## 100% Pass 2026 Palo Alto Networks CloudSec-Pro –High Pass-Rate Real Exam Questions

The clients only need 20-30 hours to learn the CloudSec-Pro exam questions and prepare for the test. Many people may complain that we have to prepare for the test but on the other side they have to spend most of their time on their most important things such as their jobs, learning and families. But if you buy our CloudSec-Pro Study Guide you can both do your most important thing well and pass the CloudSec-Pro test easily because the preparation for the test costs you little time and energy.

### Palo Alto Networks CloudSec-Pro Exam Syllabus Topics:

Topic	Details
-------	---------

Topic 1	<ul style="list-style-type: none"> <li>• <b>Cloud Posture Security:</b> This domain examines the tools and practices used to assess and manage cloud security posture, spanning CSPM, KSPM, AI-SPM, and DSPM. It also covers agentless scanning, identity security, vulnerability management, unified compliance, and the role of Posture Security Management Modules.</li> </ul>
Topic 2	<ul style="list-style-type: none"> <li>• <b>Cloud Runtime Security:</b> This domain addresses the protection of cloud workloads during active operation, covering cloud workload protection, detection and response, web application and API security, and vulnerability management. It also includes the processes involved in deploying and managing security agents.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• <b>Cortex Fundamentals:</b> This domain focuses on the core features of the Cortex Cloud platform, including indicator types, log management, asset inventory, compliance, and data protection. It also covers how to create reports and dashboards and how data sources are ingested into the platform.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• <b>Application Security:</b> This domain covers security practices integrated throughout the software development lifecycle, including application security posture management, CI</li> <li>• <b>CD pipeline security,</b> software composition analysis, IaC security, and secrets scanning. It also explores real-world application security use cases and scan management.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• <b>Security Operations Center (SOC) Fundamentals:</b> This domain covers the foundational components of a SOC, including team roles, tools, and technologies used in day-to-day security operations. It also addresses how AI</li> <li>• <b>ML and threat intelligence</b> support incident response, categorization, and prioritization.</li> </ul>

## Palo Alto Networks Cloud Security Professional Sample Questions (Q81-Q86):

### NEW QUESTION # 81

Which of the following is a reason for alert dismissal?

- A. SNOOZED\_AUTO\_CLOSE
- B. ALERT\_RULE\_ADDED
- C. USER\_DELETED
- **D. POLICY\_UPDATED**

**Answer: D**

Explanation:

<https://docs.paloaltonetworks.com/prisma/prisma-cloud/prisma-cloud-admin/manage-prisma-cloud-alerts/prisma-cloud-alert-resolution-reasons>

In Prisma Cloud, POLICY\_UPDATED is a valid reason for the dismissal of an alert. This reason indicates that an alert can be dismissed if the policy that triggered the alert has been updated. When a policy is updated to no longer apply to certain resources or conditions, any open alerts that were generated based on the previous version of the policy may be dismissed as they are no longer relevant.

The other options, such as SNOOZED\_AUTO\_CLOSE, ALERT\_RULE\_ADDED, and USER\_DELETED, are not standard reasons for the dismissal of an alert in Prisma Cloud. SNOOZED\_AUTO\_CLOSE refers to the temporary suspension of an alert, ALERT\_RULE\_ADDED is related to the creation of a new alert rule, and USER\_DELETED would pertain to the removal of a user account, not directly to alert dismissal.

### NEW QUESTION # 82

In Azure, what permissions need to be added to Management Groups to allow Prisma Cloud to calculate net effective permissions?

- A. Microsoft.Management/managementGroups/descendants/calculate
- B. PaloAltoNetworks.PrismaCloud/managementGroups/
- **C. Microsoft.Management/managementGroups/descendants/read**
- D. PaloAltoNetworks.PrismaCloud/managementGroups/descendants/read

**Answer: C**

Explanation:

In Azure, to enable Prisma Cloud to calculate net effective permissions across Management Groups, the necessary permission is "Microsoft.Management/managementGroups/descendants/read." This permission grants Prisma Cloud the ability to read the management group hierarchy and the related details, allowing for a comprehensive analysis of the effective permissions applied across different levels of the management group structure. By having this level of access, Prisma Cloud can accurately assess and report on the permissions assigned to various resources and identities within the Azure environment, facilitating better security and compliance management.

#### NEW QUESTION # 83

A customer is reviewing Container audits, and an audit has identified a cryptominer attack. Which three options could have generated this audit? (Choose three.)

- A. High CPU usage over time for the container is detected.
- B. The mined currency is associated with a user token.
- C. Common cryptominer process name was found.
- D. Common cryptominer port usage was found.
- E. The value of the mined currency exceeds \$100.

**Answer: A,C,D**

Explanation:

In the case of identifying a cryptominer attack through container audits, the options that could have generated this audit include B. High CPU usage over time for the container is detected, which is a common indicator of cryptomining activity as it consumes significant computational resources, C. Common cryptominer process name was found, which directly indicates the presence of cryptomining based on known malicious processes, and E. Common cryptominer port usage was found, suggesting cryptomining activity based on network behavior typical of such attacks.

#### NEW QUESTION # 84

Where can a user submit an external new feature request?

- A. Aha
- B. Support Portal
- C. Feature Request
- D. Help Center

**Answer: A**

Explanation:

<https://prismacloud.ideas.aha.io/ideas>

To submit an external new feature request for Prisma Cloud, users can utilize the Aha platform. By accessing the Palo Alto Networks Aha portal, users can submit their feature requests, suggest enhancements, and contribute to shaping the future of Prisma Cloud. Aha provides a structured way to collect and prioritize customer feedback, ensuring that valuable insights reach the product development teams.

For those seeking to propose new features or improvements, visiting the Aha portal and submitting their ideas is the recommended approach. It allows users to participate in the ongoing evolution of Prisma Cloud by sharing their requirements and vision for the platform.

#### NEW QUESTION # 85

What is an automatically correlated set of individual events generated by the firewall and runtime sensors to identify unfolding attacks?

- A. incident
- B. audit
- C. policy
- D. anomaly

**Answer: A**

Explanation:

Reference: [https://docs.paloaltonetworks.com/prisma/prisma-cloud/prisma-cloud-admin-compute/runtime\\_defense/incident\\_explorer.html](https://docs.paloaltonetworks.com/prisma/prisma-cloud/prisma-cloud-admin-compute/runtime_defense/incident_explorer.html)

An automatically correlated set of individual events generated by the firewall and runtime sensors to identify unfolding attacks is known as an "incident". Incidents provide a consolidated view of related security events, making it easier for administrators to understand the scope and potential impact of an attack, and to take appropriate response actions.

## NEW QUESTION # 86

.....

The customers can prepare from the actual CloudSec-Pro and can clear Palo Alto Networks Cloud Security Professional exam with ease and if they failed to do it despite all of their efforts they can get a full refund of their money according to terms and conditions. The CloudSec-Pro exam solutions is packed with a lot of premium features and it is getting updated on the daily basis according to the syllabus. Palo Alto Networks CloudSec-Pro updates real questions so the students can easily prepare for it and clear Palo Alto Networks CloudSec-Pro exam.
