### NEW QUESTION # 14

As part of maintaining (importing new employees that were added last week) project enterprise labor resources in your organization, you submit the Maintain Project Enterprise Labor Resources process to create and update resources based on changes in HCM. You define maintenance conditions on the Manage Project Enterprise Labor Resource page to process both employees and contingent workers. (Choose the best answer.)

- A. Pool Membership
- B. attributes that the project enterprise resources are assigned after creation
- C. Person Type
- D. Jobs

**Answer: C**

Explanation:

Reference [https://docs.oracle.com/cloud/fare18/projects\\_gs/OAPEX/F1082603AN23E61.htm](https://docs.oracle.com/cloud/fare18/projects_gs/OAPEX/F1082603AN23E61.htm) Manage Project Enterprise Labor Resource Maintenance Conditions Project Enterprise Labor Resources: How They Are Automatically Created and Maintained Run the Maintain Project Enterprise Labor Resources process to create resources, remove resource availability for staffing, and maintain the resource search index.

Settings That Affect the Maintain Project Enterprise Labor Resources Process Create and maintain project enterprise labor resources by defining a set of conditions that specify the employees and contingent workers in Oracle Fusion Human Capital Management (HCM) to create as resources in Oracle Fusion Project Portfolio Management. Define the resource attribute values,

such as the resource calendar and primary project role, to assign to the new resources.

The following table lists the criteria that you define for selecting HCM persons to create as project enterprise labor resources.

#### Selection Criteria

##### Description

##### Person type

Select the HCM person type for the process to use as criteria when selecting HCM persons to create as resources. Available person types are employees, contingent workers, or both employees and contingent workers.

##### Option to select people based on job

Select this option for the process to create resources for HCM persons with specific jobs.

Caution If you do not select job criteria for this condition, the process will create resources for all eligible people based only on the person type.

##### Jobs

If you selected the option to select people based on job, then select the jobs for the process to use as HCM person selection criteria.

The following table lists the attributes for which you specify values to assign to resources that are created for the condition.

##### Resource Attribute

##### Description

##### Option to manage resource availability and staffing

Select this option for resource managers to manage the availability and project staffing of resources who are created based on the condition. Resources who are managed in Oracle Fusion Project Resource Management are eligible to fulfill project resource requests.

##### Calendar

Select the resource calendar for resources that are created based on the condition. The resource calendar defines the work schedule for project enterprise labor resources, and includes working days and hours and any exceptions, such as holidays.

##### Primary project role

Select the primary project role for resources that are created based on the condition. Project roles are maintained in Oracle Fusion Project Management.

##### Cost rate and currency

Enter the cost rate and currency for resources that are created based on the condition.

##### Bill rate and currency

Enter the bill rate and currency for resources that are created based on the condition.

## NEW QUESTION # 15

Your organization has been using project class categories and codes for reporting purposes and is set up at the project level. You recently defined a new project type, Capital-Contract, and created new class categories named Build, Operate, and Transfer (BOT) and Build, Transfer, and Maintain (BTM), with class codes of Yes

/No. But on creation of a project, you are unable to associate these class categories and codes.

Identify two setups that are mandatory for these class categories and codes to be displayed. (Choose two.)

- A. Class codes should be associated with a related set code.
- B. Class categories should be assigned to project type.
- C. Class categories should be assigned to business unit.
- D. Class codes should be assigned to project unit.

## Answer: A,B

### Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oapfm/project-foundation-configuration-manage-project-types.html#OAPFM360164> Topic - Associating Project Types and Class Categories: Examples Project classifications group your projects according to categories and codes that you define. When you associate project classifications with project types, the classification is available for selection on projects with that project type.

Use any of the following methods to associate class categories with project types:

\* Add a classification to the project type definition

For each classification that you associate with the project type, you can enable the Assign to All Projects option to automatically add the classification to the project definition for all new projects with the project type. When this option is enabled, all projects with this project type must be assigned a class code for the class category.

\* Add a project type to the class category definition

\* Enable the Assign to all Project Types option on the class category definition

## NEW QUESTION # 16

Which two attributes are available while enabling a task as a business object for social networking?

- A. Project Number
- B. Task Number
- **C. Project**
- **D. Task**
- E. Creation Date

**Answer: C,D**

Explanation:

To enable a task as a business object for social networking, you need to select the task and the project attributes. These attributes allow you to identify the task and the project it belongs to, and to view the social conversations related to them. Task number and creation date are not available as attributes for social networking. Project number is available, but it is not required to enable a task as a business object. Reference:
