

Neueste PSP Pass Guide & neue Prüfung PSP braindumps & 100% Erfolgsquote

BONUS!!! Laden Sie die vollständige Version der ITZert PSP Prüfungsfragen kostenlos herunter: https://drive.google.com/open?id=1S8jdmxB4_qFT-FGVDKc1mOo4XBnC7KN

Wir sind der Schnellste, der das ASIS PSP Zertifikat erhält; wir sind noch der höchste, der Ihre Interessen schützt. Wir sind ITZert. ITZert kann Ihnen versprechen, dass die Testaufgaben von ASIS PSP Zertifizierungsprüfung 100% richtig und ganz umfassend sind. Nachdem Sie die Testfragen zur ASIS PSP Zertifizierung gekauft haben, werden Sie kostenlos die einjährige Aktualisierung genießen.

Wir sind der Schnellste, der Prüfungsfragen und Antworten von ASIS PSP Prüfung erhält. Unser ITZert bietet Ihnen die Testfragen und Antworten von ASIS PSP Zertifizierungsprüfung, die von den IT-Experten durch Experimente und Praxis erhalten werden und über IT-Zertifizierungserfahrungen über 10 Jahre verfügt. ITZert verspricht, dass Sie das ASIS PSP Zertifikat schneller und leichter erhalten, als Sie durch die anderen Webseiten.

Neueste ASIS Physical Security Professional Exam Prüfung pdf & PSP Prüfung Torrent

Auf der Webseite ITZert können Sie sich mühelos auf die ASIS PSP Zertifizierungsprüfung vorbereiten und auch manche häufig vorkommenden Fehler vermeiden. Unsere Berufsgruppe aus gut ausgebildeten und erfahrenen IT-Eliten haben die Entwicklungen der ständig veränderten IT-Branche untersucht und erforscht, dann schließen Sie die Fragenkataloge zur ASIS PSP Zertifizierungsprüfung für ITZert zusammen. Diese ASIS PSP Fragenkataloge verfügen über hohe Genauigkeit und Autorität. ITZert wird Ihre beste Wahl sein!

ASIS Physical Security Professional Exam PSP Prüfungsfragen mit Lösungen (Q139-Q144):

139. Frage

Scenario: You are providing construction management services for a small office building project. Your duties include reviewing and approving the contractor's baseline schedule. The contractor has submitted the first baseline schedule for the project. The contractor's baseline schedule submittal includes a bar chart, but no CPM diagram. Which of the following is the most significant shortcoming to using a bar chart to review the baseline?

- A. A bar chart cannot accurately reflect the impact of changes in durations or logic to the baseline
- B. A bar chart does not show all the activities required to construct the project
- C. A bar chart does not show whether the project will be completed within the allowable time

- D. A bar chart is always an oversimplified view of the project schedule

Antwort: A

140. Frage

Security services in which the security force is hired and controlled directly by the protected organization are called:

- A. Security enforcement
- B. Pilferage
- C. Proprietary
- D. Contract security services

Antwort: C

141. Frage

Why does activity 1001 have two successor activities?

ID	Activity	Logic			Normal Schedule		Crashed Schedule	
		Succ.	Rel.	Lag	Days	Direct Costs	Days	Direct Costs
1000	General Conditions	11001	FF		1072	\$3,080,000	910	\$2,902,900
1001	Preliminary Civil Work	1000 2001 7001	SS FS FS		85	\$563,000	67	\$728,000
2001	River Diversion Stage 1	2002	FS		92	\$150,000	75	\$190,000
2002	River Diversion Stage 2	2003	FS		38	\$25,000	28	35,000
2003	River Diversion Dam	2004 3001	FS FS		15	\$18,000	11	\$20,000
2004	River Diversion to Pipeline	3001 7001	FS FS		38	\$96,000	38	\$96,000
3001	Excavation, Dam Site	4001 4001 5001 5001 7001	SS FF SS FF FS	15 15 65 65	30	\$482,000	100	\$515,000
4001	Excavation, Spillway	5001 5001 9001	SS FF FS	45 45	152	\$608,000	118	\$692,000
5001	Drill and Grout Dam Site	6001	FS		102	\$637,000	92	\$650,000
6001	Rock Fill: to elevation 25	6002	FS		140	\$1,352,000	105	\$1,470,000
6002	Rock Fill: to elevation 38	6003	FS		115	\$969,000	95	\$1,125,000
6003	Rock Fill: to elevation 50	8001 9002 9002 9003	FS SS FF FS	65 65	152	\$1,360,000	113	\$1,540,000
7001	Permanent Roads	11001 9004	FS FS		48	\$180,000	38	\$205,000
8001	Valve House Embankment	9004	FS		28	\$28,000	22	\$36,000
9001	Spillway – Concrete	11001 9002 9003	FS FS FS		175	\$1,120,000	155	\$1,305,000
9002	Dam Concrete Facing – Concrete	1001 9005	FS FS		180	\$1,260,000	160	\$1,485,000
9003	Inlet Tower – Concrete 1 of 2	9005	FS	7	70	\$275,000	65	\$295,000
9004	Valve House – Concrete	10002	FS	7	72	\$245,000	66	\$265,000
9005	Inlet Tower – Concrete 2 of 2	10001	FS	7	35	\$28,000	35	\$28,000
10001	Inlet Tower – Complete	11001	FS		25	\$147,000	25	\$147,000
10002	Valve House –	10001	FS		24	\$132,000	24	\$133,000

