Detailed CompTIA DA0-001 Answers & Exam DA0-001 Vce

Only if you download our software and practice no more than 30 hours will you attend your test confidently. Because our DA0-001 exam torrent can simulate limited-timed examination and online error correcting, it just takes less time and energy for you to prepare the DA0-001 exam than other study materials. It is very economical that you just spend 20 or 30 hours then you have the DA0-001 certificate in your hand, which is typically beneficial for your career in the future. Therefore, purchasing the DA0-001 guide torrent is

the best and wisest choice for you to prepare your test.

CompTIA Data+ Certification Exam Sample Questions (Q189-Q194):

NEW QUESTION # 189

A data analyst received a large amount of third-party data that needs to be joined with in-house data files. After the data is joined, the analyst notices three columns all contain dates. Which of the following should the analyst do to maintain data consistency?

- A. Separate the columns into a table and merge.
- B. Append all date columns and parse the strings.
- C. Merge all date columns and unify the format.
- D. Impute all three date columns and then merge.

Answer: C

NEW QUESTION # 190

Refer to the exhibit.

Given the following data:

□ Which of the following BEST describes the data set?

- A. There is data bias.
- B. The data is inconsistent.
- C. The data is incomplete.
- D. The data is outliers.

Answer: B

Explanation:

This is because inconsistency is a type of data quality issue that occurs when the data does not follow a common format, structure, or rule across different sources or systems, which can affect the efficiency and performance of the analysis or process. Inconsistency can be caused by having different spellings, punctuations, capitalizations, or abbreviations for the same or similar values in a data set, such as "M", "m", "Male", or "male" for gender in this case. Inconsistency can be eliminated or reduced by using data cleansing techniques, such as standardizing or normalizing the data values. The other options are not correct descriptions of the data set. Here is why:

Data bias is a type of data quality issue that occurs when the data is not representative or proportional of the population or the parameter, which can affect the validity and reliability of the analysis or process. Data bias can be caused by having a sample that is too small, too large, or too skewed for the population or the parameter, such as having only male customers for a product that targets both genders in this case. Data bias can be eliminated or reduced by using sampling techniques, such as stratified or cluster sampling.

The data is incomplete is a type of data quality issue that occurs when the data is absent or missing in a data set, which can affect the accuracy and reliability of the analysis or process. The data is incomplete can be caused by various factors, such as human error, system error, or non-response. The data is incomplete can be addressed by using various methods, such as replacing or imputing the missing values with some reasonable estimates, such as mean, median, mode, or regression.

The data is outliers is a type of data quality issue that occurs when the data has values that are unusually high or low compared to the rest of the data set, which can affect the quality and validity of the analysis or process. The data is outliers can be caused by various factors, such as measurement error, natural variation, or extreme events. The data is outliers can be addressed by using various methods, such as removing or filtering out the outliers, or using robust statistics that are less sensitive to outliers, such as median, interquartile range, or box plot.

NEW QUESTION # 191

A development company is constructing a new unit in its apartment complex. The complex has the following floor plans:

□ Using the average cost per square foot of the original floor plans, which of the following should be the price of the Rose unit?

- A. \$690,000
- B. \$705,200
- C. \$640,900
- D. \$702,500

Answer: B

Explanation:

This is because the price of the Rose unit can be estimated using the average cost per square foot of the original floor plans, which are Jasmine, Orchid, Azalea, and Tulip. To find the average cost per square foot of the original floor plans, we can use the following formula:

□ Plugging in the values from the original floor plans, we get:

□ To find the price of the Rose unit, we can use the following formula:

□ Plugging in the values from the Rose unit, we get:

□ Therefore, the price of the Rose unit should be \$705,200, using the average cost per square foot of the original floor plans.

NEW QUESTION # 192

A sales analyst needs to report how the sales team is performing to target. Which of the following files will be important in determining 2019 performance attainment?

- A. 2019 goal data
- B. 2018 actual revenue
- C. 2019 commission plan
- D. 2018 goal data

Answer: A

Explanation:

2019 goal data

To report how the sales team is performing to target, the sales analyst needs to compare the actual sales revenue with the expected or planned sales revenue for the same period. The 2019 goal data is the file that contains the expected or planned sales revenue for the year 2019, which is the target that the sales team is aiming to achieve. By comparing the 2019 goal data with the 2019 actual revenue, the sales analyst can calculate the performance attainment, which is the percentage of the goal that was met by the sales team.

Option A is incorrect, as 2018 goal data is not relevant for determining 2019 performance attainment. The 2018 goal data contains the expected or planned sales revenue for the year 2018, which is not the target that the sales team is aiming to achieve in 2019.

Option B is incorrect, as 2018 actual revenue is not relevant for determining 2019 performance attainment.

The 2018 actual revenue contains the actual sales revenue for the year 2018, which is not comparable with the 2019 goal data or the 2019 actual revenue.

Option D is incorrect, as 2019 commission plan is not relevant for determining 2019 performance attainment.

The 2019 commission plan contains the rules and rates for calculating and paying commissions to the sales team based on their performance attainment, but it does not contain the expected or planned sales revenue for the year 2019.

NEW QUESTION # 193

Refer to the exhibit.

Given the following:

□ Which of the following is the most important thing for an analyst to do when transforming the table for a trend analysis?

- A. Fill in the missing cost where it is null.
- B. Separate the table into two tables and create a primary key
- C. Replace the extended cost field with a calculated field.
- D. Correct the dates so they have the same format.

Answer: D

Explanation:

Correcting the dates so they have the same format is the most important thing for an analyst to do when transforming the table for a trend analysis. Trend analysis is a method of analyzing data over time to identify patterns, changes, or relationships. To perform a trend analysis, the data needs to have a consistent and comparable format, especially for the date or time variables.

In the example, the date purchased column has two different formats: YYYY-MM-DD and MM/DD/YYYY. This could cause errors or confusion when sorting, filtering, or plotting the data over time. Therefore, the analyst should correct the dates so they have the same format, such as YYYY-MM-DD, which is a standard and unambiguous format.

NEW QUESTION # 194

.....

The remarkably distinguished results DA0-001 are enough to provide a reason for BraindumpStudy's huge clientele and obviously the best proof of its outstanding products. This is the reason that professionals find our DA0-001 exam questions and answers products worthier than exam collection's or BraindumpStudy's dumps. Above all, it is the assurance of passing the exam with BraindumpStudy 100% money back guarantee that really distinguishes our Top DA0-001 Dumps.

Detailed DA0-001 Answers: https://www.braindumpstudy.com/DA0-001_braindumps.html

CompTIA Certification DA0-001 Dump We offer you worry-free purchasing, We have over 60,000 satisfied customers that have been using our CompTIA Data+ DA0-001 braindumps, We revise and update the DA0-001 test torrent according to the changes of the syllabus and the latest developments in theory and practice, Then our DA0-001 study materials can give you some help.

What is more, the free demo only includes part of the contents, DA0-001 It emphasises the process of crafting programmes, problem solving and avoiding common programming pitfalls.
