

# Latest Updated C\_BW4H\_2505 Simulations Pdf - SAP C\_BW4H\_2505 New Braindumps Book: SAP Certified Associate - Data Engineer - SAP BW/4HANA

P.S. Free & New C\_BW4H\_2505 dumps are available on Google Drive shared by Exam-Killer: <https://drive.google.com/open?id=1hdXOw425javivUHFkT9Bp09In3ERFCGu>

The version of APP and PC of our C\_BW4H\_2505 exam torrent is also popular. They can simulate real operation of test environment and users can test C\_BW4H\_2505 test prep in mock exam in limited time. They are very practical and they have online error correction and other functions. The characteristic that three versions of C\_BW4H\_2505 Exam Torrent all have is that they have no limit of the number of users, so you don't encounter failures anytime you want to learn our C\_BW4H\_2505 quiz guide. The three different versions can help customers solve any questions and meet their all needs.

## SAP C\_BW4H\_2505 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>SAP Analytics Tools and SAP Analytics Cloud: This section evaluates the skills of SAP Consultants in using tools like SAP Analytics Cloud, Lumira, and Analysis for Office to visualize and interpret data. It focuses on the consultant's ability to apply business intelligence tools within the SAP ecosystem.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Data Acquisition into SAP BW</li> <li>4HANA: This section tests how Data Engineers manage data integration into SAP BW</li> <li>4HANA from multiple sources. It covers essential knowledge of tools and processes used for data extraction, transformation, and loading into the SAP environment.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>SAP BW Query Design: This section of the exam assesses the ability of Data Engineers to create and run queries using SAP BW</li> <li>4HANA. It evaluates how well candidates can work with query components to retrieve and structure data effectively for reporting and analysis.</li> </ul>

Topic 4	<ul style="list-style-type: none"> <li>• SAP BW</li> <li>• 4HANA Project and the Modeling Process: This section of the exam assesses how Data Engineers guide and contribute to SAP BW</li> <li>• 4HANA projects. It includes knowledge of modeling workflows, project lifecycle stages, and collaboration strategies within project teams.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Data Acquisition into SAP HANA: This section evaluates the capacity of SAP Consultants to integrate various data sources into SAP HANA. It assesses their ability to understand different ingestion techniques and ensure data accessibility for processing.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• SAP BW</li> <li>• 4HANA Data Flow: This section of the exam measures the practical ability of SAP Consultants to load data within the SAP BW</li> <li>• 4HANA environment. It assesses familiarity with data movement and transformation processes across different layers of the system.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• Native SAP HANA Modeling: This section evaluates the ability of SAP Consultants to describe and apply native modeling options in SAP HANA. It emphasizes understanding how to build optimized data structures directly within the HANA platform.</li> </ul>
Topic 8	<ul style="list-style-type: none"> <li>• Fundamentals: This section of the exam measures the foundational understanding of SAP Consultants and covers essential terms and concepts related to SAP BW</li> <li>• 4HANA and SAP Business Data Cloud. It focuses on the core framework and architecture necessary to navigate and work with these platforms.</li> </ul>

## C\_BW4H\_2505 New Braindumps Book - C\_BW4H\_2505 Valid Mock Test

The warm feedbacks from our customers all over the world and the pass rate high to 99% on C\_BW4H\_2505 actual exam proved and tested our influence and charisma on this career. You will find that our they are the best choice to your time and money. Our C\_BW4H\_2505 Study Dumps have been prepared with a mind to equip the exam candidates to answer all types of C\_BW4H\_2505 real exam Q&A. For the purpose, C\_BW4H\_2505 test prep is compiled to keep relevant and the most significant information that you need.

## SAP Certified Associate - Data Engineer - SAP BW/4HANA Sample Questions (Q39-Q44):

### NEW QUESTION # 39

You are involved in an SAP BW/4HANA project focusing on General Ledger reporting want to use the SAP ERP standard DataSource OFI\_GL\_14 (New GL Items) which is not active in your SAP ERP system. Which transactions can be used to activate this DataSource? Note: There are 2 correct answers to this question.

- A. Transaction RSA2 (DataSource Repository) in the SAP ERP system
- B. Transaction RSORBCT (Data Warehousing Workbench: BI Content) in the SAP BW/4HANA system
- C. Transaction RSA5 (Installation of DataSource from Business Content) in the SAP ERP system
- D. Transaction RSDS (DataSource Repository) in the SAP BW/4HANA system

Answer: A,C

### NEW QUESTION # 40

You create a report with SAP Crystal Reports for Enterprise and need an analysis view as a data source. Which tool can you use to create this analysis view?

- A. SAP Analysis for Microsoft Office

- B. SAP Crystal Reports for Enterprise
- C. SAP BusinessObjects Web Intelligence
- D. SAP Lumira, designer edition

**Answer: A**

#### NEW QUESTION # 41

Why do you set Read Access Type to "SAP HANA View" in a BW InfoObject?

