The CIS-Discovery Certification Exam is designed for professionals who want to specialize in the ServiceNow Discovery application. CIS-Discovery exam tests the candidate's knowledge of the Discovery application, including its architecture, configuration, and customization. Certified Implementation Specialist - Discovery certification validates the candidate's ability to configure and manage the Discovery application in a ServiceNow environment.

Certified Implementation Specialist - Discovery (CIS Discovery) Exam Certification Path

The ServiceNow deployment journey would teach you to deliver ServiceNow products rapidly and effectively in the consumer setting, whether you are a young contractor beginning your career or an accomplished specialist seeking to deepen your skills and separate yourself from the competition. Developers excel in setup, scripting, and integration. If you are on the way to being a Professional Application Developer (CAD), you can learn how to build apps by developing application tables, constructing and incorporating forms, managing access, and incorporating workflows into applications. You will specialize in the product and understand how to allow the best use of the Now Platform. Administrators shall administer and operate the Network. Discover the most basic elements for handling and sustaining the ServiceNow Network.

Having a strategy and maximizing time to do something would guarantee your progress. Typically, the training for the ServiceNow Exploration Implementation Specialist test starts on the very first day of the academic session. You ought to have a clear effort to complete your studies in time to stop being stressed out as a test. Your aim should be to determine how much work you need in the academic session to finish your studies before the exam begins. It would be better if you had to draw up a road chart that represents the number of lessons and chapters and a timeline for them. You will create such a schedule by measuring the time required for an academic session and the number of courses you need to learn in that session. It can help you make the best of your time and finish your studies on time.

Study notes are essential to the planning of the test. Strong work-notes on all the critical study content. It means that the CIS Discovery exam is prepared fast. Try taking your research notes daily during your academic session. Win points from your class-lecture, as well as from the books you read yourself. It needs to be prepared in a precise order. It should include everything you need to practice rapidly for your test. Study the **CIS Discovery exam dumps** and practice what you learn by taking the **CIS Discovery practice exams**.

ServiceNow Certified Implementation Specialist - Discovery Sample Questions (Q17-Q22):

NEW QUESTION # 17

What related list on a classifier dictates which Horizontal Pattern probe is launched?

- A. Triggers probes
- B. Discovery Log
- C. Classification Criteria
- D. Pattern probes

Answer: A

Explanation:

A classifier is a set of rules that identifies a device type based on the results of a probe. A classifier can have one or more related lists that define the classification criteria, the pattern probes, and the triggers probes. The pattern probes related list specifies which horizontal discovery pattern to run for the device type. The triggers probes related list specifies which probes to run after the device is classified, and before the horizontal discovery pattern is executed. The triggers probes can be used to gather additional information or credentials that are needed for the horizontal discovery pattern¹².

2: ServiceNow Discovery Documentation, Classifiers section

NEW QUESTION # 18

When installing a MID Server on a Windows platform, which right must be associated when creating a Service Account?

- A. Local Admin
- B. Domain Admin
- C. Log on as service
- D. MID Server User Role

Answer: A

NEW QUESTION # 19

What role is needed by the MID Server's user account to interact with a ServiceNow instance?

- A. mid_server
- B. mid_discovery
- C. discovery_admin
- D. sm_mid

Answer: A

Explanation:

The MID Server's user account must have the mid_server role to interact with a ServiceNow instance. This role allows the MID Server to access protected tables and perform discovery and orchestration tasks on behalf of the instance. The other roles are not related to the MID Server functionality. The discovery_admin role is for configuring and managing discovery, the sm_mid role is for using the Service Mapping MID Server, and the mid_discovery role is for running discovery probes and sensors.

:

Setting up MID Server user and role

Configure Windows MID Server service credentials
Correcting MID Server Windows service account user and permissions

NEW QUESTION # 20

Probe to pattern migration is only support for the release and later.
Response:

- A. madrid
- B. new York
- C. probes cannot be migrated to patterns
- D. london

Answer: B

NEW QUESTION # 21

What commands can be used to verify if powershell is installed on a windows machine?
Response:
