

# Pass-Sure Study Materials NS0-901 Review offer you accurate Mock Exams | NetApp Certified AI Expert Exam

By doing this you can stay competitive and updated in the market. There are other several NetApp Certified AI Expert Exam (NS0-901) certification exam benefits that you can gain after passing the NetApp Certified AI Expert Exam (NS0-901) exam. Are you ready to add the NS0-901 certification to your resume? Looking for the proven, easiest and quick way to pass the NS0-901 Exam? If you are then you do not need to go anywhere. Just download the NS0-901 Questions and start NetApp Certified AI Expert Exam (NS0-901) exam preparation today.

Most of the candidates who plan to take the NS0-901 certification exam lack updated practice questions to ace it on the first attempt. Due to this, they fail the NetApp Certified AI Expert Exam (NS0-901) test, losing money and time. And in some cases, applicants fail on the second attempt as well because they don't prepare with NS0-901 Actual Exam questions. This results in not only the loss of resources but also the motivation of the candidate.

## Mock NS0-901 Exams - NS0-901 Exam Passing Score

Preparing for the Network Appliance NS0-901 certification exam can be time-consuming and expensive. That's why we guarantee that our customers will pass the NetApp Certified AI Expert Exam (NS0-901) exam on the first attempt by using our product. By providing this guarantee, we save our customers both time and money, making our NS0-901 Practice material a wise investment in their career development.

## Network Appliance NetApp Certified AI Expert Exam Sample Questions (Q16-Q21):

### NEW QUESTION # 16

What is the primary difference between C-Series and A-Series storage for AI workloads?

- A. C-Series supports both file and object-based storage, while A-Series is optimized for object storage.
- B. A-Series is for smaller-scale AI workloads, while C-Series supports large-scale, high-performance AI applications.
- C. A-Series provides GPU-based acceleration, while C-Series only supports CPU-based workloads.
- **D. C-Series is designed for high-performance workloads, while A-Series focuses on cost-efficiency for general storage.**

**Answer: D**

### NEW QUESTION # 17

An organization recently suffered a ransomware attack that encrypted several volumes on their primary ONTAP storage system, including a critical volume containing curated training data. The security team needs to implement a solution that can proactively detect and block ransomware-like file I/O patterns and automatically create a secure Snapshot copy before any damage is done.

The current ONTAP configuration is as follows:

ONTAP\_Version: 9.12.1

Security\_Features: SnapLock (Compliance Mode) on archive volumes

Anti-Virus\_Scan: Enabled (Vscan)

Ransomware\_Detection: Not configured

Which ONTAP feature should be enabled to provide this proactive, automated protection?

- A. Enable Multi-Admin Verification (MAV) on all volumes.
- B. Use BlueXP backup and recovery to back up the volumes to the cloud more frequently.
- C. Increase the frequency of scheduled Snapshots.
- **D. Enable Autonomous Ransomware Protection (ARP).**

**Answer: D**

### NEW QUESTION # 18

Which of the following best describes the difference between data lakes, data warehouses, and lakehouses?

- A. Data lakes store data in cloud storage, data warehouses store it in traditional databases, and lakehouses store it in external drives.
- **B. Data lakes store raw, unstructured data, data warehouses store structured data, and lakehouses combine the features of both.**
- C. Data lakes store metadata, data warehouses store transaction data, and lakehouses store archival data.
- D. Data lakes store structured data, data warehouses store unstructured data, and lakehouses store only real-time data.

**Answer: B**

### NEW QUESTION # 19

A data scientist needs to launch a Jupyter notebook as a pod in a Kubernetes cluster. The pod requires a 50 Gi persistent volume for storing datasets and notebooks. The cluster administrator has configured a default Trident StorageClass for general-purpose use. The data scientist has the following PersistentVolumeClaim (PVC) manifest:

```
apiVersion: v1
```

```
kind: PersistentVolumeClaim
```

```
metadata:
```

```
name: jupyter-pvc
```

```
spec:
```

```
accessModes:
```

```
- ReadWriteOnce
```

```
resources:
```

```
requests:
```

```
storage: 50Gi
```

When this PVC is applied to the cluster, what will be the result?

- A. Trident will create a 1 Gi volume, as this is the default size for all PVCs.
- **B. Trident will automatically provision a 50 Gi volume on its default backend and bind it to the PVC.**
- C. The PVC will remain in a "Pending" state until a PersistentVolume is manually created.
- D. The PVC will fail because a 'storageClassName' is not explicitly defined.

**Answer: B**

### NEW QUESTION # 20

An AI architect is reviewing the design for a new data lake. The primary requirement is to store petabytes of unstructured data (images, video, sensor logs) in a highly durable, scalable, and cost-effective manner. The data will be accessed via S3 API by various data processing and analytics applications.

The initial design proposes using a traditional Network Attached Storage (NAS) filer with a large number of disks. The architect reviews the proposal:

Proposed\_System: Traditional NAS Filer

Protocol: NFSv4

Scalability\_Model: Scale-up

Metadata\_Handling: Centralized in filer head

Cost\_per\_GB: Moderate

Why is this proposed system a poor choice for a petabyte-scale data lake?

- A. A NAS filer cannot be deployed on-premises.
- B. NFS is incapable of storing image or video files.
- C. The S3 API cannot be used to access data stored on an NFS file system.
- **D. A traditional scale-up NAS system will face scalability and cost-effectiveness challenges at the petabyte scale compared to an object storage system.**

**Answer: D**

## NEW QUESTION # 21

.....

To provide our users with the NetApp Certified AI Expert Exam (NS0-901) latest questions based on the sections of the actual exam questions, we regularly update our NS0-901 study material. Also, Exams-boost provides free updates of Network Appliance NS0-901 Exam Questions for up to 365 days. For customers who don't crack the Network Appliance NS0-901 test after using our product, Exams-boost will provides them a refund guarantee according to terms and conditions.

**Mock NS0-901 Exams:** <https://www.exams-boost.com/NS0-901-valid-materials.html>

We will give you full refund if you fail to pass the exam after purchasing NS0-901 learning materials from us, Let's start by passing the NS0-901 exam, Our company's NS0-901 exam questions are reliable packed with the best available information, Network Appliance Study Materials NS0-901 Review Purchasing package of three version shares great discount, Network Appliance Study Materials NS0-901 Review And if you want to be one of them, you had to learn more.

A recommendation I give to all my students NS0-901 and readers is to separate the OS from the data physically, Select all correct answers, We will give you full refund if you fail to pass the exam after purchasing NS0-901 Learning Materials from us.

## Pass Guaranteed 2026 Network Appliance Accurate NS0-901: Study Materials NetApp Certified AI Expert Exam Review

Let's start by passing the NS0-901 exam, Our company's NS0-901 exam questions are reliable packed with the best available information, Purchasing package of three version shares great discount.

And if you want to be one of them, you had to learn more.
