

# 100% Pass Quiz 1Z1-182 - Useful Review Oracle Database 23ai Administration Associate Guide

BTW, DOWNLOAD part of TestKingIT 1Z1-182 dumps from Cloud Storage: <https://drive.google.com/open?id=1a68tTNWzOU9NhJc0pzsrbZpjCidGW7S>

What are you waiting for? Unlock your potential and download TestKingIT actual 1Z1-182 questions today! Start your journey to a bright future, and join the thousands of students who have already seen success by using Oracle Dumps of TestKingIT, you too can achieve your goals and get the Oracle Database 23ai Administration Associate (1Z1-182) certification of your dreams. Take the first step towards your future now and buy 1Z1-182 exam dumps. You won't regret it!

As is known to us that pass rate is one of the most important standards when candidate choose the practice materials. The pass rate is 98.95% for 1Z1-182 training materials, and you can pass and get a certificate successfully. In addition we also pass guarantee and money back guarantee if you fail to pass the exam after using 1Z1-182 Exam Dumps. Free update for one year is also available, namely in the following year, you can get latest information about the 1Z1-182 training materials. We also have online and offline chat service to solve your confusions.

## 1Z1-182 Latest Exam Materials - 1Z1-182 Reliable Test Topics

Oracle 1Z1-182 learning materials are new but increasingly popular choices these days which incorporate the newest information

and the most professional knowledge of the practice exam. All points of questions required are compiled into our Oracle Database 23ai Administration Associate 1Z1-182 Preparation quiz by experts. By the way, the 1Z1-182 certificate is of great importance for your future and education.

## Oracle 1Z1-182 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> <li>Introduction to Performance: This section evaluates the expertise of Performance Analysts in summarizing Oracle database performance management techniques. It includes measuring database performance using SQL execution plans, directives, and advisors to ensure optimal system efficiency.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>Managing Storage: This section tests the knowledge of Storage Engineers in managing storage features such as resumable space allocation, segment space-saving, and block space management. It also includes defining segment characteristics to optimize storage utilization.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>Employ Oracle-Supplied Database Tools: This section evaluates the abilities of Database Engineers and Support Specialists in identifying and using Oracle-supplied tools for managing databases. It focuses on leveraging tools to monitor, troubleshoot, and optimize database performance effectively.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>Describe Managing Database Instances: This section tests the knowledge of Database Administrators in performing essential tasks for managing database instances. It includes starting and shutting down databases, utilizing dynamic performance views, managing initialization parameter files, and using the Automatic Diagnostic Repository (ADR) for troubleshooting.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>Automated Maintenance: This section measures the skills of Database Administrators in describing automated maintenance tasks within Oracle databases. It focuses on applying automated features to streamline routine maintenance activities.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>Managing Tablespaces and Datafiles: This section assesses the abilities of Storage Administrators in creating, modifying, and describing tablespaces. It also covers recognizing data storage requirements and understanding datafile placement for efficient storage management.</li> </ul>

## Oracle Database 23ai Administration Associate Sample Questions (Q69-Q74):

### NEW QUESTION # 69

orcl.dmp contains a full export of the ORCL database. This command is executed to load data from orcl.dmp into the TESTDB database: [oracle@host01 ~] impdp system/oracle SCHEMAS=sh,oe REMAP\_SCHEMA=sh:hr DUMPFILE=orcl.dmp EXCLUDE=index TABLE\_EXISTS\_ACTION=replace LOGFILE=impdp.log Which two statements are true?

- A. It skips all indexes of ORCL:SH and in both ORCL:SH and TESTDB:HR.
- B. It skips only indexes that exist in both ORCL:SH and TESTDB:HR.
- C. It drops and re-creates indexes that exist in both ORCL:SH and TESTDB:HR.
- D. It skips only tables that exist in ORCL:SH and ORCL:OE.
- E. It drops and re-creates tables that exist in both ORCL:SH and TESTDB:HR.

**Answer: A,E**

Explanation:

A .False. EXCLUDE=index skips all indexes, not re-creates them.  
 B .False. TABLE\_EXISTS\_ACTION=replace drops and re-creates tables.  
 C .True. EXCLUDE=index omits all indexes from import.  
 D .True. replace drops and re-creates existing tables.  
 E .False. Skips all indexes, not just overlapping ones.

### NEW QUESTION # 70

Which statement is true about the PDB\_DBA role granted to a local user during the creation of a new PDB?

- A. The role has the privileges to create and manage users within the PDB.
- B. No privileges are provided with the PDB\_DBA role.
- **C. The role has the privileges to administer the PDB.**
- D. The role has the privileges to perform DDL operations on all local schema objects.

**Answer: C**

Explanation:

A .True. PDB\_DBA grants admin rights (e.g., CREATE SESSION, ALTER SYSTEM) within the PDB.  
B .False. DDL on objects requires ownership or explicit grants.  
C .False. User management needs CREATE USER privilege, not inherent.  
D .False. It includes multiple privileges, not none.

### NEW QUESTION # 71

Which three tasks are part of the predefined Automated Maintenance Tasks?

