Free PDF Quiz 2026 Amazon ANS-C01: AWS Certified Advanced Networking Specialty Exam – High Pass-Rate Reliable Study Questions

Dear everyone, to get yourself certified by our ANS-C01 exam prep. We offer you the real and updated Itexamguide ANS-C01 study material for your exam preparation. The ANS-C01 online test engine can create an interactive simulation environment for you. When you try the ANS-C01 online test engine, you will really feel in the actual test. Besides, you can get your exam scores after each test. What's more, it is very convenient to do marks and notes. Thus, you can know your strengths and weakness after review your ANS-C01 test. Then you can do a detail study plan and the success will be a little case.

Amazon AWS Certified Advanced Networking Specialty Exam Sample Questions (Q41-Q46):

NEW QUESTION # 41

Changes made to a security group attached to an Application Load Balancer resulted in connectivity issues for a company's production web application.

The Network Engineer needs to lock down permissions for the company's AWS account, automate auditing for any changes, and set up notifications.

What actions should accomplish this?

Response:

- A. Configure IAM role policies to lock down permissions for specific users. Configure Amazon GuardDuty to audit and monitor configuration changes, configure Amazon SNS to send notifications.
- **B. Configure IAM user policies to lock down permissions for specific users. Enable AWS CloudTrail to identify API calls from users. Use AWS Config to audit any changes, and configure Amazon SNS to send notifications.**
- C. Configure IAM user policies to lock down permissions for specific users. Enable AWS CloudTrail to identify the API calls from users. Configure AWS CodeCommit to audit any changes in configurations, and configure Amazon SNS to send notifications.
- D. Configure IAM user policies to lock down permissions for specific users. Enable AWS CloudTrail to identify the API class from users. Configure Amazon Macie to use machine learning to identify any configuration changes, and configure Amazon SNS to send notifications.

Answer: B
