### NEW QUESTION # 97

Drag the terms into the right places to best complete the sentence.

Solution:

Determine whether the given solution is correct? Response:

- A. Incorrect
- **B. Correct**

**Answer: B**

### NEW QUESTION # 98

You configure a service level to adjust assignment urgency to 100 when the goal interval lapses.

What does the assignment urgency impact the deadline and passed deadline intervals?

- A. Urgency value continues to increment as configured.
- **B. Urgency value remains at 100, but other service level processing continues.**
- C. Service level processing is halted until the assignment is completed.
- D. The user is notified that the maximum urgency has been reached.

**Answer: B**

Explanation:

When a service level (SLA) adjusts the assignment urgency to 100 upon the goal interval lapsing, the following impacts occur:

\* Urgency Value Adjustment:The urgency value of the assignment is set to 100, indicating high priority.

\* Continued SLA Processing:Other SLA processing, such as escalating actions and notifications, continues as configured.

\* Urgency Cap:The urgency value remains at 100, which is the maximum urgency, but this does not halt other service level processing.

Therefore, setting the urgency to 100 indicates maximum priority but allows for continued SLA actions such as further escalation and notifications.
