....

Tun Sie, was Sie gesagt haben, was Beginn des Erfolgs ist. Weil Sie die schwierige IT-Zertifizierungsprüfung ablegen wollen, sollen Sie sich bemühen, um das Zertifikat zu bekommen. Die Fragenkataloge zur Microsoft MB-335 Prüfung von Pass4Test sind sehr gut. Mit Ihr können Sie Ihren Erfolg ganz leicht erzielen. Sie sind ganz zuverlässig. Ich glaube, Sie werden die Prüfung 100% bestehen.
