Our C_TS414_2023 latest questions is one of the most wonderful reviewing C_TS414_2023 study training materials in our industry, so choose us, and together we will make a brighter future.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Quality

Management Sample Questions (Q74-Q79):

NEW QUESTION # 74

You want to use a purchasing process with release stages (for example, first-article, preliminary series, regular procurement) and different inspection plan for each stage. How do you configure this process?

- A. By assigning a status profile to the inspection type settings in the material master
- B. By assigning a status profile to the business partner
- C. By assigning a status profile to the quality info record: Procurement
- D. By assigning a status profile to the inspection type settings in customizing

Answer: C

Explanation:
To manage release stages (e.g., first-article, series) with different inspection plans in procurement, SAP QM uses:
* By Assigning a Status Profile to the Quality Info Record: Procurement (B): In the quality info record (transaction QI01), you assign a status profile (defined in SPRO > QM > Environment > Status Management). This profile controls stages (e.g., "First Article," "Series") via statuses, and each status can link to a specific inspection plan via dynamic modification or inspection type settings. This is the standard approach for supplier-material-specific release processes.
* Business Partner (A): Status profiles here are for partner management, not QM inspection stages.
* Inspection Type Settings in Customizing (C): Inspection types (e.g., 01) don't use status profiles directly in Customizing.
* Inspection Type in Material Master (D): The material master's QM view doesn't support status profiles for this purpose.
Thus, "By assigning a status profile to the quality info record: Procurement" is the correct answer.References:
SAP Help Portal - "Quality Info Record and Release Stages"; SAP S/4HANA QM Customizing Guide -
"Status Profiles".

NEW QUESTION # 75

A buyer wants to quality management department to approve a new vender malarial
-combination.
After activating the QM in procurement process , what the quality management department ensure in......