- A. Automatic Backups of the database system files.
- B. Automatic notification tasks.
- C. Automatic error and failure log collection tasks.
- **D. Automatic segment and segment statistics advisor tasks.**
- **E. Automatic SQL Plan Management advisor tasks.**
- **F. Automatic Optimizer Statistics Collection.**

**Answer: D,E,F**

Explanation:

A .False. Backups are via RMAN, not AMTs.  
B .True. Stats collection is an AMT.  
C .False. Error logging isn't an AMT.  
D .True. SPM tasks are included.  
E .False. Notifications aren't AMTs.  
F .True. Segment Advisor is an AMT.

### NEW QUESTION # 72

Which three statements are true about Oracle Managed Files (OMF)?

- **A. If DB\_CREATE\_ONLINE\_LOG\_DEST\_1 is specified but DB\_CREATE\_FILE\_DEST is not, new data files and temp files are stored in DB\_CREATE\_ONLINE\_LOG\_DEST\_1 by default.**
- B. If only DB\_CREATE\_ONLINE\_LOG\_DEST\_1 is specified, only redo logs and control files are Oracle Managed.
- C. If DB\_RECOVERY\_FILE\_DEST is specified, at least two different locations must be specified for DB\_CREATE\_ONLINE\_LOG\_DEST\_n.
- **D. If DB\_CREATE\_FILE\_DEST is specified but DB\_CREATE\_ONLINE\_LOG\_DEST\_n is not, new redo logs and control files are stored in DB\_CREATE\_FILE\_DEST by default.**
- E. If only DB\_CREATE\_FILE\_DEST is specified, only data files and temp files are Oracle managed.
- **F. If DB\_RECOVERY\_FILE\_DEST is specified but DB\_CREATE\_ONLINE\_LOG\_DEST\_n is not, the redo logs and control files are placed in DB\_RECOVERY\_FILE\_DEST by default.**

**Answer: A,D,F**

Explanation:

A .True. Without DB\_CREATE\_ONLINE\_LOG\_DEST\_n, redo logs and control files default to DB\_RECOVERY\_FILE\_DEST.  
B .False. If only DB\_CREATE\_FILE\_DEST is set, redo logs and control files also use it unless overridden.  
C .True. DB\_CREATE\_ONLINE\_LOG\_DEST\_1 becomes the default for data files and temp files if DB\_CREATE\_FILE\_DEST is unset.  
D .True. DB\_CREATE\_FILE\_DEST serves as the default for all file types if no log-specific parameter is set.  
E .False. Data files and temp files would also use DB\_CREATE\_ONLINE\_LOG\_DEST\_1 if no other parameter is specified.  
F .False. No such requirement exists; DB\_RECOVERY\_FILE\_DEST operates independently.

### NEW QUESTION # 73

Your data center uses Oracle Managed Files (OMF) for all databases. All tablespaces are smallfile tablespaces. SALES\_Q1 is a permanent user-defined tablespace in the SALES database. The following command is about to be issued by a DBA logged in to the SALES database: ALTER TABLESPACE sales\_q1 ADD DATAFILE; Which two actions independently ensure that the command executes successfully?

- A. Ensure that DB\_CREATE\_FILE\_DEST specifies a location with at least 100 MB of available space.
- B. Specify a path in the DATAFILE clause of the command specifying a location with at least 100 MB of available space.
- C. Ensure that DB\_RECOVERY\_FILE\_DEST and DB\_CREATE\_FILE\_DEST each specify locations with at least 50 MB of available space.
- D. Add the AUTOEXTEND ON clause with NEXT set to 100M.
- E. Ensure that DB\_RECOVERY\_FILE\_DEST and DB\_CREATE\_FILE\_DEST each specify locations with at least 50 MB of available space.

**Answer: A,C**

Explanation:

With OMF enabled, Oracle automatically manages file creation. The command ALTER TABLESPACE sales\_q1 ADD DATAFILE without a file specification relies on initialization parameters:

A . Specify a path in the DATAFILE clause ... with at least 100 MB of available space. False. With OMF, explicitly specifying a path overrides OMF behavior, but it's not required for success if OMF parameters are set correctly.

B . Add the AUTOEXTEND ON clause with NEXT set to 100M. False. AUTOEXTEND is optional and affects file growth, not the initial creation success, which depends on available space in the OMF location.

C . Ensure that DB\_RECOVERY\_FILE\_DEST and DB\_CREATE\_FILE\_DEST each specify locations with at least 50 MB of available space. True. If both parameters are set, Oracle may use either for data files (depending on context), and sufficient space (e.g., 50 MB minimum for a smallfile) ensures success.

D . Ensure that DB\_CREATE\_FILE\_DEST specifies a location with at least 100 MB of available space. True. This is the primary OMF parameter for data files; sufficient space (typically 100 MB minimum for a new file) guarantees the command succeeds.

E . Ensure that DB\_RECOVERY\_FILE\_DEST and DB\_CREATE\_FILE\_DEST each specify locations with at least 50 MB of available space. False. This is redundant with C; only one needs sufficient space, though C's phrasing makes it a valid independent action.

### NEW QUESTION # 74

.....

Our 1Z1-182 exam questions provide with the software which has a variety of self-study and self-assessment functions to detect learning results. This function is conducive to pass the 1Z1-182 exam and improve you pass rate. Our software is equipped with many new functions, such as timed and simulated test functions. After you set up the simulation test timer with our 1Z1-182 Test Guide which can adjust speed and stay alert, you can devote your mind to learn the knowledge. There is no doubt that the function can help you pass the 1Z1-182 exam.
