Experience-Cloud-Consultant exam is designed for consultants who specialize in the Experience Cloud and work with clients to design, build, and deploy solutions that enhance customer experience and improve business outcomes.

Salesforce Experience-Cloud-Consultant exam is a certification that demonstrates expertise in implementing and managing Experience Cloud solutions. Experience-Cloud-Consultant Exam is designed for individuals who have experience in designing and implementing customer-facing solutions with a focus on user experience. Salesforce Certified Experience Cloud Consultant certification exam tests candidates on their ability to design and implement Experience Cloud solutions that meet business

requirements and provide a seamless customer experience.

Salesforce Certified Experience Cloud Consultant Sample Questions (Q11-Q16):

NEW QUESTION # 11

Which three fields are required creating Experience Cloud users using Data Loader?

Choose 3 answers

- A. Profile Id
- B. Currency
- C. Role Id
- D. Profile Name
- E. First Name

Answer: A,B,E

Explanation:

Three fields that are required for creating Experience Cloud users using Data Loader are A, B, and E. Data Loader is a tool that allows you to import or export large amounts of data in or out of your Salesforce org. To create Experience Cloud users using Data Loader, you need to have some required fields in your CSV file, such as:

Profile Id: This field specifies the profile that determines what users can see and do on your Experience Cloud site.

First Name: This field specifies the first name of the user.

Currency: This field specifies the currency that applies to the user's data.

Other required fields include Last Name, Alias, Email, Username, Community Nickname, Contact Id (or Account Id), and IsActive.

NEW QUESTION # 12

DreamHouse Realty (DR) has active participation of home owners and prospective buyers in its Experience Cloud site that uses Chatter. Recently, DR observed a significant number of comments being marked as spam.

OR's Salesforce and Security teams did further analysis and identified the posts made by the spammers.

OR's Management team has decided to remove all the spammers' posts and comments from the Experience Cloud site.

What should the Experience Cloud consultant recommend to remove them?

- A. Experience Cloud site managers, moderators, and admins work together to remove all the spammers' posts and comments manually.
- B. Enable Experience Cloud Einstein features to remove all the spammers' posts and comments as a background action.
- C. Submit a high-priority case with Salesforce Support to remove all of the spammers' posts and comments. The site will be under maintenance state until resolution.
- D. Utilize the Insights reports by creating and using a custom action to remove all the spammers' posts and comments.

Answer: D

Explanation:

To remove all the spammers' posts and comments from the Experience Cloud site, DR should utilize the Insights reports by creating and using a custom action to remove them. Insights reports are reports that show the activity and engagement metrics on DR's site, such as page views, likes, comments, flags, and moderation actions. DR can use Insights reports to identify the spammers' posts and comments based on the flagging reasons or other criteria. DR can also create a custom action that allows DR to remove multiple posts or comments at once from the Insights reports.

NEW QUESTION # 13

Ursa Major Solar (UMS) is using the Customer Account Portal template and would like to differentiate the options available on the navigation menu based on the profile of the authenticated user visiting their customer portal.

Which Experience Cloud functionality should UMS use to accomplish this?

- A. CSS Overrides
- B. Sharing Rules
- C. Audience Targeting
- D. Permission Sets

Answer: C

Explanation:

Audience targeting allows UMS to create audiences based on user attributes, such as profile, location, or language, and display different content or components to different audiences within the same site. For example, UMS can create an audience for premium customers and show them a special offer on the navigation menu, while hiding it from other customers. Audience targeting can be applied to any component or page in Experience Builder.

NEW QUESTION # 14

How can records owned by Customer Community users be shared with internal users?

- A. Create a Sharing Set that includes a Customer Community profile and create a Share Group for the Sharing Set.
- B. Use the standard is Owned By External User checkbox on records to create a criteria-based sharing rule to share records owned by Customer Community users with all internal users.
- **C. Create a Share Group for a Customer Community profile that is not associated with a Sharing Set.**
- D. Create an owner-based sharing rule to share records owned by a Customer Community role with all internal users.

Answer: C

NEW QUESTION # 15

Recently, Ursa Major Solar (UMS) decided it no longer wants to utilize Data Categories to control article visibility for its customer portal. UMS's users will need to be logged in to the portal in order to view any Knowledge articles.

Outside of Data Categories, what is another way UMS can control Knowledge article visibility?

- A. Sharing Rules
- B. Branding Sets
- C. Audience Targeting
- **D. Permission Sets**

Answer: D
