Fortinet FCP_FWF_AD-7.4 Certification Training, New FCP_FWF_AD-7.4 Exam Guide

The experts in our company have been focusing on the FCP_FWF_AD-7.4 examination for a long time and they never overlook any new knowledge. The content of our FCP_FWF_AD-7.4 study materials has always been kept up to date. We will inform you by E-mail when we have a new version. With our great efforts, our FCP_FWF_AD-7.4 practice dumps have been narrowed down and targeted to the FCP_FWF_AD-7.4 examination. We can ensure you a pass rate as high as 99%!

Fortinet FCP_FWF_AD-7.4 Exam Syllabus Topics:

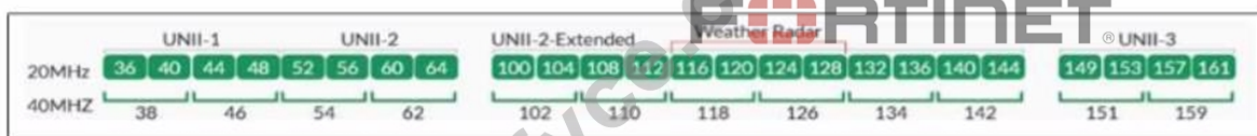

--

Topic	Details
Topic 1	Wireless network security and access: This section of the exam measures skills of security administrators and covers the design and deployment of secure wireless networks. It includes configuring wireless access controls, implementing VLANs, and using network access control (NAC) to segment and protect the wireless environment.
Topic 2	Wireless monitoring and protection: This section of the exam measures skills of network engineers and covers monitoring and managing wireless infrastructure. It focuses on identifying wireless threats, detecting malicious activities, and ensuring access point performance and stability. It also involves implementing guest services and location-based presence features.
Topic 3	Wireless diagnostics and analytics: This section of the exam measures skills of security administrators and covers the tools and techniques used to diagnose and analyze wireless issues. It includes gathering information from clients and devices, troubleshooting common wireless problems, and reviewing logs and debug data to apply effective fixes.
Topic 4	Wireless fundamentals and FortiAP management: This section of the exam measures skills of network engineers and covers the foundational understanding of wireless technologies and standards. It includes knowledge of deploying FortiAP devices using the integrated FortiOS wireless controller and configuring them using custom access point profiles.
