Test NIOS-DDI-Expert Question, Exam Dumps NIOS-DDI-Expert Provider

Prep4cram website is fully equipped with resources and the questions of Infoblox NIOS-DDI-Expert exam, it also includes the Infoblox NIOS-DDI-Expert exam practice test. Which can help candidates prepare for the exam and pass the exam. You can download the part of the trial exam questions and answers as a try. Prep4cram provide true and comprehensive exam questions and answers. With our exclusive online Infoblox NIOS-DDI-Expert Exam Training materials, you'll easily through Infoblox NIOS-DDI-Expert exam. Our site ensure 100% pass rate.

Infoblox Qualified NIOS DDI Expert - INE Sample Questions (Q59-Q64):

NEW QUESTION # 59
Which of the following statements about restarting Grid services are true? (Select all that apply.)

- A. You can force service restart on a member
- B. You can poll members to see which services will be restarted
- C. You can schedule service restarts
- D. By default, the Grid restarts services every day

Answer: A,C

Explanation:
Comprehensive and Detailed In-Depth Explanation:Restarting services (e.g., DNS, DHCP) on NIOS Grid members is a common administrative task, often required after configuration changes. Let's break down each option with detailed reasoning:
* A:"Poll members to see which services will be restarted" suggests proactively querying members for restart eligibility. NIOS doesn't offer a specific polling feature for this-administrators check service status (e.g., via Grid Manager > Members > Services) or logs, but there's no pre-restart polling tool.
Incorrect.
* B:In Grid Manager (Grid > Grid Manager > Members), you can select a member and click "Restart Services" with a "Force Restart" option, overriding any checks for necessity. This is useful in troubleshooting (e.g., clearing a hung DNS service). Correct.
* C:NIOS allows scheduling service restarts via the "Schedule Restart" option in Grid Manager, letting you specify a time to minimize disruption (e.g., off-hours). This aligns with Grid management best practices taught in INE. Correct.
* D:There's no default daily restart policy in NIOS. Restarts occur only when triggered by an admin or system event (e.g., upgrade). This would disrupt service unnecessarily if true. Incorrect.
* Practical Example:During an INE lab, you might force a restart on a member to resolve a DHCP failover issue or schedule a restart after updating a DNS zone to ensure propagation, reflecting real- world Grid troubleshooting.References:Infoblox NIOS Administrator Guide - Managing Grid Services; INE Course Content: NIOS DDI Grid Troubleshooting.

NEW QUESTION # 60
What can an administrator do with an Option Filter in NIOS?

- A. Match only on device types
- B. Match on any DHCP options provided by the server
- C. Match on any DHCP options provided by the client
- D. Match only vendor-specific options such as Option 60

Answer: C

Explanation:
Comprehensive and Detailed In-Depth Explanation:In NIOS, DHCP Option Filters allow administrators to define rules for matching DHCP client requests based on the options they send in their DHCP packets. These filters are highly flexible and can matchany DHCP option provided by the client, such as Option 55 (Parameter Request List), Option 60 (Vendor Class Identifier), or custom options. This enables precise DHCP policy enforcement, like assigning specific IP ranges or options to certain devices. Option B is incorrect because filters apply to client requests, not server responses. Option C is too narrow-while Option 60 is common, filters aren't limited to vendor-specific options. Option D is vague and incorrect; device type matching is a subset of option matching. The INE course covers DHCP troubleshooting, including filter configuration.References:Infoblox NIOS Administrator Guide - DHCP Option Filters; INE Course Content:
NIOS DDI DHCP Troubleshooting.

NEW QUESTION # 61
From the CLI, the administrator must show the status of the DNS processes every 10 seconds for 1 minute.
Which command should the administrator use?

