## 1Z0-1057-25

Classification set to that caused this behavior? (Choose the best answer.)

- Option A : Amount Based
- Option B : Rate Based
- Option C : As Incurred
- Option D : Percent Complete

Correct Answer: A

### Explanation/Reference:

Reference [https://docs.oracle.com/cd/E51367\\_01/projectop\\_gsOAP/B11087450AN139C2.htm](https://docs.oracle.com/cd/E51367_01/projectop_gsOAP/B11087450AN139C2.htm)  
Topic - Invoice and Revenue Rates: How They Are Determined  
Oracle Fusion Project Billing uses bill rates, burdening, and transfer price schedules to derive standard bill rates, multipliers, markups, and bases for calculating potential revenue when the revenue method classification on a revenue plan is as billed, as incurred, or rate based. Similarly, bill rates derive invoice amounts when the invoice method classification on a bill plan is rate based.

### QUESTION: 3

What is the precedence order in which cost rates are determined for a planning resource when deriving raw costs for rate-based planning resources?

- Option A : Resource class rate schedule > Override rate > Job rate schedule > Person rate schedule
- Option B : Override rate > Job rate schedule > Resource class rate schedule > Person rate schedule
- Option C : Person rate schedule > Job rate schedule > Resource class rate schedule > Override rate
- Option D : Override rate > Person rate schedule > Job rate schedule > Resource class rate schedule
- Option E : Job rate schedule > Resource class rate schedule > Override rate > Person rate schedule

Correct Answer: D

### QUESTION: 4

You have four resources in your organization: P, Q, R, and S. Resource P - Project or resource calendar is active. Resource Q - Project resource request dates are within the project or resource calendar effective dates. Resource R - Resource calendar is complex, it does not contain seven days, and it contains more than one pattern and shift. Resource S - Number of working days within the requested date range is not zero on the project or resource calendar. Identify the resource for whom Resource Availability Capacity Score will not be calculated. (Choose the best answer.)

- Option A : P
- Option B : Q
- Option C : R
- Option D : S

When you first contact our software, different people will have different problems. Maybe you are not comfortable with our 1z0-1057-25 exam question and want to know more about our products and operations. As long as you have questions, you can send e-mail to us, we have online staff responsible for ensuring 24-hour service to help you solve all the problems about our 1z0-1057-25 Test Prep. After you purchase our 1z0-1057-25 quiz guide, we will still provide you with considerate services. Maybe you will ask whether we will charge additional service fees.

### Oracle Project Management Cloud 2025 Implementation Professional Sample Questions (Q80-Q85):

#### NEW QUESTION # 80

Your organization has a requirement to send notifications to the owners of the associated tasks when the status of a deliverable is set to Complete. You have been asked to evaluate generate public events for project deliverable status changes feature to manage this requirement.

Which two statements are true about this feature? (Choose two.)

- A. The public event is not generated when the priority of a deliverable changes.
- **B. The public event is not generated when a deliverable is created or deleted.**
- **C. The public event is generated when the progress status for a deliverable changes.**
- D. The public event is generated when a deliverable is created or deleted.

**Answer: B,C**

Explanation:

The generate public events for project deliverable status changes feature is a feature that allows you to send notifications or trigger actions when the progress status of a deliverable changes from one value to another.

For example, when the status of a deliverable is set to Complete, you can send a notification to the owners of the associated tasks or update the status of the tasks accordingly. Two statements that are true about this feature are:

- \* The public event is not generated when a deliverable is created or deleted. This feature only generates events when the progress status of a deliverable changes, not when a deliverable is added or removed from a project or task.
- \* The public event is generated when the progress status for a deliverable changes. This feature generates events when the progress status of a deliverable changes from one value to another, such as from Not Started to In Progress, or from In Progress to Complete. You can define rules and actions for each progress status change using Business Process Management (BPM) Worklist. The public event is also not generated when the priority of a deliverable changes, as this feature only generates events when the progress status of a deliverable changes. #### NEW QUESTION # 81

Your organization has a requirement to create and apply a new theme for the application user interface.

