Microsoft PL-900 (Microsoft Power Platform Fundamentals) Exam is a certification exam that is designed to test the fundamental knowledge and skills of individuals who are interested in working with the Microsoft Power Platform. PL-900 exam is designed for individuals who are interested in learning how to use the Microsoft Power Platform to build solutions that can help organizations automate their business processes, analyze data, and create intelligent applications.

The PL-900 exam covers four main areas of the Power Platform: Power Apps, Power BI, Power Automate, and Power Virtual Agents. Power Apps is a tool that allows users to create custom applications without any coding experience. Power BI is a business intelligence tool that enables users to analyze data and create interactive reports and dashboards. Power Automate is a workflow automation tool that helps users to automate repetitive tasks, and Power Virtual Agents allows users to create conversational chatbots.
