Microsoft Identity and Access Administrator Sample Questions (Q151-Q156):

NEW QUESTION # 151

You have a Microsoft 365 subscription.

You need to ensure that users can grant enterprise applications access to their profile. The solution must ensure that the users can consent only to the User. Read and profile delegated permissions.

What should you configure first?

- A. Identity Protection settings
- B. Permission classifications
- C. Admin consent settings
- D. Security defaults

Answer: C

NEW QUESTION # 152

Drag and Drop Question

You have an Azure subscription that contains the resources shown in the following table.

The subscription uses Privileged Identity Management (PIM).

You need to configure the following access controls by using PIM:

- Ensure that User1 can read and update Secret1.
- Ensure that User2 can read the contents of the secrets stored in Vault2.

The solution must follow the principle of least privilege.

Which authorization method should you use for each user? To answer, drag the appropriate authorization methods to the correct users. Each authorization method may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Answer:
