SAP Certified Associate - SAP S/4HANA Cloud Private Edition - Transportation Management Sample Questions (Q19-Q24):

NEW QUESTION # 19

Which of the following are some of the process steps in the strategic freight procurement process? Note:

There are 3 correct answers to this question.

- **A. Prepare request for quotation (RFQ)**
- B. Generate business shares
- **C. Generate freight agreements**
- **D. Evaluate responses and optimize**
- E. Define trade lanes

Answer: A,C,D

Explanation:

The strategic freight procurement process in SAP S/4HANA Transportation Management involves several steps to establish agreements with carriers. According to the SAP documentation, the key process steps include:

* Evaluate responses and optimize (B): After receiving responses to RFQs, the system evaluates them based on criteria like cost, capacity, or service quality to select the best carriers.

* Prepare request for quotation (RFQ) (D): This step involves creating RFQs to solicit bids from carriers for specific transportation services.

* Generate freight agreements (E): Once carriers are selected, freight agreements are generated to formalize the terms, including rates and conditions.

The other options are incorrect:

* Generate business shares (A) is a configuration step for carrier selection, not a core part of the strategic procurement process.

* Define trade lanes (C) is part of master data setup, not a specific step in the procurement process.