Which option allows you to achieve this requirement?

- A. User Interface Text
- B. Structure Page
- C. Setup and Maintenance Work Area
- **D. Appearance Page**

**Answer: D**

Explanation:

The option that allows you to achieve this requirement is Appearance Page. This page allows you to create and apply a new theme for the application user interface by selecting various options such as colors, fonts, logos, etc. You can also preview and publish your theme changes using this page. Structure Page is not an option that allows you to achieve this requirement. This page allows you to

customize the structure and layout of the application user interface by adding or removing components such as regions, tabs, fields, etc. Setup and Maintenance Work Area is not an option that allows you to achieve this requirement. This work area allows you to perform various setup tasks for implementing and configuring Oracle Fusion applications using predefined templates and spreadsheets. User Interface Text is not an option that allows you to achieve this requirement. This option allows you to customize the text and labels of the application user interface by editing or translating them using various tools such as Text Editor or Translation Workbench. Reference:

#### NEW QUESTION # 82

You recently made some changes to a project contract and the current status of the contract is Under Amendment. Identify the correct sequence of activities that can take place on that contract. (Choose the best answer.)

- A. Pending Acceptance > Pending Approval > Active
- **B. Pending Approval > Pending Acceptance > Active**
- C. On Hold > Pending Approval > Active
- D. On Hold > Pending Acceptance > Active

**Answer: B**

Explanation:

Reference <https://docs.oracle.com/cloud/latest/common/FASCC/FASCC1124283.htm> Topic - Contract Actions and Status Changes: Explained

#### NEW QUESTION # 83

When implementing Project Performance Reporting, your customer has the following requirements:

\* Every time a project cost is greater than or equal to a threshold, then the project should be shown as critical.

\* As long as a project cost is less than the threshold, the project should be shown as on-track.

Which threshold level rule is ideal for this kind of KPI definition? (Choose the best answer.)

- A. multiple threshold levels
- **B. single threshold level value**
- C. single threshold level range
- D. multiple threshold level value

**Answer: B**

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapjs/update-project-performance-data-and-generate-kpis.html#OAPJS16654> Performance Status Indicator Performance status indicators give an immediate picture of the status of a project, such as critical, at risk, and on track. Each distinct icon indicates the status and severity of performance. During KPI definition, you first associate status indicators with performance statuses:

- \* Critical
- \* Severe
- \* At risk
- \* On track
- \* Ahead

You then associate these statuses with threshold levels. When KPI values are generated for a project, each value is compared to the defined thresholds and the corresponding status indicator for the KPI appears on project performance reports.

A status can identify negative performance so that you can take the appropriate actions to prevent or quickly resolve problems.

Conversely, a status can identify positive performance to help you track expected or excellent performance.

<https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/fapfin/implementing-project-financial-management-applications.html#FAPFM975706> Create Key Performance Indicators Create key performance indicators (KPI) to measure how well your organization performs an operational, tactical, or strategic activity that is critical for the current and future success of the organization.

Note: To create KPIs you must enable a project unit to track key performance indicators.

Use the Threshold Levels section to specify thresholds to indicate the health status of a KPI. Select one of the following options:

- \* Multiple threshold levels
- \* **Single threshold level value**

\* Single threshold level range

#### NEW QUESTION # 84

Which three file-based data imports are available for use in Oracle Project Portfolio Management Cloud?

- A. Project Templates
- B. Capital Rate Schedule
- C. Project Billing Events
- D. Project Budgets
- E. Project Tasks

**Answer: C,D,E**

Explanation:

Ref: <https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oeffp/toc.htm>

#### NEW QUESTION # 85

.....

They are committed to assisting you in Oracle 1z0-1057-25 exam preparation and boosting the 1z0-1057-25 exam candidate's confidence to pass it.
