With its popularity rapidly increasing, the need for certified professionals who can manage, configure and customize Salesforce has also risen. The Salesforce Experience-Cloud-Consultant (Salesforce Certified Experience Cloud Consultant) Exam is one such certification exam that validates the skills and knowledge of professionals in creating and managing Salesforce Experience Cloud solutions.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q182-

Q187):

NEW QUESTION # 182

Bloomington Caregivers (BC) wants to share Covid-19 related information with all site visitors, including unauthenticated users. Which three things should BC in mind about unauthenticated or guestuser access?
Choose 3 answers

- A. Guest user external organization-wide default are always set to Private.
- B. Guest user can't access records via manual sharing
- C. Guest user can't records via manual existing records
- D. Guest user external organization-wide defaults are always set to Public.
- E. Guest user can't be members of public groups or queues.

Answer: A,B,E

Explanation:

Three things that BC should keep in mind about unauthenticated or guest user access are A, B, and D.

Unauthenticated or guest user access is a feature that allows users to access your Experience Cloud site without logging in or registering. Unauthenticated or guest users have limited access and visibility to data in your Salesforce org, and they have some restrictions, such as:

- * Guestuser external organization-wide defaults are always set to Private. This means that guest users cannot access any records that are owned by external users (such as Customer Community or Partner Community users) unless they are explicitly shared with them.
- * Guest user can't access records via manual sharing. This means that guest users cannot access any records that are shared with them by using the Sharing button on the record detail page.
- * Guest user can't be members of public groups or queues. This means that guest users cannot access any records that are shared with them by using public groups or queues as criteria.

NEW QUESTION # 183

The Universal Containers Experience Cloud admin needs to move a site from one production org to another production org that it is not directly connected to.
What is the recommended choice for moving the site from one org to the other?

- A. Lightning Bolt Export and Installation
- B. Deployment via Metadata API
- C. Publication via Experience Builder
- D. Deployment via Change Set

Answer: A

Explanation:

To move a site from one production org to another production org that is not directly connected, UC should use Lightning Bolt Export and Installation. Lightning Bolt is a feature that allows UC to export a site as a package that contains the site template, theme, pages, components, and content. UC can then install the package in another org using the AppExchange or a URL link.

NEW QUESTION # 184

DreamHouse Reality (DR) is looking to enter the insurance business. After discussing with business advisor. DR has decided to use independent agents to manage claims.
Which two feature are available for DR to implement a solution involving insurance agent persona?
Choose 2 answers

- A. Insurance agent permission set license
- B. Insurance Agent Portal Lightning template
- C. Financial Services Community permission set license
- D. Financial Services Lightning template

Answer: B,C

NEW QUESTION # 185

A consultant for Cloud Kicks (CK) is asked to build a site for CK customers. As part of this site, a custom object will be used to manage customer subscriptions. These subscriptions will need to leverage advanced sharing rules to ensure that only appropriate customers can see these subscriptions.

Which two user license types should be granted to customers to support this sharing requirement?

Choose 2 answers

- A. Partner Community User
- B. Customer Community Login User
- C. Customer Community Plus Login User
- D. Customer Community User

Answer: A,C

Explanation:

To support the sharing requirement of using advanced sharing rules for the custom object, CK should grant two user license types to customers: Partner Community User and Customer Community Plus Login User. These license types allow customers to access custom objects and a subset of standard CRM objects, such as accounts, contacts, cases, and dashboards. These license types also support advanced sharing features, such as role hierarchy, sharing rules, manual sharing, and Apex sharing.

NEW QUESTION # 186

Cloud Kicks (CK) is planning to launch a public site. The site will contain a variety of digital content, including static content as well as dynamic content. CK is planning to use Content Delivery Network (CDN).

Which statement is true about using CDN with Experience Cloud?

- A. CDN can help consistency attaching content timestamps as key-value pairs to both static and dynamic content.
- B. CDN can help availability by allowing remote cloning for dynamic resources.
- C. CDN can help reliability by allowing local cloning for static resources.
- D. CDN can help performance by caching public resources.

Answer: A
