We constantly improve and update our MD-102 study materials and infuse new blood into them according to the development needs of the times and the change of the trend in the industry. We try our best to teach the learners all of the related knowledge about the test MD-102 Certification in the most simple, efficient and intuitive way. We pay our experts high remuneration to let them play their biggest roles in producing our MD-102 study materials.

### Microsoft Endpoint Administrator Sample Questions (Q343-Q348):

#### NEW QUESTION # 343

You have the device configuration profile shown in the following exhibit.

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic. NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

#### NEW QUESTION # 344

You have a Microsoft 365 E5 subscription. The subscription contains 25 computers that run Windows 11 and are enrolled in Microsoft Intune. You need to onboard the devices to Microsoft Defender for Endpoint. What should you create in the Microsoft Intune admin center?

- A. an endpoint detection and response (EDR) policy
- B. an attack surface reduction (ASR) policy
- C. a security baseline
- D. an antivirus policy
- E. an account protection policy

**Answer: A**

Explanation:

To onboard the devices to Microsoft Defender for Endpoint, you need to create an endpoint detection and response (EDR) policy in the Microsoft Intune admin center. This policy enables EDR capabilities on devices that are enrolled in Intune and allows you to configure various settings for EDR functionality. You can then assign the policy to groups of users or devices. References:

<https://docs.microsoft.com/en-us/mem/intune/protect/edr-windows>

#### NEW QUESTION # 345

Your network contains an on-premises Active Directory Domain Services (AD DS) domain that syncs with an Azure AD tenant.

You have a Microsoft 365 subscription

You plan to use Windows Autopilot to deploy new Windows devices.

You plan to create a deployment profile.

You need to ensure that The deployment meets the following requirements:

- \* Devices must be joined to AD DS regardless of their current working location.
- \* Users in the marketing department must have a line-of-business (LOB) app installed during the deployment.

The solution must minimize administrative effort.

What should you do for each requirement? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

### NEW QUESTION # 346

You have two computers that run Windows 10. The computers are enrolled in Microsoft Intune as shown in the following table.

Windows 10 update rings are defined in Intune as shown in the following table.

You assign the update rings as shown in the following table.

What is the effect of the configurations on Computer1 and Computer2? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

### NEW QUESTION # 347

You have a Microsoft 365 E5 subscription that contains 100 Windows 10 devices enrolled in Microsoft Intune.

You need to create Endpoint security policies to meet the following requirements:

Hide the Firewall & network protection area in the Windows Security app.

Disable the provisioning of Windows Hello for Business on the devices.

Which two policy types should you use? To answer, select the policies in the answer area.

NOTE: Each correct selection is worth one point.

**Answer:**

Explanation:

Explanation:

In the Antivirus policy settings, you can hide the Firewall and network protection area in the Windows Security app.

Windows Hello for Business settings are configured in Identity protection.
