DumpsReview is the right method which can help you sail through ServiceNow CIS-SPM Certification Exam.

ServiceNow Certified Implementation Specialist - Strategic Portfolio Management Sample Questions (Q35-Q40):

NEW QUESTION # 35

If a lens has four entities, which entity within the lens structure would not have a parent reference?

- A. Top-level entity
- B. Bottom entity
- C. Second-level entity
- D. Third-level entity

Answer: A

Explanation:

Explanation

According to the ServiceNow documentation¹, a lens is a hierarchical structure that consists of entities and relationships. An entity is a data object that represents a business concept, such as a project, a demand, or a resource. A relationship is a link between two entities that defines how they are connected. A lens can have up to four levels of entities, each with a parent reference to the entity above it, except for the top-level entity, which has no parent reference. The top-level entity is the root of the lens and defines its scope and type. For example, a project lens has a project as the top-level entity, and a demand lens has a demand as the top-level entity.

NEW QUESTION # 36

What is the first step in the process when configuring Portfolio Planning to work with ServiceNow Project Portfolio Management?

- A. Create personalized portfolio plans.
- B. Create an alignment integration.
- C. Generate default mapping configurations.
- D. Create custom mapping configurations.

Answer: C

Explanation:

Explanation

According to the Portfolio Planning document, the first step in the process when configuring Portfolio Planning to work with ServiceNow Project Portfolio Management is to generate default mapping configurations. This step creates the default mappings between the Portfolio Planning fields and the ServiceNow Project Portfolio Management fields. The other options are not correct, as they are not the first step in the process. Creating an alignment integration is the second step, creating custom mapping configurations is the third step, and creating personalized portfolio plans is the fourth step.

NEW QUESTION # 37

In the default system, when working with demands, what two assessment metrics are supported when taking an assessment survey? Choose 2 answers

- A. Risk
- B. Cost
- C. Strategic Alignment
- D. Size

Answer: A,C

NEW QUESTION # 38

What is a data copy of the current project's task, schedule, or structure that can be used for comparison reporting later?

- A. Baseline
- B. Accrual
- C. Forecast
- D. Commitment

Answer: A

Explanation:

A baseline is a data copy of the current project's task, schedule, or structure that can be used for comparison reporting later. A baseline captures the original plan of the project and allows you to track the changes and deviations from the plan over time. You can create multiple baselines for a project and compare them with the current state of the project. You can find more information about baselines in the Product Documentation for ServiceNow.

NEW QUESTION # 39

Which property controls the changes in cost and resource plans with respect to the change in the start date of a demand or project?

- A. 'Calculate ROI percentage based on a project's estimated cost and its net value'.
- B. 'Enable altering of planned date for task in WIP/Closed'.
- C. 'Rollup project start date from tasks'.
- D. 'Change Resource Plan, Cost Plan and Benefit Plan Start Date with Demand or Project Start Date Change'.

Answer: D

Explanation:

According to the ServiceNow documentation¹, this property controls whether the start dates of the resource plan, cost plan, and benefit plan are automatically updated when the start date of the demand or project is changed. If this property is set to true, then the plans will be shifted by the same number of days as the demand or project start date change. If this property is set to false, then the plans will not be affected by the demand or project start date change.
