# Valid 1z0-1110-25 Exam Materials - 100% Efficient Questions Pool

What's more, part of that RealExamFree 1z0-1110-25 dumps now are free: https://drive.google.com/open?id=1piOuRKMag1alYZ-AKFq-hHA_zvypN1QT

We take responses from thousands of experts globally while updating the 1z0-1110-25 content of preparation material. Their feedback and reviews of successful applicants enable us to make our Oracle 1z0-1110-25 dumps material comprehensive for exam preparation purposes. This way we bring dependable and latest exam product which is enough to pass the Oracle 1z0-1110-25 certification test on the very first take.

In order to help you enjoy the best learning experience, our PDF 1z0-1110-25 practice engine supports you download on your computers and print on papers. You must be inspired by your interests and motivation. Once you print all the contents of our 1z0-1110-25 practice dumps on the paper, you will find what you need to study is not as difficult as you imagined before. Also, you can make notes on your papers to help you memorize and understand the difficult parts of the 1z0-1110-25 Exam Questions.

## 1z0-1110-25 Latest Exam Reviews & 1z0-1110-25 Exam Dumps & 1z0-1110-25 Actual Reviews

The operating system of 1z0-1110-25 exam practice has won the appreciation of many users around the world. Within five to ten minutes after your payment is successful, our operating system will send a link to 1z0-1110-25 Training Materials to your email address. After our 1z0-1110-25 study guide update, our operating system will also send you a timely message to ensure that you

will not miss a single message.

# Oracle Cloud Infrastructure 2025 Data Science Professional Sample Questions (Q156-Q161):

**NEW QUESTION # 156**
Which Web Application Firewall (WAF) service component must be configured to allow, block, or log network requests when they meet specified criteria?

- A. Bot Management
- B. Protection rules
- C. Web Application Firewall policy
- D. Origin

**Answer: B**

Explanation:
Detailed Answer in Step-by-Step Solution:
* Objective: Identify the WAF component that controls request actions based on criteria.
* Understand WAF Components:
* Protection Rules: Define conditions and actions (e.g., allow, block, log).
* Bot Management: Handles bot traffic, not general request rules.
* Origin: Backend server endpoint, not rule-based.
* WAF Policy: Umbrella config, but rules specify actions.
* Evaluate Options:
* A: Protection rules-Set specific criteria and actions-correct.
* B: Bot Management-Bot-specific, not general requests.
* C: Origin-Defines source, not actions.
* D: WAF policy-Broad config, not the granular rules.
* Reasoning: Protection rules directly manage request behavior-fit the requirement.
* Conclusion: A is correct.
OCI documentation states: "Protection rules (A) in WAF define conditions (e.g., IP, URL) and actions (allow, block, log) for incoming requests." Bot Management (B) targets bots, Origin (C) is a target server, and WAF Policy (D) encompasses rules but isn't the action specifier-only A aligns with OCI's WAF configuration.
Oracle Cloud Infrastructure WAF Documentation, "Protection Rules".

**NEW QUESTION # 157**
Which OCI service provides a managed Kubernetes service for deploying, scaling, and managing containerized applications?

- A. Oracle Cloud Infrastructure Container Engine for Kubernetes
- B. Oracle Cloud Infrastructure Container Registry
- C. Oracle Cloud Infrastructure Streaming
- D. Oracle Cloud Infrastructure Load Balancing

**Answer: A**

Explanation:
Detailed Answer in Step-by-Step Solution:
* Objective: Identify OCI's managed Kubernetes service.
* Evaluate Options:
* A: Container Registry-Stores images, not Kubernetes.
* B: Load Balancing-Network service, not Kubernetes.
* C: Container Engine (OKE)-Managed Kubernetes-correct.
* D: Streaming-Data streaming, not containers.
* Reasoning: C is OCI's Kubernetes offering-OKE.
* Conclusion: C is correct.
OCI documentation states: "OCI Container Engine for Kubernetes (OKE) (C) provides a managed service to deploy, scale, and manage containerized applications using Kubernetes." A, B, and D serve other purposes- only C matches per OCI's container services.
Oracle Cloud Infrastructure OKE Documentation, "Overview".

**NEW QUESTION # 158**
Which statement is true about origin management in Web Application Firewall (WAF)?

- A. Both the statements are true
- B. Only statement A is true
- C. Only statement B is true
- D. Only a single origin can be active for a WAF
- E. Multiple origins can be defined
- F. Both the statements are false

**Answer: A**

Explanation:
Detailed Answer in Step-by-Step Solution:
* Objective: Determine truth about WAF origin management.
* Understand WAF: Protects apps by routing traffic via origins.
* Evaluate Statements:
* A: Multiple origins-True; WAF supports this.
* B: Single active origin-True; only one is active per policy.
* Evaluate Options:
* C: B only-False; A is true.
* D: Both false-Incorrect.
* E: Both true-Correct per OCI WAF.
* F: A only-False; B is true.
* Conclusion: E is correct.
OCI documentation states: "WAF allows defining multiple origins (A), but only one origin is active per WAF policy at a time (B)-both are true (E)." C, D, and F misalign-E matches OCI's WAF origin management.
Oracle Cloud Infrastructure WAF Documentation, "Origin Management".

