100% Pass Microsoft - Updated PL-600 - Microsoft Power Platform Solution Architect Vce Download

We provide 1 year of free updates. In conclusion, PassCollection guarantees that if you use the product, you will pass the PL-600 exam on your first try. Its primary goal is to save students time and money, not just conduct a business transaction. Candidates can take advantage of the free trials to evaluate the quality and standard of the PL-600 Dumps before making a purchase. With the right PL-600 study material and support team passing the examination at first attempt is an achievable goal.

Microsoft Power Platform Solution Architect Sample Questions (Q10-Q15):

NEW QUESTION # 10

A company reports the following issues with an existing data management system.

Users cannot search for specific records by using a user-friendly ID or record identifier.

Users occasionally enter data into fields that is not required.

The record form displays all fields. Many of the fields are not used.

You need to ensure that the Power Platform solution will ensure data quality can be properly maintained. Which component should you use? To answer, select the appropriate options in the answer area.
NOTE: Each correct selection is worth one point.

Requirement	Solution
Ensure that users can search for specific records by using a unique identifier.	<div>Business rule</div> <div>Autonumber column</div> <div>Business process flow</div> <div>Duplicate detection rule</div>
You must prevent data entry into columns that do not require entry.	<div>Business rule</div> <div>Real time workflow</div> <div>Business process flow</div> <div>Duplicate detection rule</div>

Answer:

Explanation:

Requirement	Solution
Ensure that users can search for specific records by using a unique identifier.	<div>Business rule</div> <div>Autonumber column</div> <div>Business process flow</div> <div>Duplicate detection rule</div>
You must prevent data entry into columns that do not require entry.	<div>Business rule</div> <div>Real time workflow</div> <div>Business process flow</div> <div>Duplicate detection rule</div>

NEW QUESTION # 11

A company is struggling to gather insights from won and lost opportunities.

Users must be able to access the company's solution from mobile and desktop devices. The solution must meet the following requirements:

context of other related data.

Display data to users as charts and tables and provide drill-through capabilities.

You need to recommend a Power Platform tool to help the client visualize the data.

Which two technologies should you recommend? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Power Apps
- B. Power Automate
- C. Power Virtual Agents

- D. Power BI

Answer: A,D

Explanation:

Explanation

A: Power BI is a business analytics service by Microsoft. It aims to provide interactive visualizations and business intelligence capabilities with an interface simple enough for end users to create their own reports and dashboards. It is part of the Microsoft Power Platform.

D: Power BI Apps are an easy way for designers to share different types of content at one time. App designers create the dashboards and reports and bundle them together into an app. The designers then share or publish the app to a location where you, the business user, can access it. Because related dashboards and reports are bundled together, it's easier for you to find and install in both the Power BI service (<https://powerbi.com>) and on your mobile device. After you install an app, you don't have to remember the names of a lot of different dashboards or reports because they're all together in one app, in your browser or on your mobile device.

NEW QUESTION # 12

You are implementing a Microsoft Power Platform solution for a customer to include data migration from multiple legacy systems. The data includes lead and contact data. The environment includes an assigned security group.

The following issues have occurred during a go-live deployment attempt:

- * Lookup values are not populated when data migration is complete.
- * Data is being added to the contacts table that is not part of the data migration.
- * Various users do not appear in the list of users available for record assignment.

You need to resolve the go-live deployment issues.

