NEW QUESTION # 36

According to DFARS clause 252.204-7012, who is responsible for determining that Information in a given category should be considered CUI?

- A. The NARA CUI Executive Agent
- B. The military personnel assigned to the contractor for that purpose
- C. The contractor who generated the information
- **D. The DoD agency for whom the contractor is performing the work**

Answer: D

Explanation:

DFARS clause 252.204-7012 establishes the safeguarding of Covered Defense Information (CDI), which aligns with CUI categories. The clause specifies that the DoD is responsible for determining whether information is Controlled Unclassified Information (CUI) and marking it accordingly before sharing it with contractors. Contractors do not make determinations about what constitutes CUI; they are responsible for safeguarding information once it is received and marked as CUI.

NEW QUESTION # 39

A C3PAO has completed a Limited Practice Deficiency Correction Evaluation following an assessment of an OSC. The Lead Assessor has recommended moving deficiencies to a POA&M, but the OSC will remain on an Interim Certification. What is the MINIMUM number of practices that must be scored as MET to initiate this course of action?

- A. 88 practices
- B. 110 practices
- C. 100 practices
- D. 80 practices

Answer: C

Explanation:

The Limited Practice Deficiency Correction Evaluation process occurs when an Organization Seeking Certification (OSC) has undergone a CMMC Level 2 Assessment by a Certified Third-Party Assessment Organization (C3PAO) and has unresolved deficiencies in some security practices.

According to CMMC 2.0 policy and DFARS 252.204-7021, OSCs can still achieve Interim Certification if they meet the minimum threshold of security practices while addressing deficiencies through a Plan of Action & Milestones (POA&M).

The CMMC 2.0 Interim Rule states that an OSC must meet at least 100 out of 110 practices to qualify for a POA&M-based remediation.

A maximum of 10 practices can be listed in the POA&M for later correction.

Failure to meet at least 100 practices results in failing the assessment outright, requiring a full reassessment after remediation.

The Lead Assessor can recommend POA&M placement only if the OSC meets at least 100 practices.

Less than 100 practices scored as MET means the OSC does not qualify for a POA&M and must retest completely.

DFARS 252.204-7021 and CMMC 2.0 policies confirm the 100-practice threshold for conditional certification.

A). 80 practices (Incorrect)- Falls well below the 100-practice requirement.

B). 88 practices (Incorrect)- Still below the POA&M eligibility threshold.

D). 110 practices (Incorrect)- While meeting 110 practices would be ideal, CMMC allows a POA&M option at 100 practices.

The correct answer is C. 100 practices, as this meets the minimum threshold for POA&M-based Interim Certification.
