## SAP Certified Associate - Positioning WalkMe Sample Questions (Q20-Q25):

### NEW QUESTION # 20

Which of the following are measurable impacts delivered by WalkMe? Note: There are 3 correct answers to this question.

- A. Increased employee productivity through streamlined workflows

- B. Elimination of all R&D costs within enterprises
- C. Faster and more flexible product delivery
- D. Enhanced user satisfaction through NPS and CSAT improvements
- E. Reduction in compliance-related issues through automatic insights

**Answer: A,D,E**

Explanation:

Here are three measurable impacts delivered by WalkMe, based on learning.sap.com and supporting sources:

☐ C. Reduction in compliance-related issues through automatic insights

WalkMe's analytics surface compliance gaps and user deviations-automatically identifying and guiding users away from risky or unauthorized actions, thereby reducing compliance-related issues.

☐ D. Increased employee productivity through streamlined workflows

WalkMe captures friction points within workflows-then resolves them with automation and in-app guidance, helping employees work faster and smarter

☐ E. Enhanced user satisfaction through NPS and CSAT improvements

WalkMe supports in-app surveys, including CSAT and NPS, empowering teams to measure sentiment and deliver experiences that improve satisfaction scores

☐ Why the other options don't fit:

\* A. Faster and more flexible product delivery - This is a strategic benefit but not a directly measured outcome typically highlighted by WalkMe.

\* B. Elimination of all R&D costs within enterprises - That's unrealistic and not claimed by WalkMe.

C Final Answer:

C, D, and E.

## NEW QUESTION # 21

Why do organizations invest in Digital Adoption Platforms (DAP) like WalkMe?

- A. Delivering consistent user experiences across diverse regions
- B. Allowing users to toggle between languages manually
- C. Automating compliance with international data privacy laws
- D. Simplifying the deployment of WalkMe content across applications

**Answer: A**

Explanation:

The primary benefit of WalkMe's Multi-Language feature for global enterprises is:

☐ C. Delivering consistent user experiences across diverse regions

WalkMe's Multi-Language capability allows organizations to translate all in-app guidance (Walk-Thrus, ShoutOuts, surveys) into multiple languages without rebuilding content, ensuring that users across different geographies have a seamless and native-language experience.

☐ Why the other options don't fit

\* A. Automating compliance with international data privacy laws - Multi-Language is about translation and localization, not legal compliance.

\* B. Simplifying deployment of WalkMe content across applications - While deployment is easy, the feature specifically targets language translation.

\* D. Allowing users to toggle between languages manually - This is a capability of the feature, not its primary benefit. The real value lies in the consistent multilingual user experience across the global organization.
