Our real SAFe-Practitioner dumps PDF is useful for applicants who don't have enough time to prepare for the examination. If you are a busy individual, you can use SAFe-Practitioner Pdf Dumps on the go and save time.

The SAFe 5 Practitioner (SP) Certification Exam covers a range of topics, including Agile development practices, SAFe principles and values, Agile Release Trains (ARTs), Agile portfolio management, and more. SAFe-Practitioner exam is designed to assess the individual's ability to apply these concepts and practices to real-world situations. SAFe-Practitioner Exam is a multiple-choice test that comprises 45 questions to be answered within 90 minutes. SAFe-Practitioner exam is computer-based and can be taken online or in-person at a testing center.

Scrum SAFe Practitioner Exam (6.0) Sample Questions (Q65-Q70):

NEW QUESTION # 65
Which of the following activities does SAFe recommend as the first activity of the Inspect and Adapt event?

- A. Quantitative measurement
- B. PI System Demo
- C. Agreement on the problems to solve
- D. Retrospective and problem-solving workshop

Answer: B

Explanation:
The PI System Demo is the first activity of the Inspect and Adapt event, which shows all the Features that the Agile Release Train (ART) has developed during the Program Increment (PI)1. It provides an opportunity for the ART to evaluate the current state of the Solution and collect feedback from the stakeholders2. The other options are not the first activity of the Inspect and Adapt event, but rather subsequent activities that follow the PI System Demo. Quantitative and qualitative measurement is the second activity, which involves reviewing the PI performance and progress metrics3. Retrospective and problem-solving workshop is the third activity, which involves identifying and prioritizing the improvement opportunities for the next PI4. Agreement on the problems to solve is a step within the retrospective and problem-solving workshop, which involves reaching a consensus on the most critical issues to address5.

NEW QUESTION # 66
What is the purpose of the Iteration review?

- A. To forecast where work is estimated for the upcoming PIs
- B. To work on solutions for backlog items
- C. To identify where there is too much work in the system
- D. To measure the team's progress

Answer: D

Explanation:
The purpose of the Iteration review is to measure the team's progress by showing working stories to the Product Owner and other stakeholders and getting their feedback. The Iteration review provides a way to gather immediate, contextual feedback from the team's stakeholders on a regular cadence. The Iteration review also allows the team to demonstrate their contributions, receive feedback to improve the solution, and adjust the Team Backlog based on new opportunities1234. NEW QUESTION # 67
Which team event demonstrates the completed functionality?

- A. Iteration Retrospective
- B. Inspect & Adapt
- C. Backlog Refinement Session
- D. Iteration Review

Answer: D

NEW QUESTION # 68
What is one of the tools associated with Design Thinking?

- A. Portfolio canvas
- B. Behavior-driven development
- C. Empathy maps
- D. Set based design

Answer: C

Explanation:
One of the tools associated with Design Thinking is empathy maps, which are a visual way to capture and organize the user's needs, goals, pains, and gains. Empathy maps help the team to understand the user's perspective, empathize with their emotions, and design solutions that address their problems and aspirations.
Empathy maps are typically created during the Discover phase of Design Thinking, where the team conducts user research and synthesizes the findings. NEW QUESTION # 69

Which the simplest SAFe configuration?

- A. Large Solution
- B. Program
- C. Essential
- D. Portfolio

Answer: C

NEW QUESTION # 70

......
