EXIN CDCS Latest Examprep & CDCS Exam Course

Before you decide to get the CDCS exam certification, you may be attracted by the benefits of CDCS credentials. Get certified by CDCS certification means you have strong professional ability to deal with troubleshooting in the application. Besides, you will get promotion in your job career and obtain a higher salary. If you want to pass your EXIN CDCS Actual Test at first attempt, CDCS pdf torrent is your best choice. The high pass rate of CDCS vce dumps can give you surprise.

Achieving the EXIN CDCS test certification can open up unlimited possibilities for your future career, if you are truly dedicated to jump out your career and willing to make additional learning and extra income. ActualTestsIT CDCS exam dumps can help you to overcome the difficulty—from understanding the necessary and basic knowledge to passing the EPI Data Centre EXIN EPI Certified Data Centre Specialist exam test. The goal of EXIN CDCS is to help our customers optimize their IT technology by providing convenient, high quality EPI Data Centre exam prep training that they can rely on. EXIN CDCS sure pass exam dumps empower the candidates to master their desired technologies for their own EPI Data Centre exam test.Dear every one, passing the EXIN CDCS actual test is an easy case for you.

Professional EXIN - CDCS Latest Examprep

Achieving the EXIN CDCS test certification can open up unlimited possibilities for your future career, if you are truly dedicated to jump out your career and willing to make additional learning and extra income. ActualTestsIT CDCS exam dumps can help you to overcome the difficulty—from understanding the necessary and basic knowledge to passing the EPI Data Centre EXIN EPI Certified Data Centre Specialist exam test. The goal of EXIN CDCS is to help our customers optimize their IT technology by providing convenient, high quality EPI Data Centre exam prep training that they can rely on. EXIN CDCS sure pass exam dumps empower the candidates to master their desired technologies for their own EPI Data Centre exam test.Dear every one, passing the EXIN CDCS actual test is an easy case for you.

EXIN EPI Certified Data Centre Specialist Sample Questions (Q52-Q57):

NEW QUESTION # 52
A data center requires an audit to find out whether it conforms with ANSI/TIA-942 Rated-3 (concurrently maintainable).
Will the network architecture be part of this audit?

- A. No, only the type of cabling used will be audited.
- B. Yes, but only if the network administration does not comply with ANSI/TIA-606.
- C. Yes, amongst other aspects, the network architecture should be Rated-3 compliant with the requirements of ANSI/TIA-942.
- D. No, as concurrently maintainable only applies to electrical and mechanical (power and cooling).

Answer: C

Explanation:

For a Rated-3 data center, network architecture is indeed a key component of the audit under ANSI/TIA-942.
This rating requires concurrent maintainability across all systems, including telecommunications infrastructure. The network architecture must therefore meet specific redundancy and reliability standards to ensure uninterrupted operations during maintenance or failure of any single component.
Detailed Explanation:
Rated-3 requirements extend beyond electrical and mechanical systems to include network architecture. This ensures that telecommunications systems are also designed for concurrent maintainability, thus contributing to overall uptime and resilience.
EPI Data Center Specialist References:
EPI endorses comprehensive assessments for Rated-3 facilities, emphasizing that network systems must meet standards for redundancy and concurrent maintainability, which align with ANSI/TIA-942's holistic approach to data center reliability.

NEW QUESTION # 53
Should aerosol cleaning solutions be used in the computer room?

- A. Yes, if not connected to power
- B. No, unless leak detection installed
- C. No, it will contaminate the room
- D. Yes, only if room smells bad

Answer: C

Explanation:

Aerosol sprays release particulates and residues into the environment, which can contaminate sensitive ICT equipment. Such contamination accelerates corrosion, interferes with airflow, and increases particulate levels beyond ASHRAE recommended limits.
Proper cleaning should use HEPA-filtered vacuum systems or dry wipes, not aerosols. Even odor control aerosols are disallowed in critical rooms.
Therefore, aerosol cleaning solutions must never be used.
References: ASHRAE TC 9.9 "Contamination Guidelines," NFPA 75 §8.4.

NEW QUESTION # 54
You are allowed to use a calculator for this question.
A computer room has a net volume of approximately 2,500 m³ / 88,287 ft³.
The temperature is 20 °C / 68 °F.
The required design concentration is 7%.
The S-Factor is 0.1359 (metric) / 1.885 (imperial).
Calculate the amount of gas required for this computer room based on FM200. What is the correct weight?

- A. Approximately 1,640 kg / 3,600 lbs
- B. Approximately 820 kg / 1,800 lbs
- C. Approximately 410 kg / 900 lbs
- D. Approximately 1,390 kg / 3,000 lbs

Answer: B

Explanation:

The amount of FM200 gas required can be calculated using the formula:
Weight of Gas=Net Volume×Design Concentration×S-Factor\text{Weight of Gas} = \text{Net Volume} \times \text{Design Concentration} \times \text{S-Factor}
Weight of Gas=Net Volume×Design Concentration×S-Factor
Using metric units:

* Net Volume: 2,500 m³
* Design Concentration: 7% (or 0.07)
* S-Factor: 0.1359
Calculation:
2,500 m3×0.07×0.1359=821.325 kg2,500 \, \text{m}