- A. Because there are two defined logic paths for the work
- B. Because the problem could not effectively work with only one successor
- C. Because the duration of activities 2001, 2002 and 200.f require two successors
- D. Because the late finish of 1001 and the late start of 7001 require two successors

Antwort: A

142. Frage

These are the activities on the critical path:

Refer to the following table and diagram to answer the following questions. Consider this to be the entire network. The diagram is incomplete. This table represents activities, predecessors and durations for a hazardous waste incineration facility.

Activity	Description	Predecessors	Duration (months)
A	Develop information for public hearings	-	3
B	Hold public hearings	A	3
C	Develop draft plans and specifications	A	5
D	Contact stakeholders and others	A	7
E	Obtain permits	B, C	3
F	Order equipment for facility	B	4
G	Procure and prepare land.	B	6
H	Construct facility	D, E, F & G	8
I	Approval of operating procedures	D	6
J	Install equipment, staff, faculty	F	9

- A. A, D, & I.
- B. A, C, E, & H.
- C. A, B, G, & H.
- D. A, B, F, & J

Antwort: C

Begründung:

Critical Path Identification:

* The critical path is the longest sequence of activities that determines the project's minimum duration.

* Path: A # B # G # H.

Exclusion of Other Options:

* Paths involving F, J, or non-critical activities do not align with the longest duration.

Verification with PSP Guidelines:

The PSP Study Guide emphasizes identifying the critical path for schedule optimization (Ref: PSP Study Guide, Chapter 2A: Critical Path Analysis)

143. Frage

Background

Your name is Evan Marshal. You are the corporate scheduler for Happy Insurance Corporation (HIC), a general health insurance company located in Ridgemon, Illinois. HIC is very busy with 49 unique software development projects. The organization structure at HIC gives the project scheduling responsibility to the Project Manager assigned to each project. You are charged with coordination of the project schedules into a Master Schedule and quality control for scheduling on the individual development projects. You report directly to the Director of Information Services (DIS), Desmond Rayburn.

It has come to your attention Project JP-114 has fallen behind schedule and Rita Belateau, the Project Manager, wants to accelerate the project in order to reclaim lost time. Rita is a strong supporter of Total Quality Management and strives for zero failures; therefore she is assessing the need for overtime for resources assigned to an activity that is not projecting a completion prior to the early finish depicted in the current schedule.

You and Rita review the current schedule to identify which activities are on the critical path and which activities have plenty of float. The review reveals several activities have suffered less than planned productivity and have contributed to falling behind. In the process of this review, you and Rita also review the budget for Project JP-114 and notice not only the schedule has fallen behind but the cost to date is more than she had expected. To total budget is \$150,000, planned to date is \$30,000; expended to date is \$37,000.

With nine months remaining until baseline contract completion, Rita needs to bring Project JP-114 back on track; knowing overtime for an extended period of time is not always the right answer, especially with the cost to date already over planned.

In order to truly understand the options available to help remedy the current situation, you and Rita brainstorm on several potential courses of action. All the potential courses of action will require an evaluation of budget impact versus schedule correction.

1. Pull the project team together and ensure everyone understands which activities are on the critical path.

Rita would like to use the existing project team and focus them on these critical path activities, laying out a plan for periodic overtime when needed to crunch through a deliverable. This approach could add approximately 20% to the budget.

2. Outsource various modules of activities to qualified and known consultants. This could drive up the costs and must be evaluated before implemented. Having an outside source working in parallel with the project team could also accelerate the schedule to mitigate some of the delays, as well as keep overtime down to a minimum for the project team. Potentially this could add as much as 40% to the budget, but could also be very productive schedule wise.

3. Mandatory overtime for the project team - entire project goes on a 50-hour work week. If the entire project team works overtime for an extended period of time, the budget could see an additional 60% increase.

4. The project continues as is completes the project late and accepts the penalties imposed. Penalties imposed for late delivery could add as much as 50% to the budget.

Assignment

Draft a proper memorandum to Desmond Rayburn, IS Director, explaining in your own words:

- a). the current problem and potential impact(s);
- b). each course of action, stating advantages and disadvantages as appropriate;
- c). your recommendations, properly supported.

Please be sure to include the rationale for your recommendations. Be sure to summarize your thoughts and address (To, From, Date, and Subject/Project Name) and close the memo appropriately. If you are uncomfortable with the courses of action noted, provide your own with appropriate substantiation for your position. Limit your answer to one, full typewritten page (roughly three handwritten pages).

While your email can be as detailed as you like, be sure to write sufficiently to address each element of the assignment, yet not so long that you go beyond the scope of the exercise.

Take time to read the problem and consider what you want Evan to say. Good luck!