- A. show process screen refresh 10 dns, then press enter after 6 refreshes to exit
- B. show process screen refresh 10 run for 60 dns
- C. show process refresh 10 dns, then press enter after 60 seconds to exit
- D. show process refresh 10 run for 60 dns

Answer: C

Explanation:
Comprehensive and Detailed In-Depth Explanation:Monitoring DNS processes via NIOS CLI requires the show process command:
* Goal:Display DNS status every 10 seconds for 60 seconds (6 refreshes).
* Actual Command:NIOS CLI doesn't have a single command with "refresh" and "run for" syntax as listed. Closest is:
* show process dns (displays DNS service status).
* No native auto-refresh exists-admins use external tools (e.g., watch -n 10 "show process dns") or repeat manually.
* Options:
* A:"refresh 10 run for 60" isn't valid syntax. Incorrect.
* B:"refresh 10" isn't supported, but manually running show process dns and repeating (e.g., via script or Enter) is closest. Incorrect syntax but feasible intent.
* C/D:"screen refresh" isn't NIOS CLI-sounds like UNIX screen. Incorrect.
* Workaround:SSH with while true; do show process dns; sleep 10; done and Ctrl+C after 60s.
* Practical Example:In an INE lab, you'd script this to monitor DNS during a failover, troubleshooting service uptime.
References:Infoblox NIOS CLI Reference Guide - Show Commands; INE Course Content: NIOS DDI DNS Troubleshooting.

NEW QUESTION # 62
When scheduling a Member upgrade, what can an administrator select for the upgrade start time?

- A. After Default
- B. Date/Time
- C. Before Grid Master
- D. After Grid Master

Answer: B

Explanation:
Comprehensive and Detailed In-Depth Explanation:Scheduling upgrades in NIOS (Grid > Upgrade > Schedule):
* A:Admins set a specificDate/Time(e.g., "2025-03-14 01:00") for each member or group, controlling exact start times. Correct.
* B/C:"Before/After Grid Master" isn't a UI option-sequence is managed via Upgrade Groups, not time settings. Incorrect.
* D:"After Default" isn't a term in NIOS scheduling. Incorrect.
* Practical Example:In an INE lab, you'd schedule a member upgrade for 2 AM, test staggered rollout, and troubleshoot timing issues.References:Infoblox NIOS Administrator Guide - Upgrade Scheduling; INE Course Content: NIOS DDI Grid Deployment.

NEW QUESTION # 63
How are Workflow Approval notifications delivered in NIOS?

- A. Via SMS
- B. Via in-app notifications
- C. Via push notifications
- D. Via email

Answer: D

Explanation:
Comprehensive and Detailed In-Depth Explanation:Workflow Approval in NIOS enforces change control with notifications:
* Mechanism:When a requester submits a change (e.g., new DNS record), approvers are notified via email, configured in Grid Properties (Grid > Grid Manager > Grid Properties > Email).
* Details:SMTP server settings (e.g., IP, port, credentials) must be defined for delivery. No other methods are natively supported.
* Options:
* A:SMS isn't supported-requires external integration. Incorrect.
* B:Push notifications aren't part of NIOS GUI or mobile app (none exists). Incorrect.
* C:Email is the documented, sole method. Correct.
* D:In-app notifications don't exist-Grid Manager relies on email. Incorrect.
* Practical Example:In an INE lab, you'd configure an SMTP server, request a zone change, and troubleshoot email delivery failures for approval, testing Grid management.References:Infoblox NIOS Administrator Guide - Workflow Approval Notifications; INE Course Objective: NIOS DDI Grid Deployment.

NEW QUESTION # 64
.....

Choose NIOS-DDI-Expert premium files, you will pass for sure. Each questions & answers of NIOS-DDI-Expert free training pdf are edited and summarized by our specialist with utmost care and professionalism. The Infoblox NIOS-DDI-Expert latest online test is valid and really trustworthy for you to rely on. The highly relevant content & best valid and useful NIOS-DDI-Expert Exam Torrent will give you more confidence and help you pass easily.

Test NIOS-DDI-Expert Question: https://www.prep4cram.com/NIOS-DDI-Expert_exam-questions.html

Our NIOS-DDI-Expert study materials are willing to stand by your side and provide attentive service, and to meet the majority of customers, we sincerely recommend our NIOS-DDI-Expert study materials to all customers, for our rich experience and excellent service are more than you can imagine, Our NIOS-DDI-Expert practice materials also have a statistical analysis function to help you find out the deficiency in the learning process of NIOS-DDI-Expert practice materials, so that you can strengthen the training for weak links, So you can quickly record the important points or confusion of the NIOS-DDI-Expert exam guides.
