

# Latest HP HPE2-B08 Test Sample - HPE2-B08 Reliable Test Dumps

Remember to fill in the correct mail address in order that it is easier for us to send our HPE2-B08 study guide to you, therefore, this personal message is particularly important. We are selling virtual products, and the order of our HPE2-B08 exam materials will be immediately automatically sent to each purchaser's mailbox according to our system. In the future, if the system updates, we will still automatically send the latest version of our HPE2-B08 learning questions to the buyer's mailbox.

Generally speaking, every candidate wants to pass the exam just one time. HPE2-B08 learning materials of us can do that for you. Since we have a professional team to collect and research the latest information for the exam, and therefore the quality can be guaranteed. We offer you free demo for HPE2-B08 Exam Materials to have a try, so that you can know what the complete version is like. Besides, we also pass guarantee and money back guarantee, and if you fail to pass the exam after using HPE2-B08 exam materials of us, we will give you refund.

## Latest HPE2-B08 Test Sample - 100% Pass-Sure Questions Pool

In an increasingly competitive social life, we should keep up with the unpredictable world, regain our knowledge, and pursue decent work and a higher standard of living. If you have a HPE2-B08 certificate, you will gain more competitive advantage and differentiate yourself from other job seekers. In this respect, HPE2-B08 Study Guide is obviously your best choice. HPE2-B08 certification training's main advantage contains saving you a lot of time and improving your learning efficiency.

### HPE Private Cloud AI Solutions Sample Questions (Q34-Q39):

#### NEW QUESTION # 34

An architect is designing an AI solution for a financial services company that needs to build a chatbot. The chatbot must answer customer queries using the company's latest internal policy documents, which are updated daily. The company has a limited budget and no data scientists available for a lengthy model retraining project. Which approach should the architect recommend?

- A. Use a pre-trained model and implement a Retrieval-Augmented Generation (RAG) framework.
- B. Train a new LLM from scratch using only the company's policy documents to ensure data privacy.
- C. Fine-tune a pre-trained model daily by retraining it on the entire set of policy documents.
- D. Use a pre-trained computer vision model to extract text from the policy documents.

**Answer: A**

### NEW QUESTION # 35

An architect is working with a customer who has been identified as an 'AI Pro'. They have a mature AI practice and are looking to scale their efforts in creating 'digital twin' simulations for automotive prototypes. This involves complex, graphics-intensive AI workloads. The customer wants a full-stack, turnkey private cloud solution to accelerate this initiative. What is the most appropriate HPE solution to position for this customer?

- A. An HPE AI Services - Transformation Workshop to redefine their goals.
- **B. HPE Private Cloud AI with NVIDIA.**
- C. A set of AI-optimized HPE ProLiant DL servers for edge deployment.
- D. A custom solution built on individual HPE ProLiant servers.

**Answer: B**

### NEW QUESTION # 36

A customer at the 'Early AI User' maturity stage wants to begin using generative AI. Their primary concern is the complexity of deploying and managing the AI software stack. They are looking for a solution that accelerates their journey by providing a pre-integrated, enterprise-supported software platform for both development and deployment.

How do the software components of HPE Private Cloud AI address this customer's main challenge?

(Select all that apply.)

...

Customer Profile:

- Maturity: Early AI User
- Main Challenge: Complexity of AI software stack
- Goal: Accelerate adoption of generative AI

...

- **A. HPE AI Essentials provides a unified, self-service platform with curated open-source tools, eliminating integration complexity.**
- B. The solution requires the customer to manually integrate all software components, which promotes learning.
- **C. NVIDIA AI Enterprise provides enterprise-grade support, security, and API stability for the entire AI software stack.**
- D. The software stack is limited to only HPE-developed tools to ensure a single point of contact.
- **E. NVIDIA NIMs drastically simplify the deployment of pre-trained models into production-ready microservices.**

**Answer: A,C,E**

### NEW QUESTION # 37

A customer's distributed AI training job is experiencing poor performance. An analysis reveals high network latency. The architect suspects a misconfiguration in the NVIDIA Spectrum switches that form the RoCE-based AI fabric.

They review the following configuration snippet from one of the switch ports connected to a compute node:

...

```
interface ethernet 1/1
description "Connection to PCAI-Node-1"
speed 200G
mtu 9216
switchport mode trunk
## Priority Flow Control (PFC) is disabled on this port
...
```

What is the most likely cause of the performance issue?

- A. The MTU size is too small for AI workloads.
- B. The port is incorrectly configured in trunk mode instead of access mode.
- **C. Priority Flow Control (PFC) is disabled, which is mandatory for a lossless RoCE fabric.**
- D. The port speed is not sufficient for the connected H100 GPU.

**Answer: C**

### NEW QUESTION # 38

An architect is designing an AI solution to create a medical chatbot that assists doctors by answering questions based on the latest published medical research. The system must be highly reliable, and its answers must be traceable to the source publications. The customer has highlighted that their internal data science team lacks the expertise for complex model retraining but can manage data ingestion pipelines.

Given the customer requirements, which architectural components should the architect include in the solution design? (Select all that apply.)

Customer Requirements:

- AI Use Case: Medical Research Q&A Chatbot
- Key Constraint: Information must be current and verifiable.
- Team Skills: Limited AI model training expertise.
- Data Source: Continuously updated database of medical journals.

- A. A data ingestion and embedding pipeline to process and add new research to the vector database.
- B. A pre-trained, general-purpose Large Language Model (LLM).
- C. An edge-optimized server for model deployment in individual hospital rooms.
- D. A process for daily fine-tuning of the base LLM on all new research papers.
- E. A vector database to store embeddings of the medical research papers.
- F. A Retrieval-Augmented Generation (RAG) framework to query the vector database.

Answer: A,B,E,F

## NEW QUESTION # 39

HPE2-B08 practice materials stand the test of time and harsh market, convey their sense of proficiency with passing rate up to 98 to 100 percent. They are 100 percent guaranteed HPE2-B08 practice materials. And our content of them are based on real exam by whittling down superfluous knowledge without delinquent mistakes. Our HPE2-B08 practice materials comprise of a number of academic questions for your practice, which are interlinked and helpful for your exam. So their perfection is unquestionable.