**NEW QUESTION # 159**
Which Oracle Data Safe feature minimizes the amount of personal data and allows internal test, development, and analytics teams to operate with reduced risk?

- A. Data masking
- B. Data auditing
- C. Security assessment
- D. Data discovery
- E. Data encryption

**Answer: A**

Explanation:
Detailed Answer in Step-by-Step Solution:
* Objective: Identify the Data Safe feature that reduces personal data exposure.
* Understand Data Safe: Secures sensitive data in OCI databases.
* Evaluate Options:
* A: Encryption-Protects data, doesn't minimize it.
* B: Assessment-Identifies risks, doesn't alter data.
* C: Masking-Obfuscates personal data (e.g., SSNs)-correct.
* D: Discovery-Locates sensitive data, doesn't reduce it.
* E: Auditing-Tracks access, doesn't minimize data.
* Reasoning: Masking replaces sensitive data, reducing risk for teams-fits goal.
* Conclusion: C is correct.
OCI documentation states: "Data masking (C) in Data Safe transforms sensitive data into anonymized versions, minimizing exposure for test, dev, and analytics use." A protects, B assesses, D finds, E audits- only C reduces data per OCI's Data Safe features.
Oracle Cloud Infrastructure Data Safe Documentation, "Data Masking Overview".

## NEW QUESTION # 160

Six months ago you created and deployed a model that predicts customer churn for a call center. Initially, it was yielding quality predictions. However, over the last two months, users have been questioning the credibility of the predictions. Which TWO methods would you employ to verify accuracy and lower customer churn?

- A. Validate the model using recent data
- B. Retrain the model
- C. Drift monitoring
- D. Operational monitoring
- E. Redeploy the model

**Answer: B,C**

Explanation:
Detailed Answer in Step-by-Step Solution:
* Objective: Address declining model performance and improve churn prediction.
* Analyze Issue: Poor predictions suggest data drift or model staleness-common ML challenges.
* Evaluate Options:
* A. Drift monitoring: Tracks changes in data distribution-identifies root cause of accuracy drop- correct.
* B. Redeploy the model: Repeats deployment without fixing the issue-ineffective alone.
* C. Operational monitoring: Tracks system health (e.g., latency), not prediction quality.
* D. Retrain the model: Updates model with new data-directly improves accuracy-correct.
* E. Validate with recent data: Checks performance but doesn't fix-diagnostic, not corrective.
* Reasoning: A diagnoses drift (cause), D retrains to adapt (solution)-best combo to verify and lower churn.
* Conclusion: A and D are correct.
OCI documentation advises: "Drift monitoring (A) detects shifts in data distribution that degrade model performance, while retraining (D) with fresh data restores accuracy." Redeployment (B) doesn't address drift, operational monitoring (C) focuses on infra, and validation (E) is a check-not a fix. A and D align with OCI' s model maintenance strategy.
Oracle Cloud Infrastructure Data Science Documentation, "Model Monitoring and Retraining".

## NEW QUESTION # 161

......

As we all know, passing an exam is not an easy thing for many candidates. They need time and energy to practice. 1z0-1110-25 study materials will save your time with the skilled professional to compile them, and they are quite familiar with exam center. Therefore there is no need for you to research the 1z0-1110-25 Study Materials by yourself. Furthermore, we use international recognition third party for your payment for 1z0-1110-25 exam dumps, and your money and account safety can be guaranteed. If you find your interests haven't been guaranteed, you can ask for the refund.

**Test 1z0-1110-25 Discount Voucher**: https://www.realexamfree.com/1z0-1110-25-real-exam-dumps.html

Besides, RealExamFree Test 1z0-1110-25 Discount Voucher also got a high reputation in many certification industry, Oracle Cloud Infrastructure 2025 Data Science Professional (1z0-1110-25) dumps PDF version is printable and embedded with valid Oracle 1z0-1110-25 questions to help you get ready for the Oracle Cloud Infrastructure 2025 Data Science Professional (1z0-1110-25) exam quickly, Our 1z0-1110-25 exam guide is suitable for everyone whether you are a business man or a student, because you just need 20-30 hours to practice it that you can attend to your exam, Since different people have different preferences, we have prepared three kinds of different versions of our 1z0-1110-25 training guide: PDF, Online App and software.

Another interesting part of LightWave when it comes to lighting is the 1z0-1110-25 Global Illumination option, In many cases, a discussion is provided with the recommendation to help you understand various design trade-offs.

# Boost Your Confidence with Oracle 1z0-1110-25 Questions PDF

Besides, RealExamFree also got a high reputation in many certification industry, Oracle Cloud Infrastructure 2025 Data Science Professional (1z0-1110-25) dumps PDF version is printable and embedded with valid Oracle 1z0-1110-25 questions to help you get ready for the Oracle Cloud Infrastructure 2025 Data Science Professional (1z0-1110-25) exam quickly.

Our 1z0-1110-25 exam guide is suitable for everyone whether you are a business man or a student, because you just need 20-30 hours to practice it that you can attend to your exam.

Since different people have different preferences, we have prepared three kinds of different versions of our 1z0-1110-25 training

guide: PDF, Online App and software.

And at this point, our 1z0-1110-25 study materials do very well.
