CompTIA DA0-002 Exam | DA0-002 Actual Questions - Free Download for your DA0-002 Real Question any time

If you want to pass your exam just one time, then our DA0-002 exam torrent will be your best choice. We can help you pass your

exam just one time, and if you fail the exam in your first attempt after using DA0-002 exam torrent, we will give you refund, and no other questions will be asked. Moreover, DA0-002 Exam Braindumps of us are high-quality, and we have helped lots of candidates pass the exam successfully. We have received many good feedbacks from our customers. We offer you online and offline chat service stuff, if you have any questions about DA0-002 exam torrent, you can consult them.

CompTIA Data+ Exam (2025) Sample Questions (Q18-Q23):

NEW QUESTION # 18

A sales manager wants to understand how sales are trending year over year. Which of the following chart types is the most appropriate to display the information?

- A. Hierarchy
- **B. Line**
- C. Bubble
- D. Donut

Answer: B

Explanation:

This question falls under the Visualization and Reporting domain, focusing on selecting the appropriate visualization for a specific data trend. The task is to show sales trends over time (year over year).

* Line (Option A): Line charts are ideal for displaying trends over time, such as year-over-year sales, as they clearly show changes and patterns across a continuous time axis.

* Donut (Option B): Donut charts show proportions or percentages of a whole, not suitable for time-based trends.

* Bubble (Option C): Bubble charts display three dimensions of data (e.g., size, x-axis, y-axis), not ideal for simple time trends.

* Hierarchy (Option D): Hierarchy charts (e.g., treemaps) show nested relationships, not time-based trends.

The DA0-002 Visualization and Reporting domain emphasizes "translating business requirements to form the appropriate visualization," and a line chart is best for time-series trends.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 4.0 Visualization and Reporting.

NEW QUESTION # 19

A data analyst creates a report, and some of the fields are empty. Which of the following conditions should the analyst add to a query to provide a list of all the records with empty fields?

- A. WHERE [ColumnName] = 'NULL'
- B. WHERE [ColumnName] = NULL
- **C. WHERE [ColumnName] IS NULL**
- D. WHERE [ColumnName] IS NOT NULL

Answer: C

Explanation:

This question falls under the Data Analysis domain, focusing on SQL queries to identify data issues. The task is to find records with empty fields, which in SQL means NULL values.

* WHERE [ColumnName] = NULL (Option A): In SQL, NULL cannot be compared using "="; this syntax is incorrect.

* WHERE [ColumnName] IS NULL (Option B): This is the correct SQL syntax to identify NULL values, which represent empty fields.

* WHERE [ColumnName] IS NOT NULL (Option C): This finds non-empty fields, the opposite of the requirement.

* WHERE [ColumnName] = 'NULL' (Option D): This checks for the string "NULL," not a true NULL value, which is incorrect.

The DA0-002 Data Analysis domain includes "applying the appropriate descriptive statistical methods using SQL queries," such as identifying NULL values with IS NULL.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 3.0 Data Analysis.

NEW QUESTION # 20

An analyst needs to create a collection of dashboards for multiple teams within their organization. Which of the following should the analyst do first before starting the project?

- A. Determine the number of team members who need to access the dashboards.
- B. Evaluate the KPIs for the dashboards.

- C. Determine the delivery method of the dashboards.
- **D. Evaluate the user persona type for the dashboards.**

Answer: D

Explanation:

This question pertains to the Visualization and Reporting domain, focusing on the initial steps in dashboard creation. The analyst is starting a project for multiple teams, so understanding the audience is critical.

- * Evaluate the user persona type for the dashboards (Option A): User personas define the needs, roles, and preferences of the audience (e.g., executives vs. analysts), which is the first step to ensure the dashboards meet user requirements.
- * Determine the number of team members who need to access the dashboards (Option B): This is important for access control but not the first step in design.
- * Determine the delivery method of the dashboards (Option C): Delivery method (e.g., self-service) is decided later, after understanding user needs.

- * Evaluate the KPIs for the dashboards (Option D): KPIs are defined after understanding the user personas and their goals.

The DA0-002 Visualization and Reporting domain emphasizes "translating business requirements to form the appropriate visualization," and evaluating user personas is the first step in this process.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 4.0 Visualization and Reporting.

NEW QUESTION # 21

A business intelligence analyst is creating an employee retention dashboard that looks at data from the last five years. The analyst is interested in identifying patterns that can be studied further. Which of the following is the best method to apply to the dashboard?

- A. Predictive
- B. Descriptive
- C. Prescriptive
- **D. Diagnostic**

Answer: D

Explanation:

This question falls under the Data Analysis domain, focusing on analytical methods for dashboards. The analyst wants to identify patterns in historical data for further study, which points to a specific type of analytics.

- * Predictive (Option A): Predictive analytics forecasts future outcomes, not focused on identifying patterns for further study.
- * Prescriptive (Option B): Prescriptive analytics provides recommendations, which goes beyond identifying patterns.
- * Diagnostic (Option C): Diagnostic analytics examines historical data to identify patterns, trends, and correlations, enabling further investigation, which fits the scenario.
- * Descriptive (Option D): Descriptive analytics summarizes what happened but doesn't focus on identifying patterns for deeper study.

The DA0-002 Data Analysis domain includes "applying the appropriate descriptive statistical methods," and diagnostic analytics is best for pattern identification in historical data.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 3.0 Data Analysis.

NEW QUESTION # 22

Which of the following best describes the function of a data type?

- A. To make the addition of individual records simpler
- B. To identify the program needed to open a file
- C. To provide a generic identifier for files used in analysis
- **D. To differentiate the real value of the field in its context**

Answer: D

Explanation:

This question falls under the Data Concepts and Environments domain, focusing on the purpose of data types in data management. Data types define how data is stored and interpreted.

- * To provide a generic identifier for files used in analysis (Option A): Data types apply to fields within datasets, not files.
- * To identify the program needed to open a file (Option B): File extensions (e.g., .csv) identify programs, not data types.
- * To differentiate the real value of the field in its context (Option C): Data types (e.g., integer, string, date) define how a field's value

is interpreted (e.g., "123" as a number vs. text), ensuring its real meaning in context, making this the correct answer.

* To make the addition of individual records simpler (Option D): Data types don't directly simplify record addition; they ensure proper data handling.

The DA0-002 Data Concepts and Environments domain includes understanding "data schemas and dimensions," and data types ensure fields are interpreted correctly in their context.

Reference: CompTIA Data+ DA0-002 Draft Exam Objectives, Domain 1.0 Data Concepts and Environments.

NEW QUESTION # 23

.....

In the face of fierce competition, you should understand the importance of time. You must walk in front of the competitors. If you have more strength, you will get more opportunities. Your dream life can really become a reality! DA0-002 learning materials are here, right to choose! And you will find that you will get benefited from DA0-002 Exam Braindumps far beyond you can image. Not only you can get more professional knowledge but also you can get the DA0-002 certification to find a better career.