- A. To generate an SAP HANA calculation view, data category Dimension
- B. To enable parallel loading of master data texts
- C. To use the InfoObject as an association within an Open ODS view
- **D. To report master data attributes which are defined in calculation views**

**Answer: D**

#### NEW QUESTION # 42

You want to access data from a table residing in an external database using an SAP HANA SDA remote source. Which other SAP HANA element is required to access its data?

- A. Replication Task
- **B. Virtual Table**
- C. Flowgraph
- D. Table Function

**Answer: B**

#### NEW QUESTION # 43

You create a Data Store object (advanced) using the "Data Mart DataStore Object" modeling property. Which behaviors are specific to this modeling property? Note: There are 2 correct answers to this question.

- A. The change log table will be filled only after data activation.
- B. The records are treated as if all characteristics are in the key.
- **C. Query results are shown only when data has been activated.**
- **D. Reporting is done based on a union of the inbound active tables.**

**Answer: C,D**

Explanation:

When creating a Data Store object (advanced) in SAP BW/4HANA, selecting the "Data Mart DataStore Object" modeling property defines specific behaviors tailored for reporting and analytics. This type of DataStore object is optimized for use as a data mart, meaning it is designed to store aggregated or cleansed data that is ready for consumption by reporting tools.

\* Query Results Are Shown Only When Data Has Been Activated (B): In a Data Mart DataStore Object, data must be explicitly activated before it becomes available for reporting. This ensures that only consistent and validated data is exposed to end users.

During the activation process:

\* Data is moved from the inbound table to the active table.

\* Any errors or inconsistencies are resolved before the data is made available for querying.

\* Queries executed against the DataStore object will only display results from the active table, ensuring reliable and accurate reporting.

\* Reporting Is Done Based on a Union of the Inbound Active Tables (C): A Data Mart DataStore Object supports multiple inbound tables, which can be used to store data from different sources or partitions. For reporting purposes, the system performs a union of these inbound active tables to provide a consolidated view of the data. This behavior is particularly useful when integrating data from multiple sources into a single reporting layer.

Behaviors Specific to the "Data Mart DataStore Object" Modeling Property:

\* A. The Change Log Table Will Be Filled Only After Data Activation: This statement is incorrect because the change log table is not a feature of the Data Mart DataStore Object. Change logs are typically associated with Staging and Reporting DataStore Objects (Standard) or other types of DataStore objects that track detailed changes. In contrast, a Data Mart DataStore Object focuses on providing aggregated and cleansed data for reporting, without maintaining a detailed change history.

\* D. The Records Are Treated as If All Characteristics Are in the Key: This statement is also incorrect. In a Data Mart DataStore Object, records are not treated as if all characteristics are part of the key. Instead, the key structure is explicitly defined during the modeling process, and only the specified key fields are used to identify unique records. Treating all characteristics as part of the key is a behavior associated with other types of DataStore objects, such as those used for staging or operational reporting.

Incorrect Options:

SAP Data Engineer - Data Fabric Context: In the context of SAP Data Engineer - Data Fabric, understanding the behavior of different DataStore object types is essential for designing efficient and scalable data models. The Data Mart DataStore Object is specifically designed for reporting and analytics, making it a key component of the data fabric architecture. By ensuring that query results are only shown after activation and leveraging a union of inbound active tables, this modeling property supports reliable and consistent reporting across the organization.

For further details, refer to:

\* SAP BW/4HANA Data Modeling Guide: Explains the differences between DataStore object types and their specific behaviors.

\* SAP Learning Hub: Offers training on designing and implementing DataStore objects in SAP BW/4HANA.

By selecting B (Query results are shown only when data has been activated) and C (Reporting is done based on a union of the inbound active tables), you ensure that the correct behaviors specific to the "Data Mart DataStore Object" modeling property are identified.

## NEW QUESTION # 44

.....

The industry experts hired by C\_BW4H\_2505 exam materials are those who have been engaged in the research of C\_BW4H\_2505 exam for many years. They have a keen sense of smell in the direction of the exam. Therefore, they can make accurate predictions on the exam questions. Therefore, our study materials specifically introduce a mock examination function. With C\_BW4H\_2505 exam materials, you can not only feel the real exam environment, but also experience the difficulty of the exam. You can test your true level through simulated exams. At the same time, after repeated practice of C\_BW4H\_2505 study braindumps, I believe that you will feel familiar with these questions during the exam and you will feel that taking the exam is as easy as doing exercises in peace. According to our statistics on the data so far, the passing rate of the students who have purchased one exam exceeds 99%, which is enough to see that C\_BW4H\_2505 test guide is a high-quality product that can help you to realize your dream.