How should you resolve the issue? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Issue	Solution
Lookup values are not populated when data migration is complete.	<input type="checkbox"/> Split the import data into smaller import batches. <input type="checkbox"/> Import the data by using an application user. <input checked="" type="checkbox"/> Split the import data into smaller import batches. <input type="checkbox"/> Disable all Power Automate flows, plug-ins, and workflows. <input type="checkbox"/> Run data migration in a specific order.
Data is being added to the contacts table that is not part of the data migration.	<input type="checkbox"/> Disable all Power Automate flows, plug-ins, and workflows. <input type="checkbox"/> Disable auditing. <input type="checkbox"/> Import the data by using an application user. <input checked="" type="checkbox"/> Disable all Power Automate flows, plug-ins, and workflows. <input type="checkbox"/> Split the import data into smaller import batches.
Various users do not appear in the list of users available for record assignment.	<input checked="" type="checkbox"/> Add to a security group. <input checked="" type="checkbox"/> Add to a security group. <input type="checkbox"/> Add a security role. <input type="checkbox"/> Add a Microsoft 365 role. <input type="checkbox"/> Add a field security profile.

Answer:

Explanation:

Microsoft

Issue

Lookup values are not populated when data migration is complete.

Data is being added to the contacts table that is not part of the data migration.

Various users do not appear in the list of users available for record assignment.

Solution

- Split the import data into smaller import batches.
- Import the data by using an application user.
- Split the import data into smaller import batches.
- Disable all Power Automate flows, plug-ins, and workflows.
- Run data migration in a specific order.
- Disable all Power Automate flows, plug-ins, and workflows.
- Disable auditing.
- Import the data by using an application user.
- Disable all Power Automate flows, plug-ins, and workflows.
- Split the import data into smaller import batches.
- Add to a security group.
- Add to a security group.
- Add a security role.
- Add a Microsoft 365 role.
- Add a field security profile.

Explanation:

Issue	Solution
Lookup values are not populated when data migration is complete.	Split the import data into smaller import batches.
Data is being added to the contacts table that is not part of the data migration.	Disable all Power Automate flows, plug-ins, and workflows.
Various users do not appear in the list of users available for record assignment.	Add to a security group.

NEW QUESTION # 13

You are designing a Microsoft Power Platform solution that will be deployed to two separate companies in the same Microsoft Office 365 tenant: Contoso, Ltd. and Contoso Pharmaceuticals.

The solution must meet the following security requirements:

- * Restrict Contoso, Ltd. users from seeing the Contoso Pharmaceuticals company.
- * Restrict access to specific forms.
- * Restrict access to specific tables.

What should you recommend? To answer, drag the appropriate security types to the correct restrictions. Each security type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Security objects

- Security role
- Team
- Security group
- User profile

Answer Area

Restriction

- Restrict Contoso, Ltd. users from seeing the Contoso Pharmaceuticals company.
- Restrict access to specific forms.
- Restrict access to specific tables.

Security object

-
-
-

Answer:

Explanation:

Security objects

- Security role
- Team
- Security group
- User profile

Answer Area

Restriction

- Restrict Contoso, Ltd. users from seeing the Contoso Pharmaceuticals company.
- Restrict access to specific forms.
- Restrict access to specific tables.

Security object

- Team
- Security group
- Security role

Explanation:

Security objects	Restriction	Security object
Security role	Restrict Contoso, Ltd. users from seeing the Contoso Pharmaceuticals company.	Team
Team	Restrict access to specific forms.	Security group
Security group	Restrict access to specific tables.	Security role
User profile		

NEW QUESTION # 14

You are performing a fit gap requirements analysis.

You need to select Microsoft Power Platform components to satisfy the requirements.

Which components should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Requirement	Component
Coordinate long-term end-to-end delivery of financial counseling services to farmers.	<input type="text" value="Model-driven app"/>
Manage project accounting and recognize revenue compliant with international financial reporting standards.	<input type="text" value="Dynamics 365 Finance"/>
Notify users of their overdue tasks on a daily basis.	<input type="text" value="Power Automate"/>
Notify users of their overdue tasks on a daily basis.	<input type="text" value="Power Automate"/>

Answer:

Explanation:

Requirement	Component
Coordinate long-term end-to-end delivery of financial counseling services to farmers.	<input type="text" value="Model-driven app"/>
Manage project accounting and recognize revenue compliant with international financial reporting standards.	<input type="text" value="Dynamics 365 Finance"/>
